*A History of the Peninsular War Vol.3 (of 7)* Charles Oman, This the third volume of the History of the Peninsular War covers a longer period than either of its predecessors extending over the sixteen months from Wellington s arrival at Badajoz on his retreat from Talavera Sept 3 1809 to the deadlock in front of Santarem Dec 1810 which marked the end of Mass na s offensive campaign in Portugal It thus embraces the central crisis of the whole war the arrival of the French in front of the Lines of Torres Vedras and their first short retreat after they had realized the impossibility of forcing that impregnable barrier to their advance The retreat that began at Sobral on the night of Nov 14 1810 was to end at Toulouse on April 11 1814 The armies of the Emperor were never able to repeat the experiment of 1810 and to assume a general and vigorous offensive against Wellington and Portugal In 1811 they were on the defensive despite of certain local and partial attempts to recover their lost initiative In 1812 they had to abandon half Spain Andalusia Estremadura Asturias La Mancha and much more despite of Wellington s temporary check before Burgos In 1813 they were swept across the Pyrenees and the Bidassoa in 1814 they were fighting a losing game in their own land Rightly then may Mass na s retreat to Santarem be called the beginning of the end though it was not for a full year more that Wellington s final offensive commenced with the investment of Ciudad Rodrigo on Jan 8 1812 The campaign of Bussaco and Torres Vedras therefore marked the turning point of the whole war and I have endeavoured to set forth its meaning in full detail devoting special care to the explanation of Wellington s triple device for arresting the French

advance his combination of the system of devastation of the raising of the levée en masse in Portugal and of the construction of great defensive lines in front of Lisbon Each of these three measures would have been incomplete without the other two For the Lines of Torres Vedras might not have saved Portugal and Europe from the domination of Napoleon if the invading army had not been surrounded on all sides by the light screen of irregular troops which cut its communications and prevented it from foraging far afield Nor would Massena have been turned back if the land through which he had advanced had been left unravaged and if every large village had contained enough food to subsist a brigade for a day or a battalion for a week The preparations the advance and the retreat of Massena cover about half of this volume The rest of it is occupied with the operations of the French in Northern Eastern and Southern Spain operations which seemed decisive at the moment but which turned out to be mere side issues in the great contest For Soult's conquest of Andalusia and Suchet's victories in Aragon Catalonia and Valencia only distracted the imperial generals from their central task the expulsion of Wellington and his army from the Peninsula Most readers will I think find a good deal of new information in the accounts of the siege of Gerona and the battle of Ocaña The credit due to Alvarez for the defence of the Catalanian city has never been properly set forth before in any English history nor have the details of Areizaga's miserable campaign in La Mancha been fully studied In particular the composition and strength of his army have never before been elucidated and Appendices V VI of this volume consist of absolutely unpublished documents To be continued in this ebook
