**Economic and Management Issues in Retrospect and Prospect** Eszter Wirth, Orhan Şimşek, Şükrü Apaydın, 2018-11-30      **Property Rights and Managerial Decisions in For-profit, Non-profit and Public Organizations** K. Carroll, 2003-12-11

The author describes the property rights that exist in different organizational forms and explains how these establish incentives for managerial decision behaviour. She compares the rights incentives and corresponding decision behaviour in for-profit, non-profit and public organizations under conditions of unbounded rationality. She shows that managerial responses to regulation, tax and industrial organization policies may differ from the usual predictions when property rights are considered. She also shows how property rights link economic and organization theory.

Economic Thresholds for Integrated Pest Management Leon G. Higley, Larry P. Pedigo, 1996-01-01. Selected bibliography economic decision level literature 1959-1993 compiled by Robert K D Peterson P 297-312      **Urban Wildlife**

**Management, Second Edition** Clark E. Adams, 2012-06-15. When the first edition of *Urban Wildlife Management* was published two years ago it provided conservationists, ecologists and wildlife professionals with a welcome shift in the way that interactions between humans and wildlife were viewed and managed. Instead of focusing on ways to evict or eradicate wildlife encroached on by urban development, this unique work took a holistic ecosystems approach. Gathering information from more than five hundred academic sources and the popular media, this book educated us on the complete nature of the problem. See what's new in the Second Edition: New information garnered from secondary data sets; Added contributions from an extended list of leading wildlife specialists; Original research conducted by the authors and their students; New chapters on urban soils, urban waters and zoonotic diseases; More perspective essays and case studies; Single species profiles in each chapter that focus on management issues; Numerous tables examining trends by species and by region; Through discussions of past and present approaches in the United States, the book explores the changing landscape of wildlife management and future approaches. Urban habitats and hazards are defined in terms of green and gray spaces. Sociopolitical issues are discussed in terms of wildlife management stakeholder responsibilities and legal considerations. And wildlife are viewed as adaptive inhabitants of an evolving ecosystem rather than as interlopers in a human-only world. The author maintains a blog exploring wildlife in our own backyard.      Value Management Implementation in Construction Ayodeji E. Oke, Seyi S.
