Renunciation And Reformulation A Study Of Conversion In An American Sect:

Renunciation and Reformulation Harriet Whitehead,1987 Renunciation and Reformulation Harriet Whitehead, Among the Scientologists Donald A. Westbrook,2019 The Church of Scientology is one of the most recognizable American born new religions but perhaps the least understood With academic and popular interest on the rise many books have been written about Scientology and surely more will follow Although academics have begun to pay more attention to Scientology the subject has received remarkably little qualitative attention Indeed no work has systematically addressed such questions as what do Scientologists themselves have to say about their religion s history theology and practices How does Scientology act as a religion for them What does lived religion look like for a Scientologist This is not so much a book about the Church of Scientology its leaders or its controversies as it is a compilation of narratives and histories based on the largely unheard or ignored perspectives of Scientologists themselves Drawing on six years of interviews fieldwork and research conducted among members of the Church of Scientology this groundbreaking work examines features of the new religion s history theology and praxis in ways that move discussion beyond apostate driven and expos accounts *Distant Companions* Karen Tranberg Hansen,2018-03-15 *Distant Companions* tells the fascinating story of the lives and times of domestic servants and their employers in Zambia from the beginning of white settlement during the colonial period until after independence Emphasizing the interactive nature of relationships of domination the book is useful for readers who seek to understand the dynamics of domestic service in a variety of settings In order to examine the servant employer relationship within the context of larger political and economic processes Karen Tranberg Hansen employs an unusual combination of methods including analysis of historical documents travelogues memoirs literature and life histories as well as anthropological fieldwork survey research and participant observation The Magic City Gregory Pappas,2018-08-06 Thirty two million Americans have lost jobs because of permanent factory closings since 1970 Gregory Pappas here provides an intimate account of the economic social psychological and medical consequences of one such closing Once known as the magic city of economic opportunity Barberton Ohio is an industrial working class town of second and third generation factory workers When the Seiberling tire plant in Barberton was closed in 1980 over 1200 jobs were eliminated Drawing on extensive research including surveys and interviews with workers laid off by the closing Pappas offers an incisive analysis of their responses to unemployment Pappas first details the ways in which the unemployed rubber workers have met their economic needs in the face of declining income He next evaluates their success in reentering the labor market as he examines the job hunting process the unemployment insurance system and workers initiatives toward retraining and relocation Turning to the psychological effects of the shutdown on workers and their families Pappas describes unemployed workers responses to the loss of status identity participation in the community and sense of time He next considers central historical questions offering an explanation of the contemporary rise in unemployment and analyzing the prior development of this community that must now bear the burden

of change Two detailed portraits document the adaptations of individuals to the shutdown and explore the complex relationship between social change and personality

Free Zone Scientology Aled Thomas, 2021-04-08 In this novel academic study Aled Thomas analyses modern issues surrounding boundaries and fluidity in contemporary Scientology By using the Scientologist practice of auditing as a case study this book explores the ways in which new types of Scientologies can emerge The notion of Free Zone Scientology is characterised by its horizontal structure in contrast to the vertical hierarchy of the institutional Church of Scientology With this in mind Thomas explores the Free Zone as an example of a developing and fluid religion directly addressing questions concerning authority leadership and material objects This book by maintaining a double focus on the top down hierarchy of the Church of Scientology and the horizontal fluid nature of the Free Zone breaks away from previous research on new religions which have tended to focus either on new religions as indices of broad social processes such as secularization or globalization or as exemplars of exotic processes such as charismatic authority and brainwashing Instead Thomas adopts auditing as a method of providing an in depth case study of a new religion in transition and transformation in the 21st century This opens the study of contemporary and new religions to a series of new questions around hybrid religions sacred and secular and acts as a framework for the study of similar movements formed in recent decades

