Research Strategies In Human Communication Disorders:

Research Strategies in Human Communication Disorders Donald G. Doehring, 1996 Research Strategies in Human Communication Disorders Donald G. Doehring, 2002 This third edition of a book describing methods used in standard group research designs and other research designs includes updated examples a new section on authentic assessment revised material on structural equation modeling and a new chapter on methods for evaluating the effects of treatments Early chapters describe the group research methods most commonly used in research on human communication disorders for readers with little previous experience in research methods Later chapters describe other research methods and discuss the role of researchers as strategists Appendices give advice on evaluating and conducting research and writing research reports Annotation copyrighted by Book News Inc Portland OR Clinical Research Methods in Speech-Language Pathology and Audiology, Third Edition David L. Irwin, Norman J. Lass, Mary Pannbacker, Mary Ellen Tekieli Koay, Jennifer S. Whited, 2019-01-17 Now in its third edition Clinical Research Methods in Speech Language Pathology and Audiology is a valuable and comprehensive resource for understanding and conducting clinical research in communication sciences and disorders Graduate students and practicing clinicians will benefit from the text's detailed coverage of various research topics Specifically readers will learn the strengths and weaknesses of different research methodologies apply the results of research to clinical practice and decision making and understand the importance of research ethics Clinical Research Methods is the only text to take into account qualitative research and evidence based practice and to provide a detailed discussion of research ethics Key Features Chapters begin with an outline of covered topics and learning objectives End of chapter discussion questions apply concepts and incorporate real life research situations Numerous tables and charts display critical models and research procedures New to the Third Edition New co authors Mary Ellen Koay PhD CCC SLP FASHA and Jennifer S Whited PhD CCC SLP bring new and extensive research experiences to the team of authors Expanded discussion of qualitative research methods Additional and updated examples of mixed method designs published in speech language pathology Updated list of databases and sources for research in communication sciences and disorders Updated references throughout including many ASHA and AAA Codes of Ethics Disclaimer Please note that ancillary content such as documents audio and video etc may not be included as published in the original print version of this book **Clinical Research Methods in Speech-Language Pathology and Audiology, Fourth Edition** David L. Irwin, Jeremy J. Donai, 2024-06-26 With a new chapter on evaluating research articles the fourth edition of Clinical Research Methods in Speech Language Pathology and Audiology continues to be an essential resource for graduate students and clinicians seeking to understand the principles and methodologies involved with clinical research As the demand for evidence based practice continues to rise understanding how to conduct and evaluate research becomes increasingly important in ensuring quality care and professional accountability This text emphasizes how to effectively apply research to clinical practice and decision making

