Los Asuntos De La Iglesia Church Affairs:

Los Asuntos de la Iglesia Watchman Nee, 1995-03 *MLN.* , 1908 Provides image and full text online access to back issues Consult the online table of contents for specific holdings **Alienation of Church Wealth in Mexico** Jan Bazant, 2008-10-30 Conflict between the Roman Catholic Church and the State in Mexico became prominent soon after independence in 1821 and during the next three decades national and state governments made various attempts to reduce ecclesiastical influence in the social economic and political life of the nation Few of such efforts met with much success and it was not until 1856 that a major reform was initiated Legislation was issued which affected all spheres of clerical activity but the most vital and controversial aspect of the reform involved the measures adopted to dispossess the Church of its wealth The extensive ecclesiastical holdings of urban and rural real estate and capital were nationalized and redistributed Professor Bazant examines earlier attempts at nationalization and describes in detail the implementations of the 1856 Lerdo Law and subsequent decrees Using selected areas of the country he traces the precise effects of the redistribution of Church property and capital describing the terms of sale or transfer the number of sales the buyers their nationality and occupation and the total value of the amounts involved **Law and Religious Cultural Heritage in Europe** Theodosios Tsivolas, 2014-07-22 This book examines in detail both historical and current legal concepts of religious cultural heritage within the context of the European continent The latter group is primarily based on the variety of sacred cultural elements emanating from the different religious traditions of the peoples of Europe which are deemed worthy of protection and preservation due to their outstanding value in terms of their social cultural and religious significance In view of this the study provides evidence of the European States active involvement with their sacred cultural treasures on the basis of the political and legal foundations of neutrality and pluralism Furthermore the book analyzes all relevant international legislative instruments i e the plethora of EU EC and UNESCO norms as well as all major European legislative patterns in light of their significance for the aforementioned aspects of pluralism and neutrality The interdisciplinary references listed at the end of each chapter provide an additional incentive for further reading on the subject matter The most important finding to emerge from the study is that there is a shared legal ethos in Europe that imposes a duty of appropriate care concerning the vast variety of sacred cultural goods and the religious cultural heritage in general as an invaluable repository of European cultural capital It also considers the sui generis nature of this capital like any other type of asset it may deteriorate or fade over time necessitating investment in its preservation or refurbishment nevertheless like no other this particular capital maintains a distinct cultural value as it contains an additional characteristic of sacredness expressed in the form of its religious character the latter being analyzed as a triptych of religious memory religious aesthetics and religious beliefs Sugar Central and Planters News , 1929

Committee on Hispanic Affairs,2002 Encuentro and Mission provides pastoral principles priorities and suggested actions to develop ministry further among Hispanics while calling them to leadership in a culturally diverse Church Faith and Impiety in Revolutionary Mexico M. Butler,2015-12-11 While Mexico s spiritual history after the 1910 Revolution is often essentialized as a church state power struggle this book reveals the complexity of interactions between revolution and religion Looking at anticlericalism indigenous cults and Catholic pilgrimage these authors reveal that the Revolution was a period of genuine religious change as well as social upheaval American Constitutions: pt. 3. Geyer,1993 **Sugar News** ,1929 *American constitutions: The republics of Central America: Guatemala; Salvador; Nicaragua; Costa Rica; Honduras; Panama.* 1906 International Bureau of the American Republics,José Ignacio Rodríguez,1907 **Mapping Marriage Law in Spanish Gitano Communities** Susan Gay Drummond,2006 Comparative law and legal anthropology have traditionally restricted themselves to their own fields of inquiry Mapping Marriage Law in Spanish Gitano Communities turns this tendency on its head and investigates what happens when the voices of each discipline are invited to speak to each other Susan Drummond forges this hybrid form of comparative work through small and large scale studies of Gitano marriage law as it emerges in a Western European state in a modern urban centre

and in particular communities and families Drummond's mapping of Gitano marriage law is grounded in ethnographic fieldwork in Andalucía The study draws initially from the tradition of comparative law to focus on the emergence of Spanish state family law in a predominantly national and international context Drummond then adopts the role of legal anthropologist to examine a particular legal culture that exists within and also beyond the Spanish state that of the Gitanos and the transnational Roma Ultimately she brings the international national and cultural dimensions of law into play with one another and contemplates how all of these influences bear on the spirit of Andalusian Gitano marriage law The result is an ethos of marriage law in a thoroughly mixed legal jurisdiction Mapping Marriage Law in Spanish Gitano Communities will appeal to scholars and students in comparative law and legal anthropology as well as readers interested in Roma studies in general and the Gitanos in particular
