Mobilizing Islam Religion Activism And Political Change In Egypt:

Mobilizing Islam Carrie Rosefsky Wickham, 2002 The rise of a popular Islamic reform movement in Egypt has had considerable influence beyond its borders as events since September 11 2001 attest This book explains how militant Islamist groups captured the hearts and minds of educated youth in the Arab world The Mobilization of Political Islam in Turkey Banu Eligür, 2010-04-12 The Mobilization of Political Islam in Turkey explains why political Islam which has been part of Turkish politics since the 1970s but on the rise only since the 1990s has now achieved governing power Drawing on social movement theory the book focuses on the dominant form of Islamist activism in Turkey by analyzing the increasing electoral strength of four successive Islamist political parties the Welfare Party its successor the Virtue Party and the successors of the Virtue Party the Felicity Party and the Justice and Development Party This book which is based on extensive primary and secondary sources as well as in depth interviews provides the most comprehensive analysis currently available of the Islamist political mobilization in Turkey **Islamists and the Politics of the Arab Uprisings** Hendrik Kraetzschmar, 2018-06-06

Demonstrates how the textual output of settler emigration shapes the nineteenth century literary and artistic imagination

A Quiet Revolution Leila Ahmed, 2011-04-29 A probing study of the veil s recent return from one of the world s foremost authorities on Muslim women that reaches surprising conclusions about contemporary Islam s place in the West today In Cairo in the 1940s Leila Ahmed was raised by a generation of women who never dressed in the veils and headscarves their mothers and grandmothers had worn To them these coverings seemed irrelevant to both modern life and Islamic piety Today however the majority of Muslim women throughout the Islamic world again wear the veil Why Ahmed asks did this change take root so swiftly and what does this shift mean for women Islam and the West When she began her study Ahmed assumed that the veil s return indicated a backward step for Muslim women worldwide What she discovered however in the stories of British colonial officials young Muslim feminists Arab nationalists pious Islamic daughters American Muslim immigrants violent jihadists and peaceful Islamic activists confounded her expectations Ahmed observed that Islamism with its commitments to activism in the service of the poor and in pursuit of social justice is the strain of Islam most easily and naturally merging with western democracies own tradition of activism in the cause of justice and social change It is often Islamists even more than secular Muslims who are at the forefront of such contemporary activist struggles as civil rights and women s rights Ahmed s surprising conclusions represent a near reversal of her thinking on this topic Richly insightful intricately drawn and passionately argued this absorbing story of the veil s resurgence from Egypt through Saudi Arabia and into the West suggests a dramatically new portrait of contemporary Islam **Islam and the Baha'i Faith** Oliver Scharbrodt, 2008-04-25 This book explores the development of Islam and the Baha i faith in the nineteenth century via the examination of two key reformers Egypt's Political Economy Nadia Ramsis Farah, 2009-03-01 This new study deals with the unfolding of the great political and economic transformations of the modern Egyptian state from the appointment of

