journal and the discipline are pulsing and alive and kicking Was the journal a trendsetter or a follower and which position did it take with respect to the International Standing Conference for the History of Education These are questions addressed in the first section of this book In the second section a number of articles show national and transnational developments of the history of education In their diversity they make clear how the national and the transnational together characterize the discipline They show why journals in this domain should stimulate the development of broader concepts and theories in order to put national and regional cases in a broader scientific context and to make them attractive for international readership In the last section authors turn their minds to the future of the history of education They write about the shaping of new trends and about moving beyond borders focusing on among other things the challenge of neurosciences and of digital humanities This book was originally published as a special issue of *Paedagogica Historica* The History of Mexico Philip Russell, 2011-04-06 The History of Mexico From Pre Conquest to Present traces the last 500 years of Mexican history from the indigenous empires that were devastated by the Spanish conquest through the election of 2006 and its aftermath The book offers a straightforward chronological survey of Mexican history from the pre colonial times to the present and includes a glossary as well as numerous tables and images for comprehensive study For additional information and classroom resources please visit The History of Mexico companion website at www.routledge.com/textbooks/russell

Anti-Catholicism in the Mexican Revolution, 1913-1940 Jürgen Buchenau, David S. Dalton, 2024-12-01 Anti Catholicism in the Mexican Revolution 1913 1940 examines anti Catholic leaders and movements during the Mexican Revolution an era that resulted in a constitution denying the Church political rights Anti Catholic Mexicans recognized a common enemy in a politically active Church in a predominantly Catholic nation Many books have elucidated the popular roots and diversity of Roman Catholicism in Mexico but the perspective of the Church s adversaries has remained much less understood This volume provides a fresh perspective on the violent conflict between Catholics and the revolutionary state which was led by anti Catholics such as Plutarco Elías Calles who were bent on eradicating the influence of the Catholic Church in politics in the nation s educational system and in the national consciousness The zeal with which anti Catholics pursued their goals and the equal vigor with which Catholics defended their Church and their faith explains why the conflict between Catholics and anti Catholics turned violent culminating in the devastating Cristero Rebellion 1926 1929 Collecting essays by a team of senior scholars in history and cultural studies the book includes chapters on anti Catholic leaders and intellectuals movements promoting scientific education and anti alcohol campaigns muralism feminist activists and Mormons and Mennonites A concluding afterword by Matthew Butler a global authority on twentieth century Mexican religion provides a larger perspective on the themes of the book *Writing Mexican History* Eric Van Young, 2012-03-14 Essential essays from one of the most prolific provocative and pre eminent historians working in the field of Mexican and Latin American history today Susan Deans Smith author of *Bureaucrats Planters and Workers* This collection brings together a group of important

and influential essays on Mexican history and historiography by Eric Van Young a leading scholar in the field The essays several of which appear here in English for the first time are primarily historiographical that is they address the ways in which separate historical literatures have developed over time They cover a wide range of topics the historiography of the colonial and nineteenth century Mexican and Latin American countryside historical writing in English on the history of colonial Mexico British American and Mexican historical writing on the Mexican Independence movement the methodology of regional and cultural history and the relationship of cultural to economic history Some of the essays have been and will continue to be controversial while others for example those on studies of the Mexican hacienda since 1980 on the theory and method of regional history and on the new cultural history of Mexico are widely considered classics of the genre Van Young is one of the two or three preeminent thinkers in the Mexican and Latin American field whose essays are of such pioneering and enduring value to warrant this kind of greatest hits collection Not only does he cross fields and disciplines and integrate northern and southern intellectual currents his essays are a pleasure to read and constitute a rare combination of analytical bite erudition and playfulness Gilbert M Joseph Yale University
