Rereading The Revolution The Turn Of The Century American Revolutionary War Novel:

Rereading the Revolution Benjamin S. Lawson, 2000 Approximately fifty historical novels dealing with the American Revolution were published in the United States in the single ten year period from 1896 to 1906 Benjamin Lawson critically examines the narrative strategies employed in these many novels the ways in which fiction is made to serve the purpose of vivifying national history The British conventions of the historical romance in one sense seem to preclude radical declarations of literary independence even in books purportedly about a war against Britain Working within the formula these many writers nonetheless created fictional plots which parallel and reflect the enveloping concerns of the War for Independence Just as the war was sometimes viewed as an Anglo American family squabble these metaphorical narratives depict familial and love interests

Historical Archaeology of the Revolutionary War Encampments of Washington's Army Cosimo A. Sgarlata, David G. Orr, Bethany A. Morrison, 2019-06-12 This volume presents recent archaeological and ethnohistorical research on the encampments trails and support structures of the Continental Army during the American Revolutionary War These sites illuminate the daily lives of soldiers officers and camp followers away from the more well known military campaigns and battles The research featured here includes previously unpublished findings from the winter encampments at Valley Forge Pennsylvania as well as work from sites in Redding Connecticut and Morristown New Jersey Topics range from excavations of a special dining cabin constructed for General George Washington to ballistic analysis of a target range established by General von Steuben Contributors use experimental archaeology to learn how soldiers constructed their log hut quarters and they reconstruct Rochambeau's marching route through Connecticut on his way to help Washington defeat the British at Yorktown They also describe the underrecognized roles of African descendants Native peoples and women who lived and worked at the camps Showing how archaeology can contribute insights into the American Revolution beyond what historical records convey this volume calls for protection of and further research into non conflict sites that were crucial to this formative struggle in the history of the United States Contributors Cosimo Sgarlata Joseph Balicki Joseph R Blondino Douglas Campana Wade P Catts Daniel Cruson Mathew Grubel Mary Harper Diane Hassan David G Orr Julia Steele Laurie Weinstein