Muhammad Ali as governor of Egypt in 1805 to the era of President Mubarak with a special focus on the period 1990 2005 which witnessed a rigorous implementation of structural adjustment policies the acceleration of economic privatization and liberalization the emergence of a group of neoliberals within the ruling National Democratic Party and the consolidation of business interests and representation in parliament and government The author asserts that the modernization process in Egypt over the last two centuries has been determined by power relations and their articulation and so she investigates in depth the impact of power relations on development strategies on political liberalization on politicized Islam as a hegemonic ideology adopted by the state since the beginning of the 1970s and on gender relations in development The Mubarak Leadership and Future of Democracy in Egypt A. Arafat, 2009-05-11 As Mubarak's regime nearing its end becomes a strong possibility many pressures both foreign and domestic are coming to bear on Egypt to bring democratic reforms to this struggling country In The Mubarak Leadership and Future of Democracy in Egypt Alaa Al Din Arafat studies this new era and the obstacles that must be overcome **Handbook of Political Citizenship and Social Movements** Hein-Anton van der Heijden, 2014-10-31 This Handbook uniquely collates the results of several decades of academic research in these two important fields The expert contributions successively address the different forms of political citizenship and current approaches and recent development The Rise of the Egyptian Middle Class Relli Shechter, 2019 Working into the middle class Crisis of supply in every household Provocative consumption Parasites The resurgence of middle class Islam The Making of the Modern Muslim State Malika Zeghal, 2024-03-26 An innovative analysis that traces the continuity of the state's custodianship of Islam as the preferred religion in the Middle East and North Africa In The Making of the Modern Muslim State Malika Zeghal reframes the role of Islam in modern Middle East governance Challenging other accounts that claim that Middle Eastern states turned secular in modern times Zeghal shows instead the continuity of the state's custodianship of Islam as the preferred religion Drawing on intellectual political and economic history she traces this custodianship from early forms of constitutional governance in the nineteenth century through post Arab Spring experiments in democracy Zeghal argues that the intense debates around the implementation and meaning of state support for Islam led to a political cleavage between conservatives and their opponents that long predated the polarization of the twentieth century that accompanied the emergence of mass politics and Islamist movements Examining constitutional projects public spending school enrollments and curricula Zeghal shows that although modern Muslim majority polities have imported Western techniques of governance the state has continued to protect and support the religion community and institutions of Islam She finds that even as Middle Eastern states have expanded their nonreligious undertakings they have dramatically increased their per capita supply of public religious provisions especially Islamic education further feeding the political schism between Islamists and their adversaries Zeghal illuminates the tensions inherent in the partnerships between states and the body of Muslim scholars known as the ulama whose normative power has endured through a variety of political regimes Her detailed and

groundbreaking analysis which spans Tunisia Morocco Egypt Turkey Syria and Lebanon makes clear the deep historical roots of current political divisions over Islam in governance *Routledge Handbook of the Arab Spring* Larbi Sadiki,2014-12-17

The self immolation of Mohammed Bouazizi in Tunisia in December 2010 heralded the arrival of the Arab Spring a startling yet not unprecedented era of profound social and political upheaval The meme of the Arab Spring is characterised by bottom up change or the lack thereof and its effects are still unfurling today The Routledge Handbook of the Arab Spring seeks to provide a departure point for ongoing discussion of a fluid phenomenon on a plethora of topics including Contexts and contests of democratisation The sweep of the Arab Spring Egypt Women and the Arab Spring Agents of change and the technology of protest Impact of the Arab Spring in the wider Middle East and further afield Collating a wide array of viewpoints specialisms biases and degrees of proximity and distance from events that shook the Arab world to its core the Handbook is written with the reader in mind to provide students practitioners diplomats policy makers and lay readers with contextualization and knowledge and to set the stage for further discussion of the Arab Spring *The Muslim Brotherhood and its Quest for Hegemony in Egypt* Annette Ranko,2014-12-26

Annette Ranko analyses the Muslim Brotherhood s challenging of the Mubarak regime and the ensuing struggle between the two from 1981 to 2011 She furthermore traces how the group evolved throughout the process of that struggle She studies how the Brotherhood s portrayal of itself as an attractive alternative to the regime provoked the Mubarak regime to level anti Brotherhood propaganda in the state run media in order to contain the group s appeal amongst the public The author shows how the regime s portrayal of the Brotherhood and the Brotherhood s engagement with it have evolved over time and how this ideational interplay has combined with structural institutional aspects in shaping the group s behaviour and ideology *Why Alliances Fail* Matt Buehler,2018-11-23

