The Culturalization of Caste in India Balmurli Natrajan,2011-07-20 In India caste groups ensure their durability in an era of multiculturalism by officially representing caste as cultural difference or ethnicity rather than as unequal descent based relations Challenging dominant social theories of caste this book addresses questions of how caste survives the system that gave rise to it and adapts to new demands of capitalism and democracy Based on original fieldwork the book shows how the terrain of culture captured by a new grammar of caste revitalizes castes as cultural communities so that the culture of a caste is produced organized and naturalized in the process of transforming jati fetishized blood and kinship into samaj fetishized culture Castes are shown to not be homogenous cultural wholes but sites of hegemony where class gender and hierarchy over determine the meanings and materiality of caste Arguing that there exists a new casteism in India akin to a new racism in the USA built less on biology and descent and more on purported cultural differences and their rights to exist the book presents an extended critique and a search for an alternative view of caste and anti casteist politics It is of interest to students and scholars of South Asian culture and society *The Rules(TM) for Marriage* Ellen Fein,Sherrie Schneider,2007-11-01 You did the Rules And They Worked You captured the heart of your Mr Right and are at the very least

rights formal religions especially Islam are seen as barriers providing institutional and ideological resistance to women's realization of reproductive and social autonomy This book challenges this simplified view of Islam Based on original fieldwork in Eastern Indonesia the book explores the complex factors that affect how young Indonesian women form their sexual subjectivities discusses the cultural and historical conditions under which single Muslim women repress or express their sexuality and examines how the cultural context including other factors besides Islam simultaneously influence the ways in which young single women approach courtship and issues of sexuality and reproductive health It demonstrates that Islam is neither alone in trying to control female sexuality nor entirely successful in doing so **Jean François Lyotard: Ethics**

a fundamental distinction is made between law and juridical thinking Law is the content of legal rules and the systems of legal rules Juridical thinking is the handling of the law by the lawyers To this distinction corresponds a basic distinction between the language of law and the language of juridical thinking and correlatively between L concepts law concepts and J concepts juridical or jurisprudential concepts The monograph is devoted to the J concepts especially of technical not ideological or evaluative J concepts Four kinds of J concepts are investigated morphological J concepts those that help us to structure the law in a logical and functional way topological J concepts those that help us to indicate the phenomena to which the law is applicable and to separate the areas of application for different legal systems praxeological J concepts those that help us to explore the relations between law and action and methodological J concepts those that help us to describe the methods of the professional juridical handling of the law The work can be characterised as presenting a lawyer's philosophy of law *Modern European cinema and love* Richard Rushton, 2023-05-23 Modern European cinema and love examines nine

European directors whose films contain stories about romantic love and marriage The directors are Jean Renoir Ingmar Bergman Alain Resnais Michelangelo Antonioni Agnès Varda François Truffaut Federico Fellini Jean-Luc Godard and Eric Rohmer The book approaches questions of love and marriage from a philosophical perspective applying the ideas of authors such as Stanley Cavell Leo Bersani Luce Irigaray and Alain Badiou while also tracing key concepts from Freudian psychoanalysis Each of the filmmakers engages deeply with notions of modern love and marriage often in positive ways but also in ways that question the institutions of love marriage and the couple **Law, Religion and Love** Paul

Babie, Vanja-Ivan Savić, 2017-09-01 Increasingly the modern neo liberal world marginalises any notion of religion or spirituality leaving little or no room for the sacred in the public sphere While this process advances the conservative and harmful behaviours associated with some religions and their adherents exacerbate this marginalisation by driving out those who remain religious or spiritual And all of this is seen through the lens of social science which seems to agree that religion remains important if not in spiritual sense at least as a source of folklore and a means of identification religions remain

rooted in the societies from which they emerged and the legal systems of many of those societies emerged from religious sources even if those societies remain unwilling to admit that fact In the modern materialistic world of conformity religion is less a source of guidance than a label of identification The world therefore faces two issues First the decreasing level of spirituality in the West widens the gap between worshippers and those who have left their faith eg agnostics and atheists or those who look at religion as a matter of picking and choosing from a range of options And second the strong connections to religion which remain in many nations but which are often misused in the secular public sphere both in the West and internationally In such divided worlds both religious and secular forces tend to lock themselves into closed groupings of pure truth and in so doing increase the level of disagreement in turn producing radicalism In short the modern world is divided in two ways between religious and non religious although some have argued that the non religious secular is itself a form of civil religion and between those subscribing to divergent understandings of the same religious tradition While hyperbolic and histrionic the term culture wars nonetheless best captures what we see happening in the public sphere today The question emerges then how best to accommodate the democratic principle which posits that the majority should feel that it lives in a society of its own with the human rights principle holding that is necessary to ensure the full protection of the minority s rights How to balance these seemingly opposed principles We are very familiar with the differences that appear between secular and sacred in the modern world yet what of the similarities amongst scriptures and laws which seek to encourage mutual understanding cooperation and even cohabitation Because religion itself is a source of law a set of exhortations or commands as much as a set of rights every major religion offers an approach to encountering the Other in a positive constructive affirming way and it is here that religions reveal much that they have in common This book draws together the work of scholars engaged in exploring the possibilities for a utopian world in the sense fostered by St Thomas More The essays explore those dimensions of religious and civil law where love however that is defined by relevant texts fosters and encourages acceptance of the Other and will offer perspectives on the ways in which religious or civil state law command one to act in the spirit of love

Dual-career Marriage Lisa R. Silberstein, 2014-01-14 Dual career marriage in which wife and husband each pursue a professional career offers a window into the changing landscape of gender roles and relations In the span of a single generation the family in which both parents work outside the home has gone from being the exception to being the rule This book examines the multi layered implications this impressive rapid change holds for the fabric of family and marital life and for the course of men s and women s work lives Intensive interviews with dual career wives and husbands provide rich information about four major issues In what ways and for whom do dual career marriages replicate the traditional gender arrangements of one career marriages and in what ways do dual career marriages represent a revolution in gender roles How do the two careers of spouses develop side by side and in what ways do dual career spouses help or hinder each other s careers How do work and family combine in dual career marriages How are relationships between

spouses and between parents and children affected by dual careers This book presents a subtle textured portrait of contemporary dual career marriage examining the complicated interplay of expectations behaviors and emotions within and between dual career spouses The author observes that the centrality of family or work to each spouse s sense of self powerfully affects how the couple negotiates the challenges posed by dual career marriage including feelings of competition between spouses questions of geographic moves and division of domestic tasks The study illuminates many issues of clinical relevance such as the common hazard of dual career spouses having little time for marital intimacy once the rigorous demands of careers and children are met and the complicated intrapersonal as well as interpersonal tensions generated by gender roles in transition