Secret Societies and Clubs in American History David Lührssen, 2015-09-09 Grounded in extensive historical research this eye opening survey reveals the long undervalued role secret societies have played in American history Americans are fascinated by secret societies and have devoured exaggerated claims for their influence At the same time scholarly assessments of covert groups that have shaped American social cultural and political history have often undervalued their role or even questioned their existence This survey challenges both the exaggerators and the deniers Freemasons They may not be the hidden rulers of the world but a significant number of America s founders were Masons The Know Nothings Two American presidents joined the movement The Bohemian Grove Republican politicians and corporate leaders really did engage in strange behavior under the redwood trees through the 20th century Revealing fascinating facts about some of the

Lewis, 2017-01-05 The Handbook of Scientology brings together a collection of fresh studies of the most persistently controversial of all contemporary New Religions In recent years increasing scholarly attention has been directed at the Church of Scientology resulting in a small tsunami of new scholarship We have finally reached a point in time where a book on Scientology need not restrict itself to basics Thus for example the historical chapters in the present volume are not really aimed at providing elementary facts on Scientology's background but rather focus on understanding how the Church of Scientology developed over the years In short the Handbook of Scientology will provide a wealth of new information on a topic that one might otherwise have thought exhausted Contributors are Matthew Charet Dorthe Refslund Christensen Carole M Cusack Bernard Doherty Marco Frenschkowski Liselotte Frisk Kjersti Helles y Don Jolly James R Lewis Renee Lockwood Andr s M t T th G bor D niel Nagy Johanna Petsche Erin Prophet Susan Raine David G Robertson Mikael Rothstein Lisbeth Tuxin Rubin Nicole S Ruskell Shannon Trosper Schorey Michelle Swainson Inga Brdsen T llefsen Hugh G Urban Donald A Westbrook and Benjamin Zeller *Mondo Nano* Colin Milburn, 2015-04-24 In Mondo Nano Colin Milburn takes his readers on a playful expedition through the emerging landscape of nanotechnology offering a light hearted yet critical account of our high tech world of fun and games This expedition ventures into discussions of the first nanocars the popular video games Second Life Crysis and BioShock international nanosoccer tournaments and utopian nano cities Along the way Milburn shows how the methods dispositions and goals of nanotechnology research converge with video game culture With an emphasis on play scientists and gamers alike are building a new world atom by atom transforming scientific speculations and video game fantasies into reality Milburn suggests that the closing of the gap between bits and atoms entices scientists geeks and gamers to dream of a completely programmable future Welcome to the wild world of Mondo Nano **The New**

Religious Movements Experience in America Eugene V. Gallagher, 2004-10-30 Wherever and whenever they appear new religious movements always produce conflict Even as they attract members who enthusiastically embrace their innovative teachings new religions often provoke strongly negative reactions often because they challenge established notions of proper religious action belief and morality Opponents of new religious movements often brand them as cults and urge their fellow citizens their own religions and even the government to take action against what they see as suspicious and potentially dangerous movements the members often complain that their motives have been misconstrued and argue that their groups are unfairly persecuted The New Religious Movements Experience in America outlines the conflict between representatives of the status quo and new religions and examines how these groups appear both to their members and to their cultural opponents This work is ideal for anyone students parents and teachers who wish to gain a deeper understanding of new

religious movements in America New religions have always been part of the American religious landscape and this book moves beyond the contemporary period to discuss examples of new religions that have originated survived or died and sometimes prospered throughout U S history Among the groups discussed are the Mormons the Peoples Temple the Branch Davidians Spiritualism Theosophy the Church Universal and Triumphant the International Society for Krishna Consciousness the followers of Bhagwan Shree Rajneesh Soka Gakkai the Nation of Islam Wiccans and neo Pagans the Church of Satan the Church of Scientology Heaven s Gate and the Raelians The New Religious Movements Experience in America includes a glossary and a list of resources for those interested in doing further research on the experience of the followers of new religions

Possession, Power and the New Age Matthew Wood,2016-04-08 This book provides a new sociological account of contemporary religious phenomena such as channelling holistic healing meditation and divination which are usually classed as part of a New Age Movement Drawing on his extensive ethnography carried out in the UK alongside comparative studies in America and Europe Matthew Wood criticises the view that such phenomena represent spirituality in which self authority is paramount Instead he emphasises the role of social authority and the centrality of spirit possession linking these to participants class positions and experiences of secularisation Informed by sociological and anthropological approaches to social power and practice especially the work of Pierre Bourdieu and Michel Foucault Wood s study explores what he calls the nonformative regions of the religious field and charts similarities and differences with pagan spiritualist and Theosophical traditions

