Lauterpacht,C. J. Greenwood,A. G. Oppenheimer,1997-12-04 A unique and essential work of reference for the international lawyer **Asian Yearbook of International Law, Volume 22 (2016)** Seokwoo Lee,Hee Eun Lee,2019-09-02 Launched in 1991 the Asian Yearbook of International Law is a major internationally refereed yearbook dedicated to international legal issues as seen primarily from an Asian perspective It is published under the auspices of the Foundation for the Development of International Law in Asia DILA in collaboration with DILA Korea the Secretariat of DILA in South Korea When it was launched the Yearbook was the first publication of its kind edited by a team of leading international law scholars from across Asia It provides a forum for the publication of articles in the field of international law and other Asian international legal topics The objectives of the Yearbook are two fold First to promote research study and writing in the field of international law in Asia and second to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues Each volume of the Yearbook contains articles and shorter notes a section on Asian state practice an overview of the Asian states participation in multilateral treaties and succinct analysis of recent international legal developments in Asia a bibliography that provides information on books articles notes and other materials dealing with international law in Asia as well as book reviews This publication is important for anyone working on international law and in Asian studies **The International Legal Personality of the Individual** Astrid Kjeldgaard-Pedersen,2018-08-08 This is the first monograph to scrutinize the relationship between the concept of international legal personality as a theoretical construct and the position of the ultimate subject the individual as a matter of positive international law By testing the four main theoretical conceptions of international legal personality against historical and existing norms of positive international law that regulate the conduct of individuals the book argues that the common narrative in contemporary scholarship about the development of the role of the

individual in the international legal system is flawed. Contrary to conventional wisdom, international law did not apply to states alone until World War II, only to transform during the second half of the 20th century so as to include individuals as its subjects. Rather, the answer to the question of individual rights and obligations under international law is and always was strictly empirical. It follows of course that the entities governed by a particular norm tell us nothing about the legal system to which that norm belongs. Instead, the distinction between international law and national law turns exclusively on whether the source of the norm in question is international or national in kind. Against the background of these insights, the book shows how present-day international lawyers continue to allow an idea which was never more than a scholarly invention of the 19th century to influence the interpretation and application of international law. This state of affairs has significant real-world ramifications as international legal rights and obligations of individuals and other non-state entities are frequently applied more restrictively than interpretation without presumptions regarding personality would merit.

**Territorial Disputes in the Americas** Jorge Emilio Núñez, 2025-08-20 Territorial disputes are intricately shaped by historical, legal, geopolitical, social, cultural, and other factors. This book uses a multidimensional approach to assess real case scenarios across the Americas individually and collectively. The work evaluates a selected sample of these disputes, tracing origins to colonial histories, unclear border demarcations or uncharted lands, and challenges enforcing legal boundaries. It then explores critical thematic areas illustrated with compelling examples: disputes entangled with non-American agents like European nations, colonialism, neo-colonial interference, and pervasive colonial mindsets; ongoing regional differences between neighboring states; and the intricate, sometimes conflicting roles of indigenous communities and implanted populations asserting self-determination, often diverging from states' interests. The work reveals sovereignty and disputes intertwined, encompassing plural agents, roles, contexts, realms, and modes of existence beyond traditional views. Cases like the Falkland/Malvinas Islands, Mexico-US border, Amazon region, and Antarctica highlight how regional organizations and alliances could enhance peacebuilding, strengthen American states against external powers, and challenge traditional unidimensional scholarly approaches with a nuanced, comprehensive perspective. The book will appeal to researchers, academics, and policymakers in the areas of Public International Law, Political Science, and International Relations, Legal Philosophy, Political Philosophy, and Jurisprudence.

**The International Committee of the Red Cross and the Protection of War Victims** François Bugnion, 2003

**Terrorism and International Law** Maurice Flory, Rosalyn Higgins, 2002-05-03 The proliferation in terrorist activity has provoked an increase in the body of law both at national and international level which has sought to counter and prevent it. The bodies involved in this process range from the UN Security Council to government legislatures. This book is the first to address in one volume the wide variety of responses to terrorism as they exist in both international and domestic contexts. It also represents the first ever comprehensive collection of documents referring to terrorism which are to be found in the laws of the UK and France as well as in international law. Terrorism and International Law comprises contributions by thirteen well

known authorities in the areas of international French and UK law and is divided into four main sections international cooperation against terrorism the French and British responses to terrorism the limits of state action and a documentary supplement The contributors have sought to show how international and domestic law can be used together to combat the multi faceted problems which terrorism raises The issue of human rights is also discussed with particular reference to the jurisprudence of the European Commission and Court of Human Rights The fourth documentary section of the book provides coverage of international treaties UN resolutions UK and French legislation case law and official statements relating to terrorism This book provides an invaluable source of commentary and reference material in the area of terrorism and international and domestic law which will be useful for practitioners diplomats students and teachers

in 1991 the Asian Yearbook of International Law is a major internationally refereed yearbook dedicated to international legal issues as seen primarily from an Asian perspective It is published under the auspices of the Foundation for the Development of International Law in Asia DILA in collaboration with DILA Korea the Secretariat of DILA in South Korea When it was launched the Yearbook was the first publication of its kind edited by a team of leading international law scholars from across Asia It provides a forum for the publication of articles in the field of international law and other Asian international legal topics The objectives of the Yearbook are two fold First to promote research study and writing in the field of international law in Asia and second to provide an intellectual platform for the discussion and dissemination of Asian views and practices on contemporary international legal issues Each volume of the Yearbook contains articles and shorter notes a section on Asian state practice an overview of the Asian states participation in multilateral treaties and succinct analysis of recent international legal developments in Asia a bibliography that provides information on books articles notes and other materials dealing with international law in Asia as well as book reviews This publication is important for anyone working on international law and in Asian studies The 2018 edition of the Yearbook features articles on the practice of Asian states from the perspective of Third World Approaches to International Law TWAIL      *Procedure and Substance in International Environmental Law* Jutta Brunnée, 2021-02-22 The interplay between procedure and substance has not been a major point of contention for international environmental lawyers Arguably the topic's low profile is due to the mostly uncontroversial

nature of the field's distinction between procedural and substantive obligations. Furthermore, the vast majority of environmental law scholars and practitioners have tended to welcome the procedural features of multilateral environmental agreements and their potential to promote regime evolution and effectiveness. However, recent developments have served to put the spotlight on certain aspects of the procedure-substance topic. ICJ judgments revealed ambiguity on aspects of the customary law framework on transboundary harm prevention that the field had thought largely settled. In turn, in the treaty context, the Paris Agreement's retreat from binding emissions targets and its decisive turn towards procedure reignited concerns in some quarters over the proceduralization of international environmental law. The two developments invite a closer look at the respective roles of and the relationship between procedure and substance in this field and more specifically in the context of harm prevention under customary and treaty law.