Since 2011 the Arab world has seen a number of autocrats including leaders from Tunisia Egypt Libya and Yemen fall from power Yet in the wake of these political upheavals only one state Tunisia transitioned successfully from authoritarianism to democracy Opposition parties forged a durable and long term alliance there which supported democratization Similar pacts failed in Morocco and Mauritania however In *Why Alliances Fail* Buehler explores the circumstances under which stable enduring alliances are built to contest authoritarian regimes marshaling evidence from coalitions between North Africa s Islamists and leftists Buehler draws on nearly two years of Arabic fieldwork interviews original statistics and archival research including interviews with the first Islamist prime minister in Moroccan history Abdelilah Benkirane Introducing a theory of alliance durability Buehler explains how the nature of an opposition party s social base shapes the robustness of alliances it builds with other parties He also examines the social origins of authoritarian regimes concluding that those regimes that successfully harnessed the social forces of rural isolation and clientelism were most effective at resisting the pressure for democracy that opposition parties exerted With fresh insight and compelling arguments *Why Alliances Fail* carries vital implications for understanding the mechanisms driving authoritarian persistence

in the Arab world and beyond Egypt after Mubarak Bruce K. Rutherford, 2013-02-21 Which way will Egypt go now that Hosni Mubarak's authoritarian regime has been swept from power Will it become an Islamic theocracy similar to Iran Will it embrace Western style liberalism and democracy Egypt after Mubarak reveals that Egypt's secularists and Islamists may yet navigate a middle path that results in a uniquely Islamic form of liberalism and perhaps democracy Bruce Rutherford draws on in depth interviews with Egyptian judges lawyers Islamic activists politicians and businesspeople He utilizes major court rulings political documents of the Muslim Brotherhood and the writings of Egypt's leading contemporary Islamic thinkers Rutherford demonstrates that in post Mubarak Egypt progress toward liberalism and democracy is likely to be slow Essential reading on a subject of global importance this edition includes a new introduction by Rutherford that takes stock of the Arab Spring and the Muslim Brotherhood's victories in the 2011 2012 elections Religious Freedom in Islam Daniel Philpott, 2019-02-01 Since at least the attacks of September 11 2001 one of the most pressing political questions of the age has been whether Islam is hostile to religious freedom Daniel Philpott examines conditions on the ground in forty seven Muslim majority countries today and offers an honest clear eyed answer to this urgent question It is not however a simple answer From a satellite view the Muslim world looks unfree But Philpott shows the truth is much more complex Some one fourth of Muslim majority countries are in fact religiously free Of the other countries about forty percent are governed not by Islamists but by a hostile secularism imported from the West while the other sixty percent are Islamist The picture that emerges is both honest and hopeful Yes most Muslim majority countries are lacking in religious freedom But Philpott argues the Islamic tradition carries within it seeds of freedom and he offers guidance for how to cultivate those seeds in order to expand religious freedom in the Muslim world and the world at large It is an urgent project Religious freedom promotes goods like democracy and the advancement of women that are lacking in the Muslim majority world and reduces ills like civil war terrorism and violence Further religious freedom is simply a matter of justice not an exclusively Western value but rather a universal right rooted in human nature Its realization is critical to the aspirations of religious minorities and dissenters in Muslim countries to Muslims living in non Muslim countries or under secular dictatorships and to relations between the West and the Muslim world In this thoughtful book Philpott seeks to establish a constructive middle ground in a fiery and long lasting debate over Islam Twilight of the Saints Stéphane Lacroix, 2025-08-05 In scarcely a century Salafism has transformed Sunni Islam Claiming to be a revival of the purest form of Islam this movement promotes ultraconservative social and religious norms and rejects all non Sunni religious groups In Egypt its influence has grown to the point of reshaping mainstream conceptions of the faith How did such a deep religious transformation sweep through Egypt so rapidly What is the significance of Salafism for the country's political scene both before and after Hosni Mubarak fell from power in 2011 Twilight of the Saints examines the history of Salafism in Egypt from its 1920s emergence in Cairo's scholarly circles through the present day shedding new light on the movement's shifting relationship to politics Drawing on

extensive fieldwork and interviews Stéphane Lacroix illustrates how Salafism redefined what it means to be Muslim for Egyptians. He emphasizes the factors that distinguish the Salafis from the Muslim Brotherhood despite their parallel trajectories. The Salafis who initially shunned oppositional politics were looked upon more favorably by the authorities who perceived a greater threat from their Islamist counterparts. Lacroix explores how Salafism influenced the dynamics of the 2011 revolution and the democratic transition that ended with the army's takeover of the country as well as how it has fared since. *Twilight of the Saints* offers an in-depth authoritative understanding of the relationship of Salafism, politics and authoritarianism in Egypt with significant implications for the wider Muslim world.

