Understanding Management Control and Organisational Sense-making Dr Krister Bredmar, 2016-07-29

Summary This book centres around three different areas management control organisations and information systems in order to understand what is actually going on and to make sense of management control questions Management control techniques used today could in many cases be traced back to industrialisation With the help of computerised information systems the speed and detail with which a manager could get a hold of important information has increased Today it has

become even more important to be able to choose what information to work with and that the context in which it should be used is understood Organisational sense making is in many ways an interesting and important path to take in order to do this When working with the management control function it is important to understand the organisation where the work is undertaken One important part of the function is planning and another is control Both are needed in order for the management control function to work Performance is often a key ingredient when trying to find out what is working in a plan and what is not and here the understanding for information becomes necessary Since the work is done within an organisation both by managers and employees it is also crucial to find ways to work with not only models methods and techniques but also people and social dimensions Key Features Managers and employees want to act in a meaningful way in general The way planning and control is undertaken in an organization is to a large extent dependent on the way a manager interprets information about the organisation Decisions and actions can be traced to the interpretation of a situation in the past and present Since organisations are built on people it is important to try to understand why they act in a certain way and how their understanding of the organisation is evolving Management control has in many ways been described as a function that is dependent on different techniques and methods however it can also be described as a social process focusing on decisions and actions Informations systems have come to play a crucial role in managing an organisation especially when it comes to tracing performance The demand for responsible and accountable management has led to an increased emphasis on meaningful decisions and actions The Author Dr Krister Bredmar is associate professor at Linneaus University in Sweden He has for more then 20 years worked with management control and organisational sense making both in theory and in practice His research has been published both in academic journals and in books Readership Scholars students and practitioners Contents The accounting heritage Corporate epistemology Thinking ahead The essence of management control Understanding performance The control concept in management control Reports communication and stakeholders The essence of sense making Organisations as a set of social relations Information systems and management control Individuals and organisations Organisational structure A social perspective A decisions context Techniques and functions Thinking and acting strategically Accounting tools Information and knowledge The performance paradox **Organization** John Child,2015-02-11 The definitive organization management text for executives and aspiring business leaders Organization Contemporary Principles and Practices Second Edition is the completely updated and revised landmark guide to macro organization theory and design fully grounded in current international practice International management expert John Child explores the conditions facilitating the development of new organizational forms and provides up to date coverage of the key developments driving new organization structure and practice This revised Second Edition includes a new introductory section on Organization Theory as well as a complete Instructor Manual updated with new material on the basic principles of organizational design With detailed case studies and examples from throughout the UK Europe Asia and North America

Organization provides a truly international overview for advanced students and business executives who want to be at the forefront of the evolution in Organization Theory 21st Century organizations will be faced with entirely new challenges and opportunities than those faced by previous generations and emerging business leaders must understand the new macro realities in order to succeed Organization will help readers Understand the macro organization which is distinct from organizational behaviour Explore the way organizations fit into the international business environment and global economy Analyze the way organizational structure and design affect management performance Apply advanced organization theory and principles to day to day management activities Written by one of the foremost scholars the fully updated Second Edition of this successful text provides executives and advanced business students with a wide ranging and trustworthy guide to organizations as the conditions for their survival in our global business environment change

Risk and Management Accounting Paul M. Collier,Anthony J Berry,Gary T Burke,2006-10-04 Presents the findings from two research projects on risk 1 a pilot study comprising four mini case studies on how risk impacted upon budgeting and 2 a comprehensive survey and analysis of risk management in organisations in particular how it impacted on both internal controls and on the role of the management accountant

Business Planning and Control Bruce Bowhill,2008-05-19 Business Planning and Control Integrating Accounting Strategy and People starts with an introduction to core areas of management accounting and business planning It then explores relationships between strategy management accounting information and the design of control systems taking into account the needs of both people and organizations Business Planning and Control is an indispensable text for both undergraduate and postgraduate students taking modules related to management accounting and business planning and control
