*Global Human Resource Management Casebook* James Hayton,2012-04-27 The Global Human Resource Management Casebook is a collection of business teaching cases focusing on Human Resource Management issues around the world Each case is based in a single country and illustrates one or more significant challenge faced by managers and HR practitioners The influence of the unique national cultural and institutional context upon the issues in the case is emphasized In total 32 unique and original cases are presented each from different national contexts Every case is followed by a set of questions for use in class discussion or private study of the cases This casebook is a project undertaken by a committee of international members of the Human Resources Division of the Academy of Management USA The HR Division currently has over 3500 members worldwide indicating a significant immediate audience for the text The committee referred to as the HR Ambassadors Committee James Hayton Chair is intended to represent the global membership of the organization We currently have members in over 60 countries and Ambassadors for over 50 of these The committee was established to contribute to the internationalization of the HR Division and the Academy of Management by creating collaborative projects that both involve and serve the global membership This book which represents the first product of our collaboration is expected to provide a

useful teaching tool for HRM educators and secondarily is expected to be of use to HR practitioners with an interest in the globalization of HRM

**CSR as a Management Idea** Mats Jutterström, Peter Norberg, 2013-08-30 There is much written about management fashion and about corporate social responsibility CSR but nothing which combines the two This volume provides unique insight into both CSR and the travels of management ideas It gets to the detail of CSR in practice its institutions and actors in different contexts and shows how it can be better understood with the broader lens of CSR as a management idea Both those with interests in CSR and in management ideas will benefit from this collection Andrew Sturdy University of Bristol UK CSR corporate social responsibility has become a widely diffused concept in the business world This book explores CSR as a management idea that is as a tool for organizational reform It shows that CSR has much in common with other popular management ideas such as lean production total quality management just in time business process reengineering and six sigma but there are also significant differences The book demonstrates how CSR standards are set and spread in the business community but also what happens when CSR reaches management is implemented and used in daily operations The results represent not only a significant contribution to the literature on CSR by generalizing the concept and its operationalization It also contributes to organizational literature by highlighting important differences between popular management ideas and how they affect organizations CSR as a Management Idea will prove invaluable to researchers and practitioners with an insight in the subject of CSR and business management Students of more advanced courses in management and business ethics will also find plenty of innovative information from this important study

**Modeling and Use of Context in Action** Patrick Brézillon, Roy M. Turner, 2022-09-21 This book brings together current research and adopts a pragmatic approach to modeling and using context to solve real world problems The editors were instrumental in creating and continue to be involved in the interdisciplinary research community centered around the biennial CONTEXT International and Interdisciplinary Conference on Modeling and Using Context conference series focused on studying context and its implications for artificial intelligence software applications psychology philosophy linguistics neuroscience as well as other fields The first three chapters lay the foundations looking at the lessons learned over the past 25 years and arguing for a continued shift toward more pragmatic approaches The remaining chapters contain contributions to pragmatic context based research from a wide range of domains including technological problems such as subway incident management and autonomous underwater vehicle control identifying emotions from speech without understanding the words anonymization in a world where privacy is increasingly threatened teaching in context and improving management teaching in a business school

*Knowledge Management, Arts, and Humanities* Meliha Handzic, Daniela Carlucci, 2019-03-28 This book presents a series of studies that demonstrate the value of interactions between knowledge management with the arts and humanities The carefully compiled chapters show on the one hand how traditional methods from the arts and humanities e g theatrical improvisation clay modelling theory of aesthetics can be used to enhance knowledge creation and evolution On the other the

chapters discuss knowledge management models and practices such as virtual knowledge space BA design social networking and knowledge sharing data mining and knowledge discovery tools The book also demonstrates how these practices can yield valuable benefits in terms of organizing and analyzing big arts and humanities data in a digital environment **UGC NET**
