Church Abuse of Clergy Gene Fowler, 2020-03-09 Imagine receiving a shocking email from a church member stating that you the pastor have mishandled church funds and that you should resign for the good of the congregation Soon you discover that the church member sent the email to many other church members Additional lies will follow until the fateful day comes when the members vote to fire you or the bishop dismisses you or you resign for sheer survival You are experiencing church abuse of clergy which is the topic of this book Clergy will gain an entirely new understanding of church abuse of clergy that afflicts many pastors and their loved ones by reading this book The view of church abuse of clergy being presented is a new paradigm that challenges older explanations of the church abuse This book shows that clergy must begin collaborating in order to discover effective solutions to the church abuse of clergy problem Clergy must become empowered to confront the church at all levels and support one another in the face of church abuse of clergy A very toxic ministry situation exists throughout the United States and internationally which must be challenged

Conflict Management and the Apostle Paul Scot McKnight, Greg Mamula, 2018-05-22 Churches often find themselves in the middle of conflict These conflicts can exist between people within the church between the leaders and congregation or even between churches themselves Leaders often turn to Scripture for guidance in resolving these conflicts However the Bible does not outline or even discuss conflict management In fact various biblical figures from ancient Israelite kings to New Testament apostles all uniquely approach conflict Does the Bible have a theory of conflict management In *Conflict Management and the Apostle Paul* the authors explore how Paul approached conflicts with his close associates like Barnabas and Peter and with his mission churches like those in Galatia and Corinth *Conflict Management and the Apostle Paul* distinctively sketches how various theories of conflict management used today shed light on Paul's own approaches to conflict while also evaluating the conflicts themselves The authors in this volume are pastors and church workers who themselves bring their own experiences with conflict into play as they seek wisdom from the New Testament

Groups Differences of Ethnic Groups Power Struggle among Ethnic Groups Discrimination and Injustice against Groups Lack of Participatory Communication and Lack of Participatory Leadership Finally in reviewing the relevant literatures on Community Building the book underlines the various variables that make Community Building possible Such variables include Discovering and Mobilizing the Assets of Individuals and Groups within Organizations Building Relationships among Individuals and Groups within Organizations Building a more Participatory Leadership within Organizations Building a more Participatory Communication within Organizations Creating more Awareness on the necessity of Collaborative Initiatives as well as Promoting the Common Cultural Values and Ideals that holds Individuals and Groups together within Organization
