Communist Visual Cultures contributors trace the legacies of communist ideology in visual culture from buildings and monuments murals and sculpture to recycling campaigns and wall newspapers all of which work to make communism's ideas and values material Contributors work to resist the widespread demonization of communism demystifying its ideals and suggesting that it has visually shaped the modern world in undeniable and complex ways Together contributors answer curcial questions like What can be salvaged and reused from past communist experiments How has communism impacted the cultures of late capitalism And how have histories of communism left behind visual traces of potential utopias An interdisciplinary look at the cultural currency of communism today The Oxford Handbook of Communist Visual Cultures demonstrates the value of revisiting the practices of the past to form a better vision of the future **Polish Postcommunist**

Williams,2013-08-16 Moving through the elegiac ruins of the Berlin Wall and the Yugoslav disintegration Writing Postcommunism explores literary evocations of the pervasive disappointment and mourning that have marked the postcommunist twilight Committing the Future to Memory Sarah Clift,2013-09-01 Whereas historical determinacy conceives the past as a complex and unstable network of causalities this book asks how history can be related to a more radical future To pose that question it does not reject determinacy outright but rather seeks to explore how it works In examining what it means to be determined by history it also asks what kind of openings there might be in our encounters with history for interruptions re readings and re writings Engaging texts spanning multiple genres and several centuries from John Locke to Maurice Blanchot from Hegel to Benjamin Clift looks at experiences of time that exceed the historical narration of experiences said to have occurred in time She focuses on the co existence of multiple temporalities and opens up the quintessentially modern notion of historical succession to other possibilities The alternatives she draws out include the mediations of language and narration temporal leaps oscillations and blockages and the role played by contingency in representation She argues that such alternatives compel us to reassess the ways we understand history and identity in a

traumatic or indeed in a post traumatic age      *Romania Confronts its Communist Past* Vladimir Tismaneanu, Marius Stan, 2018-05-17 Reckoning with mass crimes perpetrated by an ideologically driven regime entails engaging in a thorough going exploration of its utopian foundations In the case of Romania such an analysis requires an interpretation of the role of personality in the construction of a uniquely grotesque and unrepentant form of neo Stalinist despotism Of all the revolutions of 1989 the only violent one took place in Romania Confronting its communist past therefore involves addressing the abuses committed by the communist regime up to its very last day its failure to engage in Round Table type agreements with democratic representatives and the repression during the first post communist years a direct legacy of the old regime This book shows how moral justice can contribute to a restoration of truth and a climate of trust in politics in the absence of which any democratic polity remains exposed to authoritarian attack      **Worlds Apart? **East-Central European Culture** Cristina Sandru, 2013-01-16 This study explores the relation of the Eastern European problematic to postcolonial critical practice interrogating the extent to which postcolonialism can help illuminate instances of imperial domination in non Third World contexts It argues that colonisation is to be understood principally as a condition of ideological domination that has engendered similar forms of literary and cultural resistance consequently it offers a comparative framework which enables a reading in differential contexts of texts that ostensibly have little in common but which on close examination reveal a shared imaginative space rhetoric and narrative agency The book consists of two interrelated parts Part one is a critical discussion of the ideologies cultural imaginaries and representational practices articulated in a diverse range of representative postcolonial and post 1945 East Central European texts these are shown to share despite dissimilar conditions of production uncannily related narrative modes and thematic emphases Part two is a comparative literature case study which discusses two authors whose work is both highly representative of the cultural formations discussed in the first part Milan Kundera and Salman Rushdie and at the same time highly controversial The chapters dedicated to Kundera s and Rushdie s work examine the cultural geography of their novels particularly in the writers use of memory and story telling to reconfigure history and personal identity in conditions of literal and metaphorical displacement While their novels thrive on ironic subversion and ambiguity they simultaneously gesture towards a redemptive space of the imagination transcending the constraints of both locality and history      **Explaining the History of American**

Hogan, 2016-03-09 This volume presents substantially revised and new essays on methodology and approaches in foreign and international relations history      **What is Soviet Now?** Thomas Lahusen, Peter H. Solomon, 2008 Economists and political scientists wrestle with the challenges faced by Russian officials and public alike in adapting to a market economy and democracy including the fragility of property rights and elections still rooted in old institutional structures This book examines the reforms of health and welfare and the hierarchy of privilege and access and consider how Putin s statist approach to mythmaking compares to that of previous Soviet and post Soviet regimes

Historians and anthropologists explore the issue of nostalgia gender punishment belief and how history itself is being created and perceived today The book concludes with a journey through the ruined landscape of real socialism     *A Companion to Digital Art* Christiane Paul,2016-03-02 Reflecting the dynamic creativity of its subject this definitive guide spans the evolution aesthetics and practice of today s digital art combining fresh emerging perspectives with the nuanced insights of leading theorists Showcases the critical and theoretical approaches in this fast moving discipline Explores the history and evolution of digital art its aesthetics and politics as well as its often turbulent relationships with established institutions Provides a platform for the most influential voices shaping the current discourse surrounding digital art combining fresh emerging perspectives with the nuanced insights of leading theorists Tackles digital art s primary practical challenges how to present document and preserve pieces that could be erased forever by rapidly accelerating technological obsolescence Up to date forward looking and critically reflective this authoritative new collection is informed throughout by a deep appreciation of the technical intricacies of digital art     Mapping Postcommunist Cultures Vitaly Chernetsky,2007-01-08 In Mapping Postcommunist Cultures Chernetsky argues that Russia and Ukraine exemplify the principal paradigms of post Soviet cultural development In Russia this has manifested itself in the subversive dismantling of the totalitarian linguistic regime and the foregrounding of previously marginalized subject positions In Ukraine work in these areas shows how the traumas of centuries of colonial oppression are being overcome through the carnivalesque decrowning of ideological dogmas and an affirmation of a new type of community most recently demonstrated in the peaceful Orange Revolution of 2004 Mapping Postcommunist Cultures also critiques the neglect of the former communist world in current models of cultural globalization
