artístico del partido bien por su carácter crítico respecto al sistema por reclamar libertad, democracia y respeto a los derechos humanos o simplemente porque aquellos creadores cayeron en desgracia. Esta obra cubre todos los países en los que hubo o hay regímenes comunistas o afines. A través de las vivencias y obras de estos escritores y artistas, personas con nombres y apellidos, se pretende recordar también a los millones de seres anónimos olvidados que sufrieron esa misma represión. No menos importante, este libro muestra cómo en Occidente muchos de sus homologos negaron o justificaron las violaciones de los derechos humanos en los países comunistas para no minar la causa revolucionaria y criticaron e hicieron el vacío a quienes lo denunciaron, como los Nobel de Literatura Camus, Milosz o Vargas Llosa, Orwell, Koestler, Cabrera Infante y Víctor Serge entre tantos otros. Como dijo Jrushov tras los acontecimientos de 1956: Si se hubiera matado a tiempo a una decena de escritores, hubiéramos evitado la revolución, no habría tenido lugar.

Kukulcan's Realm Marilyn Masson, Carlos Peraza Lope, 2014-11-15. Kukulcan's Realm chronicles the fabric of socioeconomic relationships and religious practice that bound the Postclassic Maya city of Mayapán's urban residents together for nearly three centuries. Presenting results of ten years of household archaeology at the city, including field research and laboratory analysis, the book discusses the social, political, economic, and ideological makeup of this complex urban center. Masson and Peraza Lope's detailed overview provides evidence of a vibrant market economy that played a critical role in the city's political and economic success. They offer new perspectives from the homes of governing elites, secondary administrators, affluent artisans, and poorer members of the service industries. Household occupational specialists depended on regional trade for basic provisions that were essential to crafting industries, sustenance, and quality of life. Settlement patterns reveal intricate relationships of households with neighbors, garden plots, cultivable fields, thoroughfares, and resources. Urban planning endeavored to unite the cityscape and to integrate a pluralistic populace that derived from hometowns across the Yucatán peninsula. New data from Mayapán, the pinnacle of Postclassic Maya society, contribute to a paradigm change regarding the evolution and organization of Maya society in general and make Kukulcan's Realm a must-read for students and scholars of the ancient Maya and Mesoamerica.

Nominalization in Languages of the Americas Roberto Zariquiey, Masayoshi Shibatani, David W. Fleck, 2019-08-08. Recent scholarship has confirmed earlier observations that nominalization plays a crucial role in the formation of complex constructions in the world's languages. Grammatical nominalizations are one of the most salient and widespread features of languages of the Americas, yet they have not been approached as foundational grammatical structures for constructions such as relative clauses and complement clauses. This is due to an imbalance in past scholarship which has tended to focus on these constructions at the expense of the nominalization structures underlying them. The papers in this collection treat grammatical nominalizations in their own right and as a starting point for the investigation of their uses in complex grammatical structures. A representative sample of Amerindian languages with focus on South America examines properties of grammatical nominalizations such as their

multiple functions their internal and external syntax and their diachronic development Among the far reaching theoretical conclusions reached by the studies in this volume is that the various types of relative clauses recognized in the typological literature are actually no more than epiphenomena arising from the different uses of grammatical nominalizations
