instructor guide Children and Television Norma Pecora, John P. Murray, Ellen Ann Wartella, 2009-03-04 This seminal volume is a comprehensive review of the literature on children's television covering fifty years of academic research on children and television. The work includes studies of content effects and policy and offers research conducted by social scientists and cultural studies scholars. The research questions represented here consider the content of programming, children's responses to television, regulation concerning children's television, policies, issues of advertising, and concerns about sex and race stereotyping, often voicing concerns that children's entertainment be held to a higher standard. The volume also offers essays by scholars who have been seeking answers to some of the most critical questions addressed by this research. It represents the interdisciplinary nature of research on children and television and draws on many academic traditions including communication studies, psychology, sociology, education, economics, and medicine. The full bibliography is included on CD. Arguably the most comprehensive bibliography of research on children and television, this work illustrates the ongoing evolution of scholarship in this area and establishes how it informs or changes public policy as well as defining its role in shaping a future agenda. The volume will be a required resource for scholars, researchers, and policy makers concerned with issues of children and television, media policy, media literacy, and education, and family studies.

Fundamentals of Media Effects Jennings Bryant, Susan Thompson, Bruce W. Finklea, 2012-05-03 Mass media's potential to influence audience beliefs and behavior is a subject that has long fascinated scholars and the general public. The ongoing interest and concern are reflected in the common tendency to blame the media for many of society's problems. This extensively revised and updated edition cuts through popular notions of presumed effects to provide a balanced, informed, up-to-date treatment of the media effects literature. The clear, compelling presentation, illuminated by dozens of new photographs, equips readers with a fundamental understanding of the history, theoretical underpinnings, and current status of media effects research, knowledge that will help them navigate in a media-saturated environment. Several outstanding elements distinguish the Second Edition of *Fundamentals of Media Effects*. New chapters explore the impact of computer video games, the effects of the Internet and social networking sites, and the way mobile communication devices have transformed the way we live. An extensive new chapter on children's educational television describes the considerable body of research that supports positive effects like language development and flexible thinking skills. Framing studies are covered in a separate chapter where they are distinguished both theoretically and experimentally from agenda setting and priming. Finally, the authors provide overviews of classic and current research studies in an invaluable feature called Research Spotlight, which enable readers to envision how theories translate into research.

A Cognitive Psychology of Mass Communication Richard Jackson Harris, Fred W. Sanborn, 2009-05-19 In this fifth edition of *A Cognitive Psychology of Mass Communication*, author Richard Jackson Harris continues his examination of how our experiences with media affect the way we acquire knowledge about the world and how this knowledge influences our attitudes and behavior. Presenting theories from psychology and communication along with

reviews of the corresponding research this text covers a wide variety of media and media issues ranging from the commonly discussed topics sex violence advertising to lesser studied topics such as values sports and entertainment education The fifth and fully updated edition offers highly accessible and engaging writing contemporary references to all types of media familiar to students substantial discussion of theories and research including interpretations of original research studies a balanced approach to covering the breadth and depth of the subject discussion of work from both psychology and media disciplines The text is appropriate for Media Effects Media teaches students how to examine and evaluate mediated messages and includes mass communication research theory and analysis

Stop Teaching Our Kids To Kill, Revised and Updated Edition Lt. Col. Dave Grossman, Gloria Degaetano, 2014-08-05 Completely revised and updated a much needed call to action for every parent teacher and citizen to help our children and stop the wave of killing and violence gripping America s youth Newtown Aurora Virginia Tech Columbine There is no bigger or more important issue in America than youth violence Kids some as young as ten years old take up arms with the intention to murder Why is this happening Lt Col Dave Grossman and Gloria DeGaetano believe the root cause is the steady diet of violent entertainment kids see on TV in movies and in the video games they play witnessing hundreds of violent images a day Offering incontrovertible evidence based on recent scientific studies and research they posit that this media is not just conditioning children to be violent and see killing as acceptable but teaching them the mechanics of killing as well Stop Teaching Our Kids to Kill supplies the statistics interprets the copious research that exists on the subject and suggests the many ways to make a difference in your home at school in your community in the courts and in the larger world In using this book parents educators social service workers youth advocates and anyone interested in the welfare of our children will have a solid

foundation for effective action and prevention of future Columbines Jonesboros and Newtowns **Stop Teaching Our Kids to Kill** Lt. Col. Dave Grossman, Gloria DeGaetano, 2009-11-04 There is perhaps no bigger or more important issue in America at present than youth violence Columbine Sandy Hook Aurora We know them all too well and for all the wrong reasons kids some as young as eleven years old taking up arms and with deadly frightening accuracy murdering anyone in their paths What is going on According to the authors of Stop Teaching Our Kids to Kill there is blame to be laid right at the feet of the makers of violent video games called murder trainers by one expert the TV networks and the Hollywood movie studios the people responsible for the fact that children witness literally thousands of violent images a day Authors Lt Col Dave Grossman and Gloria DeGaetano offer incontrovertible evidence much of it based on recent major scientific studies and empirical research that movies TV and video games are not just conditioning children to be violent and unaware of the consequences of that violence but are teaching the very mechanics of killing Their book is a much needed call to action for every parent teacher and citizen to help our children and stop the wave of killing and violence gripping America s youth And most important it is a blueprint for us all on how that can be achieved In Paducah Kentucky Michael Carneal a fourteen year old boy who stole a gun from a neighbor s house brought it to school and fired eight shots at a student prayer group as they were breaking up Prior to this event he had never shot a real gun before Of the eight shots he fired he had eight hits on eight different kids Five were head shots the other three upper torso The result was three dead one paralyzed for life The FBI says that the average experienced qualified law enforcement officer in the average shootout at an average range of seven yards hits with less than one bullet in five How does a child acquire such killing ability What would lead him to go out and commit such a horrific act **Media Effects** Jennings Bryant, Mary Beth Oliver, 2009-01-13 With contributions from some of the finest scholars in the discipline Media Effects serves not only as a comprehensive reference volume for media effects study but also as an exceptional textbook for advanced courses in media effects Covering the breadth of the media effects arena this third edition provides updated material as well as new chapters focusing on effects of mobile media and other technologies As this area of study continues to evolve Media Effects will serve as a benchmark of theory and research for current and future generations of scholars
