Full Moon over Noah's Ark Rick Antonson, 2016-04-12 Acclaimed travel writer Rick Antonson sets his adventurous compass on Mount Ararat exploring the region's long history religious mysteries and complex politics Mount Ararat is the most fabled mountain in the world For millennia this massif in eastern Turkey has been rumored as the resting place of Noah's Ark following the Great Flood But it also plays a significant role in the longstanding conflict between Turkey and Armenia Author Rick Antonson joined a five member expedition to the mountain's nearly 17 000 foot summit trekking alongside a contingent of Armenians for whom Mount Ararat is the stolen symbol of their country Antonson weaves vivid historical anecdote with unexpected travel vignettes whether tracing earlier mountaineering attempts on the peak recounting the genocide of Armenians and its unresolved debate or depicting the Kurds' ambitions for their own nation's borders which some say should include Mount Ararat What unfolds in *Full Moon Over Noah's Ark* is one man's odyssey a tale told through many stories Starting with the flooding of the Black Sea in 5600 BCE through to the Epic of Gilgamesh and the contrasting narratives of the Great Flood known to followers of the Judaic Christian and Islamic religions *Full Moon Over Noah's Ark* takes readers along with Antonson through the shadows and broad landscapes of Turkey Iraq Iran and Armenia shedding light on a troubled but fascinating area of the world Skyhorse Publishing as well as our Arcade imprint are proud to publish a broad range of books for readers interested in history books about World War II the Third Reich Hitler and his henchmen the JFK assassination conspiracies the American Civil War the American Revolution gladiators Vikings ancient Rome medieval times the old West and much more While not every title we publish becomes a New York Times bestseller or a national bestseller we are committed to books on subjects that are sometimes overlooked and to authors whose work might not otherwise find a home [From the Ashes of Angels](#) Andrew Collins, 2001-09-01 Provides convincing evidence that angels demons and fallen angels were flesh and blood members of a giant race predating humanity spoken of in the Bible as the Nephilim Indicates that the earthly paradise of Eden was a realm in the mountains of Kurdistan By the author of *Gateway to Atlantis* Our mythology describes how beings of great beauty and intelligence who served as messengers of gods fell from grace through pride These angels also known as Watchers are spoken of in the Bible and other religious texts as lusting after human women who lay with them and gave birth to giant offspring called the Nephilim These religious sources also record how these beings revealed forbidden arts and sciences to humanity transgressions that led to their destruction in the Great Flood Andrew Collins reveals that these angels demons and fallen angels were flesh and blood members of a race predating our own He offers evidence that they lived in Egypt prior to the ancient Egyptians where they built the Sphinx and other

megalithic monuments before leaving the region for what is now eastern Turkey following the cataclysms that accompanied the last Ice Age Here they lived in isolation before gradually establishing contact with the developing human societies of the Mesopotamian plains below Humanity regarded these angels described as tall white haired beings with viperlike faces and burning eyes as gods and their realm the paradise wherein grew the tree of knowledge Andrew Collins demonstrates how the legends behind the fall of the Watchers echo the faded memory of actual historical events and that the legacy they have left humanity is one we can afford to ignore only at our own peril **Reflections on Biblical Histories** Robert N.

While in medical school which I did not have the privilege of completing once a week we had a small group discussion class called Focus On Problems Each group had a leader a member of the medical school staff or someone closely associated with the school usually an MD or Ph D Our group leader was Dean of the Medical School H David Wilson MD One class period focused on working with patients of different ethnic backgrounds Dr Wilson asked me what were some of the traditions of my tribe in regard to medicine that would be helpful for a doctor to know My reply was that I had been raised like a white that I had grown up learning about various herbal and natural remedies but that I knew nothing about the specific medical traditions ceremonial or secular of my people I had always longed to know of the traditions of my people before that but circumstances of my family history had not allowed it That question in the Focus On Problems class caused that longing to intensify into a sharp pang of longing that would not be satisfied until many years later While in the first two years of medical

school as a nontraditional student I was in an environment that encouraged the development of the knowledge of Native American traditions We had Native American speakers that came and elaborated on Native American traditions One area that was lacking was tribal histories but what academics label prehistory I commented to her that when white man came they did all they could to destroy our social and religious fabric so the old traditions were not passed down to most of the remaining members of the tribes Now we know nothing of our old history There is nothing left The white side of my family history is easy to know but not my Cherokee and Choctaw side She replied by saying that yes many of our peoples have lost their old traditions and it is sad

Flood Legends Charles Martin,2009 The story of the Deluge or the Global Flood of Noah permeates nearly every culture in the world in some way shape or form While details vary between the different cultures the same basic elements occur in all versions Despite the striking similarities of these accounts some mythologists have looked at the minor differences in the stories and declared This never happened There is another alternative to accept that the different versions all refer to the same event passed on from generation to generation through various developing cultures Through these legends this epic event has remained woven into the tapestry of cultural history sharing not just the story of survival but the power of obedience and the fulfillment of God s enduring promise

Charting the Supernatural Judgements of Planet Earth Jerimiah Asher,2010-08-10 Chapter 3 The First Judgment The World Prior To Adam There may have been many judgments upon the earth since its beginning millions or billions of years ago however the present commentary will deal only with the last tens of thousands of years of earth s existence In Genesis 1 2 the verses written by Moses as author of the Genesis account portray an earth that was veiled in darkness so that its form could not be discerned The earth at that time was covered with water ice high above the mountain tops so that it gave the appearance of being a dark revolving sphere of frozen water Table 2 God s spirit is described as hovering over this revolving ball of water and brooding over the sad condition of this dark void planet God did not create a dark and dismal planet at the beginning because God does not create darkness in fact darkness is incompatible with His existence and presence So what had happened that God viewed Gen 1 2 such a decrepit state of the world Does scripture attempt to explain this phenomenon or does the inspired word of God remain silent on this issue It was first proposed as a theory by the Scotsman Thomas Chalmers in the early 19th century that a gap in time existed between Genesis 1 1 and Genesis 1 2 This gap in time would encompass a ruin reconstruction theme and the existence of pre Adamic living beings Obviously a huge catastrophic event would have had to occur to produce this decadent state of the world The gap concept was later popularized by mention in the margin notes of the Scofield Reference Bible

[The Scientific Case Against Scientific Creationism](#) Jon P. Alston,2003-09 Sociologist Jon P Alston offers a unique and clear analysis of the weaknesses of scientific creationism and intelligent design by identifying what creationists say when they reject evidence for evolution He demonstrates how scientific creationists accept non scientific

statements that contradict established scientific knowledge Acceptance of anti evolutionary knowledge also demands acceptance of a literal six day creation and other statements contradicting scientific findings Few persons have read so closely the writings of scientific creationists to illustrate how anti scientific anti evolutionists become when they criticize the fact of evolution Creationists are forced to develop just so stories to defend their literal interpretations of Biblical scripture Alston finds creationists cannot defend their religious beliefs using established scientific methodologies and principles
