Representative American Speeches Albert Craig Baird, Lester Thonssen, Waldo Warder Braden, Owen Peterson, 1997 *The Reference Shelf* , 1975      American Orators of the Twentieth Century Bernard K. Duffy, Halford Ross Ryan, 1987 A collection of encyclopedia styled essays on 58 leading political social and religious speakers American Orators of the Twentieth Century fills an enormous void in the literature on American public address Each assesses the orator s impact on American life and delineates such aspects of his or her speaking as argumentation style persuasive techniques delivery and methods of speech preparation Appended to each essay is a chronology of the orator s major speeches and a list of information sources that includes leading research collections speech anthologies critical studies and biographies Given the large number of contributors the entries are remarkably even in coverage and clarity On the whole the editors have achieved a sensible balance among mainstream political leaders religious orators and spokesmen and spokeswomen for a variety of historical and contemporary causes If we judge the book on the quality of the essays it contains rather than on the alternative speakers it might have included it deserves high marks Scrupulously edited superbly produced and splendidly bound it will be the standard reference work on its subject for years to come Amazon com      *Women's Political Discourse* Molly A. Mayhead, Brenda DeVore Marshall, 2005-09-21 Although the United States ranks sixtieth internationally in women s political leadership in 2004 a record nine women held governorships sixty women served as House members with an additional three women elected as delegates from Washington D C Guam and the Virgin Islands and fourteen women occupied Senate seats How have these women managed to beat the odds in their successful attempts to enter national politics How do they

fruitfully participate in the political process once they gain entry into the sacred halls of Congress and the state house Women s Political Discourse profiles women in the most highly visible political offices today highlighting their communication strategies Following an engaging overview of women s political discourse from the early twentieth century the book features selected women governors representatives and senators of the past several decades from Jeannette Rankin\_ the first woman elected to the U S House of Representatives\_ to Hillary Rodham Clinton The authors compare women s and men s political communication techniques and include helpful lists of the women governmental leaders of the twentieth and the twenty first century Exploring women s unique approaches to governing Women s Political Discourse seeks to lay out innovative approaches to leadership **Directory of American Scholars** Xerox Education Publications,1978 **Mark O. Hatfield**

Richard W. Etulain,2021-07-08 In a career in public office spanning five decades Mark Odom Hatfield 1922 2011 never lost an election First elected to the Oregon House of Representatives in 1950 he retired from political office in 1997 after serving as Oregon state senator secretary of state and governor and as United States senator for five terms He was arguably the state s most important politician but his brand of liberal to moderate Republicanism has long since vanished from the political stage Mark O Hatfield Oregon Statesman tells Hatfield s story as an Oregonian a politician and a man of practical vision deep convictions and far reaching consequence in the civic life of the state and the nation A lifelong evangelical Christian and Republican per his mother s fondest wishes and politically inclined from a young age Hatfield came to office after studying and teaching political science and observing firsthand the ravages of war in the Pacific and the cruelty of segregation at home Historian Richard W Etulain portrays Hatfield as an energetic young Republican legislator in a state becoming increasingly Democratic He pushed civil rights legislation supported laborers as well as business interests and struck a balance that would align him with moderates even as the party s conservative wing became ascendant Elected in 1958 as Oregon s youngest ever governor Hatfield went on to become the first in the twentieth century to hold that office for two terms using his tenure to streamline the state s executive branch and promote Oregon as a prime destination for business and tourism efforts that quickly earned him a place on the national stage Etulain focuses on Hatfield as a force in Oregon state politics but also examines his long tenure as a U S senator garnering attention early for his stance against the Vietnam War and later for his antinuclear position The private life the public figure the man of faith and family of an older West and the new this biography while compact captures Mark Hatfield in full as a major western politician of the twentieth century **Hearing, Speech, and Communication Disorders** Information Center for Hearing Speech and

Disorders,2012-12-06 Information analysis centers were developed to help the scientist and practitioner cope with the ever increasing mass of published and unpublished information in a specific field Their establishment resulted from a further extension of those pressures that had brought about the formation of the specialized primary journal and the abstracting services at the turn of the century The information analysis center concept was greatly advanced by the 1963 report of the

President's Science Advisory Committee Panel on Science Information This report stated scientific interpreters who can collect relevant data review a field and distill information in a manner that goes to the heart of a technical situation are more help to the overburdened specialist than is a mere pile of relevant documents Such specialized information centers are operated in closest possible contact with working scientists in the field These centers not only furnish information about ongoing research and disseminate and retrieve information but also create new information and develop new methods of information analysis synthesis and dissemination The continually expanding biomedical literature produced by scientists from the world's laboratories research centers and medical centers led the National Institute of Neurological Diseases and Stroke in 1964 to initiate a National Neurological Information Network of specialized centers for neurological information The Centers are designed to bring under control and to promote ready access to important segments of the literature