Fieldnotes Roger Sanjek,2019-06-30 Thirteen distinguished anthropologists describe how they create and use the unique forms of writing they produce in the field They also discuss the fieldnotes of seminal figures Frank Cushing Franz Boas W H R Rivers Bronislaw Malinowski and Margaret Mead and analyze field writings in relation to other types of texts especially ethnographies Unique in conception this volume contributes importantly to current debates on writing texts and reflexivity in anthropology

Uneasy Endings Renée Rose Shield,2018-08-06 If we continue we grow old and this is how it could be for us writes Ren e Rose Shield in her candid and sympathetic account of life in one American nursing home Drawing on anthropological methods and theory to illuminate institutional life she probes the

sources of the profound sense of unease she found at the place she calls The Franklin Nursing Home For fourteen months Shield participated in life at a nursing home in the northeastern United States She got to know many of the people associated with the home doctors nurses custodians kitchen workers administrators social workers visiting relatives and above all the residents who emerge in this book as the individuals they are Sections in which the residents speak poignantly in their own voices are woven throughout her richly detailed observations of everyday routines and events We see them using guile and humor to get by struggling to approach the end of their lives with a measure of autonomy and dignity and we meet an often conscientious and caring staff constrained by conflicting professional perspectives and by the bureaucratic structure in which they work There are no villains here Rather Shield explains how conditions in the nursing home create a difficult and uncomfortable liminality the transition from an accustomed role to a new one for the residents In characterizing nursing home existence she goes beyond Erving Goffman s classic definition of the total institution to show how residents pass from adulthood to death without the comfort of ritual or community support common in rites of passage In addition to the isolation created by this solitary passage she finds restrictions on reciprocity the old people are always recipients whose need and obligation to repay are seen as unnecessary and difficult to satisfy The system encourages their passivity which deepens their dependency and helps to explain why they are often perceived as children Offering concrete suggestions for improving the quality of nursing home life *Uneasy Endings* will find a broad audience among those who work with the aged [Breaking the Silence](#) Yasuko I. Takezawa,1995 A unique interpretation of how wartime internment and the movement for redress affected Japanese Americans *Lord I'm Coming Home* John Forrest,1988 No detailed description available for Lord I m Coming Home *Controversial New Religions* James R. Lewis,Jesper Aa. Petersen,2014-07-16 Written by established scholars as well as younger experts in their field this updated and revised second edition of *Controversial New Religions* offers a scholarly dispassionate look at the new religious groups that have generated the most attention in the media and general public **Imaginative Horizons** Vincent Crapanzano,2010-08-15 How do people make sense of their experiences How do they understand possibility How do they limit possibility These questions are central to all the human sciences Here Vincent Crapanzano offers a powerfully creative new way to think about human experience the notion of imaginative horizons For Crapanzano imaginative horizons are the blurry boundaries that separate the here and now from what lies beyond in time and space These horizons he argues deeply influence both how we experience our lives and how we interpret those experiences and here sets himself the task of exploring the roles that creativity and imagination play in our experience of the world *Lesbian Mothers* Ellen Lewin,2018-03-15 Within a society that long considered lesbian motherhood a contradiction in terms what were the experiences of lesbian mothers at the end of the twentieth century In this illuminating book lesbian mothers tell their stories of how they became mothers how they see their relationships with their children relatives lovers and friends and with their children s fathers and sperm donors how they manage child care arrangements and financial

difficulties and how they deal with threats to custody Ellen Lewin's unprecedented research on lesbian mothers in the San Francisco area captured a vivid portrait of the moment before gay and lesbian parenting moved into the mainstream of U S culture Drawing on interviews with 135 women Lewin provided her readers with a new understanding of the attitudes of individual women the choices they made and the texture of their daily lives
