Lost Bonanzas:

Lost Bonanzas of Western Canada Garnet Basque, 1996 The book contains 13 true stories of lost mines buried treasure and outlaw loot from British Columbia Alberta and the Northwest Territories This collection of stories is unlike most Although many of the stories themselves are not new in the past most authors have merely glamorized the possibility that the treasure existed This author has gone far beyond that spending the time and research necessary trying to establish whether or not the treasure did in fact exist whether the people places and events actually existed It was a complicated process given the number of years that had passed Authenticating them however did not detract from the stories This collection will stir the adventuresome spirit in any reader LOST BONANZAS HARRY SINCLAIR DRAGO, Lost Desert Bonanzas Eugene L. Death Valley and the Amargosa
Richard E. Lingenfelter, 1988-01-11 This is the history of Death Valley where that bitter stream the Amargosa dies. It embraces the whole basin of the Amargosa from the Panamints to the Spring Mountains from the Palmettos to the Avawatz. And it spans a century from the earliest recollections and the oldest records to that day in 1933 when much of the valley was finally set aside as a National Monument. This is the story of an illusory land of the people it attracted and of the dreams and delusions they pursued, the story of the metals in its mountains and the salts in its sinks, of its desiccating heat and its revitalizing springs and of all the riches of its scenery and lore, the story of Indians and horse thieves, lost argonauts and lost mine hunters, prospectors and promoters, miners and millionaires, stockholders and stock sharps, homesteaders and hermits, writers and tourists. But mostly this is the story of the illusions, the illusions of a shortcut to the gold diggings that lured the forty niners, of inescapable deadliness that hung in the name they left behind, of lost bonanzas that grew out of the few nuggets they found, of immeasurable riches spread by hopeful prospectors and calculating con men and of impenetrable mysteries concocted by the likes of Scotty. These and many lesser illusions are the heart of its history.

Lost Decades
Menzie D. Chinn, Jeffrey A. Frieden, 2012-10-01 A clear authoritative guide to the crisis of 2008, its continuing repercussions and the needed reforms ahead. The U.S. economy lost the first decade of the twenty-first century to an ill conceived boom and subsequent bust. It is in danger of losing another decade to the stagnation of an incomplete recovery. How did this happen? Read this lucid explanation of the origins and long term effects of the recent financial crisis drawn in historical and comparative perspective by two leading political economists. By 2008 the United States had become the biggest international borrower in world history with more than two thirds of its 6 trillion federal debt in foreign hands. The proportion of foreign loans to the size of the economy put the United States in league with Mexico, Indonesia and other third world debtor nations. The massive inflow of foreign funds financed the booms in housing prices and consumer spending that fueled the economy until the collapse of late 2008. This was the most serious international economic crisis since the Great Depression of the 1930s. Menzie Chinn and Jeffrey Frieden explain the political and economic roots of this crisis as well as its long term effects. They explore the political strategies behind the Bush administration's policy of funding massive deficits with foreign borrowing. They show that the crisis was foreseen by many and was avoidable through appropriate policy measures. They examine the continuing impact of our huge debt on the continuing slow recovery from the recession. *Lost Decades* will long be regarded as the standard account of the crisis and its aftermath.

History of the Big Bonanza Dan De Quille,1876 **History of the Big Bonanza** William Wright,1876 *History of the Big Bonanza: An Account of Nevad's Silver Rush* Dan de Quille, The bare mention of a mine of silver calls up in most minds visions of glittering wealth and a world of romantic situations and associations All no doubt have read the story of the Indian hunter Diego Hualca who in the year 1545 discovered the world famous silver mine of Potosi Peru How while climbing up the face of a steep mountain in pursuit of a wild goat this fortunate hunter laid hold upon a bush in order to pull himself up over a steep ledge of rocks and how the bush was torn out by the roots when lo wonderful store of wealth was laid bare In the roots of the upturned bush and in the soil of the spot whence it was torn the eyes of the lone Indian hunter beheld masses of glittering silver Having all our lives had in mind this romantic story and having a thousand times pictured to ourselves the great shining lumps of native silver as they lay exposed in the black soil before that Indian who stood alone in a far away place on the wild mountain we are apt to imagine that something of the same kind is to be seen wherever a silver mine exists Besides we have all heard the stories told by the old settlers of the Atlantic States in regard to the wonderful mines of silver known to the Indians in early days Hardly a State in the Union but has its legend of a silver mine known to the red men when they inhabited the country This mine was pretty much the same in every State and in every region Upon the removal of a large flat stone an opening resembling the mouth of a cavern

was seen Entering this you found yourself in a great crevice in the rocks and the sides of this crevice were lined with silver which you forthwith proceeded to hew and chip off with a hatchet kindly furnished you by your Indian guide You worked rapidly as according to contract you had but a limited time to remain in the mine When the Indian at your side announced your time up the tomahawk was taken from your hand even though you might have an immense mass detached save a mere clinging thread Only men who had saved the life of some Indian of renown were ever led to these silver caverns and they were invariably obliged to submit to be blindfolded so that none of them were ever able to find their way back to the mines they had been shown These and kindred stories have placed masses of native silver and deposits of rich ores of silver very near to the surface of the ground in the popular mind No doubt there are many places in the world where native silver exists almost upon the present surface as was the case in the Potosi mine in Peru and as was the case with the rich deposit of silver ore first found on the Comstock lode but those who visit the present mines of the Comstock will find little in them that at all agrees with their preconceived notions of silver mines On the surface they will find nothing that is glittering nothing that is at all romantic The soil looks much the same as in any other mountainous region and the rocks seem to have a very ordinary look to the inexperienced eye The general hue of the hills is a yellowish brown and all about through the rents in the ashen hued sagebrush which clothes the country peep jagged piles of granite the bones of the land showing through its rags