processes Readers will also gain knowledge of the significance of research ethics and the ethical considerations involved With the utilization of discussion materials this text will facilitate learning and critical thinking among students as they engage with the material This edition includes information on how to critically review both quantitative and qualitative articles Current trends and updated examples from speech pathology and audiology literature will assist with real world research situations New to the Fourth Edition New co author Jeremy J Donai AuD PhD providing a fresh perspective New chapter on critically evaluating quantitative and qualitative research articles Examples regarding integration of citations into a literature review Key Features Chapters begin with an outline of covered topics and learning objectives End of chapter discussion questions aid students in applying concepts A comprehensive glossary allows students to easily find and define important terms Numerous references throughout including many ASHA and AAA Codes of Ethics Handbook of Research on Psychosocial Perspectives of Human Communication Disorders Gupta, Sanjeev Kumar,Venkatesan, Srinivasan,2018-06-15 Communication is a key component of everyday life but what happens when an individual is faced with a communication disorder Today the prevalence of individuals with communication disorders has increased substantially However many of these ailments are poorly understood and medical professionals often lack the training and research necessary to manage and treat these individuals The Handbook of Research on Psychosocial Perspectives of Human Communication Disorders is a critical scholarly resource that covers needs based issues pertaining to the assessment and management of communication disorders It provides the latest research on the importance of early identification as well as prevention and intervention practices to promote healthy cognitive speech language motor social and emotional development Featuring coverage on a broad range of topics such as speech therapy for children behavior therapy and communication disorders this book is a vital reference source for clinical psychologists audiologists speech language pathologists special education teachers occupational therapists physiotherapists psychiatrists otolaryngologists and neurologists *Research Methods in Clinical Linguistics and Phonetics* Nicole Müller,Martin J. Ball,2013-10-24 Research Methods in Clinical Linguistics and Phonetics GUIDES TO RESEARCH METHODS IN LANGUAGE AND LINGUISTICS Up to date and covering a refreshingly wide range of approaches this is a first rate guide and resource for both practitioners and consumers of research in clinical linguistics and phonetics Mick Perkins University of Sheffield This truly outstanding collection of readings treating a number of critical issues with great clarity is certain to be quickly recognized as a valuable resource by the community of researchers Martin R Gitterman The City University of New York Research Methods in Clinical Linguistics and Phonetics introduces a wide range of research philosophies methods and tools used across linguistics phonetics and speech science as applied to disordered speech and language Comprised of sixteen chapters each authored by specialists representing a variety of approaches the volume addresses core topics for students undertaking their own research including experimental and quasi experimental methods qualitative methods including ethnography and conversation analysis sociolinguistics corpus construction and analysis data

recording transcription and digital analysis of speech In addition to exploring these and other topics the volume considers the research ethics associated with working with those who have speech or other communication difficulties There is a detailed discussion of the dissemination of research results in the form of theses dissertations and journal articles and of the peer review process Chapters include summary boxes to highlight salient information and resources for researchers such as relevant web archives and tools It offers students and researchers from a variety of entry points such as linguistics education psychology and speech pathology an introduction to the scope of research in clinical linguistics and phonetics and a practical guide to this interdisciplinary field Current Catalog National Library of Medicine (U.S.), First multi year cumulation covers six years 1965 70 *National Library of Medicine Current Catalog National Library of Medicine (U.S.)*,1985

Research Methods in Communication Disorders Tim Pring,2005 Many communication disorders are poorly understood and many treatments used in therapy remain unproven Speech and Language therapists are increasingly involved in research in these areas but may lack the training and experience required to conduct it Not the least of their problems is that few textbooks discuss the specific problems of research design in communication disorders Research Methods in Speech and Language Therapy fills this gap It will serve as an introductory text for students who are training to be therapists and as an introduction to more advanced methods for clinicians involved in research Different approaches to research are described and the basic principles of research design and statistical analysis described The book uses a wide range of published research to illustrate how research may be conducted in these areas and gives particular attention to the problems of researching the effectiveness of therapy *Managerial Discretion and Performance in China* Hagen Wülferth,2013-04-17 The theoretical and empirical literature to date has fallen short of reaching a consensus as to whether granting more managerial discretion to managers tends to enhance not alter or diminish organizational performance the discretion puzzle This book aims to build a bridge between these contradictory results by synthesising principal agent theory stewardship theory and managerial discretion theory into a new empirically validated model Using a representative sample of double blind interviews with managers of 467 firms in China and applying partial least squares path modelling PLS the study identifies a potential cause of the discretion puzzle the failure of the extant literature to account for granularity in the way that managers use their discretion This generates far reaching implications for theoretical and empirical research as well as practical recommendations for managing managers in multinationals and Chinese companies **Translational Research Methods in Neurodevelopmental Disorders** Stéphane Martin,Frédéric Laumonnier,2022-09-29 This volume explores the latest techniques used to study neurodevelopmental diseases NDD that range from molecular aspects to integrated research approaches and brain imaging in living rodents Chapters in this book cover topics such as protocols to deliver shRNA in vitro and in vivo using lentiviral particles to knock down specific protein expression experimental procedures to use recombinant fluorescent probes to visualize endogenous proteins at the mammalian synapse CRISPR Cas9 toolkit to assess either gain or

loss of gene function in brain organoids detailed protocols to use in vivo manipulations to correct the behavioral phenotypes in cognitive disorder mouse lines and experimental approaches to genetically engineer macaque models of NDDs and investigate how genetic predisposition may cause neural and functional alterations In the Neuromethods series style chapters include the kind of detail and key advice from the specialists needed to get successful results in your laboratory Cutting edge and practical Translational Research Methods in Neurodevelopmental Disorders is a valuable resource for all researchers who want to learn more about this important and developing field

