Lot To Ask A Life Of Barbara Pym:

A Lot to Ask Hazel Holt, 2013-11-21 Barbara Pym is a writer of whom it may be truly said that her life is reflected in her work. This definitive biography puts Barbara in her setting and relates her life to the age and the world in which she lived. Drawing on a wealth of previously unpublished material and with the help of Barbara's sister Hilary and her friends including Philip Larkin, Robert Liddell, Henry Harvey, and Robert Smith, Hazel Holt, her friend and literary executor, has drawn a perceptive portrait of Barbara Pym, the woman as well as the novelist. From the heady atmosphere of pre-war Oxford where she embarked upon a series of highly romantic love affairs through her wartime service in the WRNS to early success as a published writer, we come to know a person whose humour and sharp observation were uniquely combined with a compassionate acceptance of human nature, qualities that made her such an outstanding novelist. Hazel Holt also describes the dark period from 1963 when Barbara Pym's novels were rejected as unpublishable through the wilderness years until 1977 when her literary reputation was triumphantly re-established by Philip Larkin and Lord David Cecil. Barbara Pym emerges from these pages as an entertaining companion with an insatiable curiosity and an unquenchable delight in the eccentricities of her fellows. Readers already acquainted with her novels will find great pleasure in this biography and those who are not will be irresistibly drawn towards the world of Barbara Pym. The Reality behind Barbara Pym's Excellent Women Robin R. Joyce, 2023-02-20 This book analyses Barbara Pym's published and unpublished work through a new image that of the troublesome woman. It details the political nature of her work, highlighting her feminist ideas which are hidden in village-like settings and revealed by troublesome women. By exploring Pym's written work, published and unpublished diaries, and notebooks, the book shows that this material gives credence to Hilary Pym's interpretation of her sister as a complex person. The Older Woman in Recent Fiction Zoe Brennan, 2014-12-09 This critical study explores late twentieth-century novels by women writers including Doris Lessing, May Sarton, and Barbara Pym that feature female protagonists over the age of sixty. These novels discourses on aging contrast with those largely pejorative ones that dominate Western society. They break the silence that normally surrounds the lives of the aged, and this book investigates how older female protagonists are represented in relation to areas such as sexuality, dependence, and everyday life. Beginning with an investigation of popular opinions about aging and a survey of hypotheses from disciplines including gerontology, psychology, and feminism, the text reviews literary critical attitudes toward fictions of aging, analyzes representations of physically dependent characters whose anger over their failing bodies is often eased by relationships with their female friends, discusses how paradigms of female sexuality exclude the possibility of older women being sexually desirable, examines characters that live a contented life finding a more polemical side to them than is noted in more conventional literary critiques, and analyzes the aged sleuth in classical detective fiction.