When Victory Is Not an Option

Nathan J. Brown, 2012-02-17 Throughout the Arab world Islamist political movements are joining the electoral process. This change alarms some observers and excites others. In recent years electoral opportunities have opened and Islamist movements have seized them. But those opportunities while real have also been sharply circumscribed. Elections may be freer but they are not fair. The opposition can run but it generally cannot win. Semiauthoritarian conditions prevail in much of the Arab world even in the wake of the Arab Spring. How do Islamist movements change when they plunge into freer but unfair elections? How do their organizations such as the Muslim Brotherhood and structures evolve? What happens to their core ideological principles? And how might their increased involvement affect the political system? In *When Victory Is Not an Option* Nathan J. Brown addresses these questions by focusing on Islamist movements in Egypt, Jordan, Kuwait, and Palestine. He shows that uncertain benefits lead to uncertain changes. Islamists do adapt their organizations and their ideologies do bend some. But leaders almost always preserve a line of retreat in case the political opening fizzles or fails to deliver what they wish. The result is a cat and mouse game between dominant regimes and wily movements. There are possibilities for more significant changes but to date they remain only possibilities.

Trust and the Islamic Advantage Avital Livny, 2020-09-03 In much of the Muslim world Islamic political and economic movements appear to have a comparative advantage. Relative to similar secular groups they are better able to mobilize supporters and sustain their cooperation long term. Nowhere is this more apparent than in Turkey, a historically secular country that has experienced a sharp rise in Islamic based political and economic activity. Drawing on rich data sources and econometric methods, Avital Livny challenges existing explanations such as personal faith for the success of these movements. Instead, Livny shows that the Islamic advantage is rooted in feelings of trust among individuals with a shared religious group identity. This group based trust serves as an effective substitute for more generalized feelings of interpersonal trust which are largely absent in many Muslim plurality countries. The book presents a new argument for conceptualizing religion as both a personal belief system and collective identity.

Pluralism, Transnationalism and Culture in Asian Law

Gary F. Bell, 2018-02-14 This book stems from a symposium held at the Faculty of Law of the National University of Singapore in honour of the pioneer in the field of legal pluralism, Professor M. B. Hooker. It gathers essays from admirers and friends who add their own contributions on legal pluralism, transnationalism and

culture in Asia The book opens with an account of M B Hooker colourful and prolific career The authors then approach legal pluralism through legal theory legal anthropology comparative law law and religion constitutional law even Islamic art thus reflecting the broad approaches of Professor Hooker s scholarship While most of the book focuses mainly on Southeast Asia it also reaches out to all of Asia up to Israel and even includes a chapter comparing Indonesia and Egypt Corruption as a Last Resort Kelly M. McMann, 2015-02-06 Why do ordinary people engage in corruption Kelly M McMann contends that bureaucrats poverty and culture do not force individuals in Central Asia to pay bribes use connections or sell political support Rather corruption is a last resort when relatives groups in society the market and formal government programs cannot provide essential goods and services Using evidence from her long term research in Kazakhstan and Kyrgyzstan McMann shows that Islamic institutions secular charities entrepreneurs and banks cannot provide the jobs and credit people need This drives individuals to illicitly seek employment and loans from government officials A leading cause of this resource scarcity is market reform as demonstrated by McMann s analysis of these countries as well as of Uzbekistan and global data Market reform without supporting institutions such as credit registries and antimonopoly measures limits the resources available from the market and societal groups McMann finds that in these circumstances only those individuals who have affluent relatives have an alternative to corruption By focusing on ordinary people McMann offers a new understanding of corruption Previously our knowledge was largely restricted to government officials role in illicit exchanges From her novel approach comes a useful policy insight supplying ordinary people with alternatives to corruption is a fundamental and important anticorruption strategy