Media Research Methods Barrie Gunter,2000-02-11 Assessing the relative strengths and weaknesses of qualitative and quantitative methods this book examines the methodological perspectives adopted by media researchers in their attempts to understand the nature of media in society *Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations for Fiscal Year 1999* United States. Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies,1999 *Current Catalog* ,1989 First multi year cumulation covers six years 1965 70

Language Allegiances and Bilingualism in the US M. Rafael Salaberry,2009 This book explores the close association between use of a language and the sense of affiliation with the culture associated with it an allegiance that seems to garner a type of loyalty and support that few other identities command *Literature Search* National Library of Medicine (U.S.),1986 *Biomedical Index to PHS-supported Research* ,1991 *Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations for Fiscal Year 2001* United States. Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies,2001 *Handbook of Qualitative Research in Communication Disorders* Martin J. Ball,Nicole Müller,Ryan L. Nelson,2014-04-11 This volume provides a comprehensive and in depth handbook of qualitative research in the field of communication disorders It introduces and illustrates the wide range of qualitative paradigms that have been used in recent years to investigate various aspects of communication disorders The first part of the Handbook introduces in some detail the concept of qualitative research and its application to communication disorders and describes the main qualitative research approaches The contributions are forward looking rather than merely giving an overview of their topic The second part illustrates these approaches through a series of case studies of different communication disorders using qualitative methods of research This Handbook is an essential resource for senior undergraduate and graduate students researchers and practitioners in communication disorders and related fields

The Clinical Education and Supervisory Process in Speech-Language Pathology and Audiology Elizabeth McCrea,Judith Brasseur,2024-06-01 As with the actual practices of speech language pathologists and audiologists clinical education and supervision practices work best when they are grounded not only in concept and theory but also in research Designed to act as a complete guide to both the theory and the research *The Clinical Education and Supervisory Process in Speech Language Pathology and Audiology*

provides the most up to date information on these crucial topics Following in the footsteps of their mentor Jean Anderson Drs Elizabeth McCrea and Judith Brasseur have taken on the task of assembling important current research and best practices in clinical education and supervision into one comprehensive resource With their prestigious team of contributing authors this text represents the culmination of decades of study and real world best practices The Clinical Education and Supervisory Process in Speech Language Pathology and Audiology covers clinical education and supervision across five unique constituent groups clinical educators of graduate students preceptors of audiology externs mentors of clinical fellows supervisors of support personnel and supervisors of professionals transitioning between work settings It also includes the latest information on certification and accreditation requirements for preparation in supervision Topics include Foundations Anderson s Continuum of Supervision Components of the Process Expectations for Supervision Practical Research in Supervision Literature from other Disciplines Obtaining Feedback About the Supervisory Process The Ethics of Clinical Education and Supervision Supervisor Self Study and Accountability Interprofessional Education and Practice in Clinical Education and Supervision Chapter appendices add numerous ancillary materials allowing readers to easily adopt the most successful processes and strategies the research has revealed Sample scripts of supervisory conferences self assessment tools action plan tools and analysis systems can all be found inside The Clinical Education and Supervisory Process in Speech Language Pathology and Audiology is intended as a primary resource for anyone in those professions in any setting who is engaged in the process of clinical education and supervision With this text as their guide clinical educators and supervisors will be able to ground their practices in the vast compiled research and study contained within
