Mobilizing The Masses Building Revolution In Henan:

Mobilizing the Masses Odoric Y. K. Wou, 1994 A study of the roots of revolution in the Chinese province of Henan this book describes in detail more than two decades 1925 to 1949 of the efforts of the Communist Party to build mass support for revolution These were decades of social and political crisis beginning with the May 30th Movement exacerbated by the Japanese invasion in 1937 and culminating in the Communist victory of 1949 Looking for historical continuities and changes the book traces the Communist movement's trajectory from the cities to the countryside and back to the urban centers in the process testing the major social science paradigms of peasant based revolution The author studies the interaction in Henan between the Communist revolutionaries and various groups that constituted the social base of the revolution workers religious sectarians rural elites student intellectuals the military and above all the peasantry He closely studies the behavior of these groups and explains the social and structural forces that facilitated or constrained the Communist movement He also shows how Communist mobilization tactics changed to accommodate such varied settings as the war zone the mountains and the floodplain The author concludes that the key to the Communists victory lay in their ability to maneuver their way to political power their skillful use of nationalist sentiment and their community and reform programs that ultimately won over the peasant masses Thus he sees the Chinese Communist movement as a dual revolutionary process of power politics and social revolution

Agrarian Questions Henry Bernstein, Tom Brass, 2016-01-20 This collection celebrates T J Byres seminal contributions to the political economy of the agrarian question Uniting the various themes is the demonstration of the continuing relevance of a critical historical and comparative materialist analysis of agrarian question [The Making of the Modern Chinese State](#) Huaiyin Li, 2019-08-13 [The Making of the Modern Chinese State 1600 1950](#) offers an historical analysis of the formation of the modern Chinese state from the seventeenth century to the mid twentieth centuries providing refreshing and provocative interpretations on almost every major issue regarding the rise of modern China This book explores the question of why today's China is unlike any other nation state in size and structure It inquires into the reasons behind the striking continuity in China's territorial and ethnic compositions over the past centuries and explicates the genesis and tenacity of the Chinese state as a highly centralized and unified regime that has been able to survive into the twenty first century Its analysis centres on three key variables namely geopolitical strategy fiscal constitution and identity building and it demonstrates how they worked together to shape the outcome of state transformation in modern China Enhanced by a selection of informative tables and illustrations [The Making of the Modern Chinese State 1600 1950](#) is ideal for undergraduates and graduates studying East Asian history Chinese history empires in Asia and state formation

Village China at War Dagfinn Gatu, 2008 This groundbreaking study on the forging of Chinese communism in the furnace of the anti Japanese war focuses on North China where the Chinese Communist Party first took root and later expanded to conquer China Whilst the explosive growth of the Chinese communist movement during the war years is a fact

the nature of this expansion remains disputed Here the author examines a set of interrelated issues that have so far not received comprehensive treatment with regard to the main communist base areas in North China regions where the CCP secured most of its recruits and where its policy programmes were most severely tested by Japanese military campaigns The analysis centres on how the CCP strove to combine two objectives that it perceived as crucial to building up a sustained mass resistance movement to the Japanese socio economic and political restructuring in favour of the poor and the forging of a grassroots rural united front including all social strata The author also stresses the host of severe constraints that the party's policy ambitions ran up against such as massive destruction of the local economy by the Japanese army the economic burden of running the resistance peasant ambivalence to revolutionary changes and the shortage of trained cadres Ultimately the movement spread too rapidly and too widely for the party centre to exert more than a very weak or mediated vanguard function outside scattered enclaves This in turn allowed localities an autonomous dynamic that often conflicted with higher party echelons Nevertheless the movement had a broad if highly uneven redistributive impact on power resources in the region leading to a structural fluidity that lowered the barriers to a future revolution History accelerated

