Explorers Kristen and Ville Jokinen met scuba diving in Vietnam and fell in love. She was a real estate agent from Oregon, and he is a financial analyst for Toyota in his native Finland. After hiking the Pacific Crest Trail from the border of Mexico to Canada, they decided their next adventure would be a two-year cycling trip covering 18,000 miles from Prudoe Bay, Alaska, to Ushuaia, Argentina, despite never having cycled other than around the block. Only their starting and ending points were planned; in between, was navigated daily by their sense of adventure and intuition. Locals in Mexico, Central America, and South America allowed them to camp in their fields and farms, invited them into their homes and families, and acted as tour guides. Kristen and Ville held babies, attended quinceaneras, drank pulque, played soccer, and visited schools. They persevered: unrelenting punishing rain and wind, altitude sickness, dog attacks, bike accidents, and countless flat tires to cycle between the ends of the earth. Ville and Kristen Jokinen move through the world with a sense of curiosity and belief that kindness connects us to our shared humanity. Well-timed following a global pandemic, Joy Ride reconnects us to hope and the inspiration to pursue our wildest dreams. Kristen and Ville are love on wheels. *The Alaska Journal* Lincoln

Eat, Sleep, Ride Paul Howard,2011-02-15 For Paul Howard who has ridden the entire Tour de France route during the race itself setting off at 4 am each day to avoid being caught by the pros riding a small mountain bike race should hold no fear Still this isn t just any mountain bike race This is the Tour Divide Running from Banff in Canada to the Mexican border the Tour Divide is more than 2 700 miles 500 miles longer than the Tour de France Its route along the Continental Divide goes through the heart of the Rocky Mountains and involves more than 200 000 feet of ascent the equivalent of climbing Mount Everest seven times The

other problem is that Howard has never owned a mountain bike and how will training on the South Downs in southern England prepare him for sleeping rough in the Rockies Entertaining and engaging Eat Sleep Ride will appeal to avid and aspiring cyclers as well as fans of adventure travel narrative with a humorous twist **Bulletin of the Atomic Scientists** ,1973-10 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world A Hole in the Wind David Goodrich,2017-06-06 An epic bicycle journey across the American hinterland that explores the challenges of climate change alongside a diverse array of American voices After a distinguished career in climate science as the Director of the UN Global Climate Observing System in Geneva David Goodrich returned home to the United States to find a nation and a people in denial Concerned that the American people are willfully deluded by the misinformation about climate that dominates media and politics David thought a little straight talk could set things right As they say in Animal House he decided that this calls for a stupid and futile gesture on someone s part and I m just the guy to do it Starting on the beach in Delaware David rode his bike 4 200 miles to Oregon talking with the people he met on the ultimate road trip Along the way he learned a great deal about why climate is a complicated issue for many Americans and even more about the country we all share Climate change is the central environmental issue of our time But A Hole in the Wind is also about the people Dave met and the experiences he had along the way like the toddler s beauty pageant in Delaware the tornado in Missouri rust belt towns and their relationship with fracking and the mined out uranium ghost town in Wyoming As he rides David will discuss the climate with audiences varying from laboratories to diners to elementary schools Beautifully simple direct and honest A Hole in the Wind is a fresh refreshing ride through a difficult and controversial topic and a rich read that makes you glad to be alive Bicycle USA ,1997 Heidi Across America Heidi Beierle,2024-04-30 A memoir of homecoming Heidi Across America is a gritty story of how opening our hearts to others enables us to open our hearts to ourselves and love what we find there Finalist Chanticleer International Book Awards In the summer of 2010 Heidi Beierle had just finished her first year of graduate studies in community and regional planning and decided to pedal her bicycle solo from her home on the west coast across rural America to the Preserving the Historic Road conference in Washington D C What started as a research trip turned into an intimately physical and psychological encounter with self and nationhood Heidi was 35 at the time and didn t love much about herself except her ability to endure grueling physical undertakings She viewed her journey as an opportunity to fix her failures and insufficiencies There were also some research questions she wanted to explore Why do people live in small towns and what do they like about it Did a bicyclist like herself bring economic benefit to the small towns she visited What could communities do to support or invite cyclists to stay in their towns What could cyclists do to support the communities Along the way she was surprised by the kindness of strangers and the emotional pinch of traveling through Wyoming where she grew up Her journey led her through the Plains

and into the Ozarks where the heat climbed to agonizing temperatures and every pedal stroke in the heat felt one closer to death By the time she completed the trip Heidi discovered a newfound compassion for herself and a growing love for her country Strangers opened their hearts to her and in turn she opened her heart to herself And her questions began to change and mirror things many Americans are asking themselves today How can I be okay in my own skin What does it mean to be enough How do I satisfy my desire to travel without harming the planet What does it mean to love America For many young people it is a rite of passage to light out on an adventure to see the world and expose themselves to new experiences but we don't often talk about how Americans seeing America can open us to the diversity awe and wonder available right here in our nation Heidi Across America offers a journey to self love empathy consideration for others and respect for the spirit of place as pathways to find connection and home Cumulative Book Index ,1998 A world list of books in the English language
