Children's Fractional Knowledge Leslie P. Steffe,John Olive,2009-12-02 Children s Fractional Knowledge elegantly tracks the construction of knowledge both by children learning new methods of reasoning and by the researchers studying their methods The book challenges the widely held belief that children s whole number knowledge is a distraction from their learning of fractions by positing that their fractional learning involves reorganizing not simply using or building upon their whole number knowledge This hypothesis is explained in detail using examples of actual grade schoolers approaching problems in fractions including the schemes they construct to relate parts to a whole to produce a fraction as a multiple of a unit part to transform a fraction into a commensurate fraction or to combine two fractions multiplicatively or additively These case studies provide a singular journey into children s mathematics experience which often varies greatly from that of adults Moreover the authors descriptive terms reflect children s quantitative operations as opposed to adult mathematical phrases rooted in concepts that do not reflect and which in the classroom may even suppress youngsters learning experiences Highlights of the coverage Toward a formulation of a mathematics of living instead of being Operations that produce numerical counting schemes Case studies children s part whole partitive iterative and other fraction schemes Using the generalized number sequence to produce fraction schemes Redefining school mathematics This fresh perspective is of immediate importance to researchers in mathematics education With the up close lens onto mathematical development found in Children s Fractional Knowledge readers can work toward creating more effective methods for improving young learners quantitative reasoning skills *The Sarai* Brian Starr,2014-05-25 The author shows charts of the Sarai what every pregnant women learns while she is expecting and making a new life *Documents Relating to the Colonial History of the State of New Jersey, Calendar of New Jersey Wills, Volume VIII* Elmer T. from the originals in the office of the Secretary of the State and where they are recorded a reference to the book of record is given The wills are arranged in alphabetical order by the testators or intestates names Thi