Historical Perspectives on Contemporary East Asia Merle Goldman, Andrew Gordon, 2000-08-15 In these original essays distinguished scholars of modern East Asia distill from long years of research interpretive accounts of late nineteenth and twentieth century China Japan and Korea All of the contributors describe particular features of the modern experience of East Asian countries while also addressing common themes

Social and Political Change in Revolutionary China David S. G Goodman, 2023-06-14 This in depth study examines the influence of the Chinese Communist Party's effective organizing in Shanxi Province during the War of Resistance Shanxi Province was on the frontlines of the 1937 1945 War of Resistance against Japan the war that launched the Chinese Communist Party During that time the Taihang Base Area of Southwest Shanxi was one of the Party's most important strongholds David Goodman provides the first county level analysis of social and political change in the Taihang Base Area during those crucial years Goodman explores revolution as process arguing that the Party was successful because of its management of revolutionary incrementalism He examines the roles of various groups highlighting the activities of urban intellectuals teachers and peasant small holders as agents of change Based on newly available sources including recently republished materials from the Taihang Base Area restricted documentation from the Taiyuan Archive and interviews with veterans of the Taihang Base Area this meticulously researched work deepens our understanding of the social and political origins of the Chinese revolution

The Victorious Counterrevolution Michael Seidman, 2011-02-24 This groundbreaking history of the Spanish Civil War 1936 39 examines for the first time in any language how General Francisco Franco and his Nationalist forces managed state finance and economic production and mobilized support from elites and middle class Spaniards to achieve their eventual victory over Spanish Republicans and the revolutionary left The Spanish Nationalists are exceptional among counter revolutionary

movements of the twentieth century Michael Seidman demonstrates because they avoided the inflation and shortages of food and military supplies that stymied not only their Republican adversaries but also their counter revolutionary counterparts the Russian Whites and Chinese Nationalists He documents how Franco s highly repressive and tightly controlled regime produced food for troops and civilians regular pay for soldiers farmers and factory workers and protection of property rights for both large and small landowners These factors combined with the Nationalists pro Catholic and anti Jewish propaganda reinforced solidarity in the Nationalist zone Seidman concludes that unlike the victorious Spanish Nationalists the Russian and Chinese bourgeoisie were weakened by the economic and social upheaval of the two world wars and succumbed in each case to the surging revolutionary left *China Reconstructs* Cindy Yik-yi Chu,Ricardo K.S. Mak,2003-06-05 *China Reconstructs* includes ten articles that investigate the reconstruction of modern China and provide different dimensions to the vibrant and multifaceted history of the country The book discusses how prominent individuals political parties and ordinary people alike looked for ways to reconstruct China in a period of great political upheavals *The Genesis of Chinese Communist Foreign Policy* Michael H. Hunt,1996 Is the Confucian tradition compatible with the Western understanding of human rights Are there fundamental human values regardless of cultural differences common to all peoples of all nations At this critical point in Communist China s history eighteen distinguished scholars address the role of Confucianism in dealing with questions of universal human rights *China in Transformation* Colin Mackerras,2014-06-11 In the first half of the twentieth century China moved from a millennium of imperial rule to the Communist Party led People s Republic of China which remains today *China in Transformation* argues that this enormously significant period in Chinese history saw wrenching change throughout Chinese society amounting to a social cultural and political transformation This new fully revised and updated edition takes full advantage of new research and formerly unavailable material to analyse the fascinating processes of revolution reform reaction and change in China during the period Mackerras Discusses the wars occupations and uprisings that marked the period including the Boxer Rebellion and the Japanese occupation and includes a new chapter on postwar China and the Civil War Examines nation building and revolutions including the successful communist movement that has led to the rise of today s state Acknowledges the prevalence of poverty and famine in the period but also gives space to the areas in which there was progress the introduction of mass secular education improvements in the status of women and in a new chapter details significant developments in culture literature and theatre Written in an accessible style with a rich collection of Documents Chronology Glossary a Guide to Further Reading and a Who s Who summarising the careers and contributions of the main figures this new edition is essential for all those interested in understanding China s modern history **Revolutionizing the Family** Neil J. Diamant,2023-04-28 In 1950 China s new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change marital and

