## **Repair Of Ancient Buildings:**

Repair of Ancient Buildings Albert Reginald Powys,1981      **Repair of Ancient Buildings** A.R. Powys,1995      Notes on the repair of ancient buildings Society for the Protection of Ancient Buildings,1903      *Notes on the Repair of Ancient Buildings* Society for the Protection of Ancient Buildings (London, England),1903      Notes on the repair of ancient buildings Society for the protection of ancient buildings,1903      Repair of Ancient Buildings All. Reg Powys,1929      *Care and Repair of Old Floors* Society for the Protection of Ancient Buildings,1999      **Survey and Repair of Traditional Buildings** Richard Oxley,2015-11-17 Understanding the unique requirements of traditional buildings is crucial to providing appropriate guidance on their care and repair This book will help practitioners identify the particular issues relating to older buildings and the problems they may encounter when surveying and repairing them With the use of examples the author provides invaluable information on how traditional buildings perform emphasizing the need for a sensitive and sustainable approach which also takes account of the specific needs of the building The book examines all aspects to be included in any assessment for survey and repair and points out in detail the potential pitfalls It also explores the controversial issues surrounding the treatment of damp and timber decay advocating solutions that are appropriate to older buildings rather than using standard often damaging methods of treatment The extensive case studies not only illustrate good conservation in practice but also how projects can go badly wrong and how mistakes could have been avoided This title explores the causes of movement and the actions required It advises on alternatives to chemical treatment for damp and timber decay It provides fully illustrated case studies with numerous photographs It emphasizes a sustainable approach to conservation It outlines the key legislation issues It includes the Historic Buildings Prosecution Fines Database and other useful appendices      **Structural Repair and Maintenance of Historical Buildings** C. A. Brebbia,1989      Maintaining and Repairing Old and Historic Buildings John J. Cullinane,2012-10-11 A practical guide to the maintenance and repair of old and historic buildings Carrying out work in accordance with the U S Secretary of the Interior s standards and guidelines can be a challenge for professionals charged with the preservation restoration and care of historic properties This book with CD package facilitates the process with more than 400 field guidelines for the treatment of historic building structures systems and materials It includes Background and rationale for treatment Annotated standards and guidelines Step by step treatment instructions Information on energy conservation and meeting LEED and ADA requirements The treatment guidelines cover a wide range of issues from how to replace broken glass in wood and metal windows to preparing historic mortar Each guideline can be printed out individually from the accompanying CD for easy reference and on site use Well organized and easy to use *Maintaining and Repairing Old and Historic Buildings* is a valuable resource for architects engineers facility managers and related professionals working in the areas of building preservation and restoration      *Old House Care and Repair* Janet Collings,2016-01-20 Owners of old houses are often baffled by the confusing advice they receive from their builders architects or surveyors who may be more

familiar with repairing modern buildings than dealing with the issues associated with traditional houses Old houses generally require a different approach one for instance which takes account of their need to breathe Modern solutions do not always recognise that need This book will help owners builders and all construction professionals make the decisions that are right for old buildings It illustrates the long term benefits of using more traditional solutions on older houses rather than modern materials like cement based mortars sealants or impervious paints It offers practical guidance on How to get the right professional advice Legal requirements for listed buildings Problems with damp and rot Use of lime mortars plasters and renders Why old buildings need to breathe Planning applications and Trees outbuildings and gardens

*Conservation of Historic Buildings* Bernard Feilden, 2007-06-07 Since its publication in 1982 Sir Bernard Feilden's *Conservation of Historic Buildings* has become the standard text for architects and others involved in the conservation of historic structures Leading practitioners around the world have praised the book as being the most significant single volume on the subject to be published This third edition revises and updates a classic book including completely new sections on conservation of Modern Movement buildings and non destructive investigation The result of the lifetime's experience of one of the world's leading architectural conservators the book comprehensively surveys the fundamental principles of conservation in their application to historic buildings and provides the basic information needed by architects engineers and surveyors for the solution of problems of architectural conservation in almost every climatic region of the world This edition is organized into three complementary parts in the first the structure of buildings is dealt with in detail the second focuses attention on the causes of decay and the materials they affect and the third considers the practical role of the architect involved in conservation and rehabilitation As well as being essential reading for architects and others concerned with conservation many lay people with various kinds of responsibility for historic buildings will find this clearly written jargon free work a fruitful source of guidance and information

**The Repair of Historic Buildings** Christopher Brereton, 1995 *Emergency Repairs for Historic Buildings* Eleanor Michell, 2014-05-16 *Emergency Repairs for Historic Buildings* is a compilation of 12 case studies that emphasize the necessity of emergency repairs for historic buildings in poor condition These buildings are defined in this book as listed buildings in England together with those which although unlisted add an historical dimension to their environment Emergency repairs could consist of permanent or temporary work Permanent work should always be carried out according to the best historic buildings practice Temporary work is second best made necessary by lack of money but having the advantage of speed In an emergency this is sometimes the most important factor as decay spreads very quickly especially in empty buildings Chapter 2 of this book provides guidelines for temporary repair which indicate that even this work should be the best quality of its kind This book mainly relates to the great majority of buildings rather than to major country houses historic engineering works or ancient monuments This text is a useful and informative reference for individuals or students who conduct research on studies relating to architectural or historical arts