family relationships In this comprehensive study of the effects of that law Neil J Diamant draws on newly opened urban and rural archival sources to offer a detailed analysis of how the law was interpreted and implemented throughout the country In sharp contrast to previous studies of the Marriage Law which have argued that it had little effect in rural areas Diamant argues that the law reshaped marriage and family relationships in significant but often unintended ways throughout the Maoist period His evidence reveals a confused and often conflicted state apparatus as well as cases of Chinese men and women taking advantage of the law to justify multiple sexual encounters to marry for beauty to demand expensive gifts for engagement and to divorce on multiple occasions Moreover he finds those who were best placed to use the law s more liberal provisions were not well educated urbanites but rather illiterate peasant women who had never heard of sexual equality and it was poor men not women who were those most betrayed by the peasant based revolution This title is part of UC Press s Voices Revived program which commemorates University of California Press s mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 2000 In 1950 China s new Communist government enacted a Marriage Law to allow free choice in marriage and easier access to divorce Prohibiting arranged marriages concubinage and bigamy it was one of the most dramatic efforts ever by a state to change marriage Crimson Rain William T. Rowe,2007 This book explores the cultural and social roots of violence in China by studying the history of recurrent massive carnage in one county Macheng between the expulsion of the Mongols in the 14th century and the Japanese invasion of 1938 **The Oxford Illustrated History of World War II** R. J. Overy,2015 World War Two re assessed for a new generation from the 1930s through to the beginnings of the Cold War A stimulating and thought provoking new interpretation of one of the most terrible episodes in world history Righteous Revolutionaries Jeffrey A. Rejuvenating Communism Jérôme Doyon,2023-02-20 Working for the administration remains one of the most coveted career paths for young Chinese Rejuvenating Communism Youth Organizations and Elite Renewal in Post Mao China seeks to understand what motivates young and educated Chinese to commit to a long term career in the party state and how this question is central to the Chinese regime s ability to maintain its cohesion and survive Jérôme Doyon draws upon extensive fieldwork and statistical analysis in order to illuminate the undogmatic commitment recruitment techniques and other methods the state has taken to develop a diffuse allegiance to the party state in the post Mao era He then analyzes recruitment and political professionalization in the Communist Party s youth organizations and shows how experiences in the Chinese Communist Youth League transform recruits and feed their political commitment as they are gradually inducted into the world of officials As the first in depth study of the Communist Youth League s role in recruitment this book challenges the assumption that merit is the main criteria for advancement within the party state an argument with deep implications for

understanding Chinese politics today *Bulletin* ,1995 **Decisive Encounters** Odd Arne Westad,2003 Though the book highlights the military aspects of the war it also shows how these took place alongside profound changes in Chinese politics society and culture changes that ultimately contributed as much to the character of today s China as did the major battles By analyzing the war as an international and not simply a domestic conflict the author explains why so much of the present legitimacy of the Beijing government derives from its successes during the late 1940s and reveals how the antagonism between China and the United States so important to current international affairs was born BOOK JACKET *Historical Dictionary of Modern China (1800-1949)* James Z. Gao,2009-06-16 The Historical Dictionary of Modern China 1800 1949 offers a concise but comprehensive examination of the political military economic social and cultural development of modern China Instead of focusing merely on the political elites of China this reference covers a variety of significant persons including women and ethnic minorities new historical concepts cultural and educational institutions and economic activities Drawing on newly available records including a large mass of governmental and family archives the narratives presented reveal new facts offer a new interpretation in accordance with China s modernization process during the late Qing period and a revisionist perspective on the Republican history The chronology records not only political and military events but also other experiences of the Chinese people The bibliography gives prominence to current literature on China s drive towards modernization and appendixes provide the reader with detailed information on China s cultural and economic transformation
