Model Boats From The Tomb Of Tutankhamun:

Model Boats from the Tomb of Tut'ankhamūn Dilwyn Jones, 1990 This volume publishes the thirty five wooden model boats found in the tomb of Tutankhamun the only complete group known from the 18th Dynasty It also includes a study of eleven magical oars discovered in the Burial Chamber *The Gurob Ship-Cart Model and Its Mediterranean Context* Shelley Wachsmann, 2013-01-09 When Shelley Wachsmann began his analysis of the small ship model excavated by assistants of famed Egyptologist W M F Petrie in Gurob Egypt in 1920 he expected to produce a brief monograph that would shed light on the model and the ship type that it represented Instead Wachsmann discovered that the model held clues to the identities and cultures of the enigmatic Sea Peoples to the religious practices of ancient Egypt and Greece and to the oared ships used by the Bronze Age Mycenaean Greeks Although found in Egypt the prototype of the Gurob model was clearly an Aegean style galley of a type used by both the Mycenaeans and the Sea Peoples The model is the most detailed representation presently known of this vessel type which played a major role in changing the course of world history Contemporaneous textual evidence for Sherden one of the Sea Peoples settled in the region suggests that the model may be patterned after a galley of that culture Bearing a typical Helladic bird head decoration topping the stempost with holes along the sheer strakes confirming the use of stanchions the model was found with four wheels and other evidence for a wagon like support structure connecting it with European cultic prototypes The online resources that accompany the book illustrate Wachsmann's research and analysis They include 3D interactive models that allow readers to examine the Gurob model on their computers as if held in the hand both in its present state and in two hypothetical reconstructions The online component also contains high resolution color photos of the model maps and satellite photos of the site and other related materials Offering a wide range of insights and evidence for linkages among ancient Mediterranean peoples and traditions The Gurob Ship Cart Model and Its Mediterranean Context presents an invaluable asset for anyone interested in the complexities of cultural change in the eastern Mediterranean at the end of the Bronze Age and the beginning of the Iron Age The Gurob ship cart model is was part of an exhibition entitled Beyond the Nile Egypt and the Classical World at the J Paul Getty Center March 27 September 9 2018 Read about it here <http://blogs.getty.edu/iris/egyptian-ship-model-sheds-light-on-bronze-age-warfare-and-religion/> Digital supplement to the book featuring 3D models <http://www.vizin.org/Gurob/Gurob.html> **Tutankhamun's Tomb** Susan J. Allen, 2006 This richly illustrated book of vintage photographs commemorates one of the most memorable episodes in the history of archaeology the discovery and exploration in 1922 of the tomb of the ancient Egyptian pharaoh Tutankhamun Dynasty 18 ruled ca 1336 1327 B C These photographs documenting every stage in the process of discovery were taken by the renowned archaeological photographer Harry Burton Burton was a staff member of the Metropolitan Museum Egyptian Expedition when he was lent to Howard Carter the famed excavator of Tutankhamun's tomb From the rock cut steps leading down to the entrance passage to the opening of the sealed chambers inside to the first view of the contents of the tomb and

the removal of the objects Burton's beautiful black and white photographs show thousands of the richly made and decorated objects found in the tomb Carefully reproduced from Burton's original prints the photographs are accompanied by new descriptive text written by two prominent Egyptologists with extensive knowledge of the history of Tutankhamun and the contents of his tomb

Boats Dilwyn Jones,1995-01-01 Drawing on archaeological and literary evidence Dilwyn Jones examines the importance of the boat in Egyptian ritual and belief as well as in everyday life The sun god was thought to travel across the sky in a solar boat and Egyptians believed that the deserving might join the god Osiris in his divine bark after death Boats played an important part in funerary ritual models were often placed in tombs to provide the deceased with safe passage through the Winding Waterway in the underworld Also boats are frequently depicted in tomb paintings The Nile has always been a vital transport artery for Egypt and boats the principal means of travel Early papyrus skiffs gradually gave way to wooden craft of increasing size and sophistication ranging from fishing boats and barges to seagoing warships splendid ships of state and enormous obelisk barges used to transport stone to temples and monuments Dilwyn Jones traces the development of the different types of boats and the techniques of their construction through the Old Middle and New Kingdom periods The book is illustrated with photographs of boat models and paintings and with line drawings

Tutankhamun and Carter Rogerio Sousa, Gabriele Pieke, Tine Bagh, 2024-08-15 First scholarly multi disciplinary re assessment of Howard Carter s discovery and excavation of Tutenkhamun s tomb and the impact of the find on our understanding of the material culture of Ancient Egypt The discovery of the tomb of Tutankhamun in 1922 stands out as one of the most important finds of modern archaeology revealing an enormous wealth of objects encapsulating techniques vestiges of uses and re uses of materials as well as unrivalled clues regarding the complex set of beliefs associated with the pharaonic funerary material culture Once cleared from the tomb these objects have captivated the world with their irresistible charm and beauty ending up playing a role in contemporary popular culture However it seems that such magnetism rather hindered than facilitated the scholarly study of the find One hundred years after the discovery of this magnificent tomb most of its objects remain insufficiently studied to this day This volume aims to show how it remains challenging to study Tutankhamun s objects gathering a collection of studies authored by leading scholars on conservation materials funerary beliefs as well as the reception of motifs and the impact of the discovery Through these studies it becomes clear how ancient objects can help us reconstruct the complex fabric of the ancient Egyptian society and how they keep interacting with modern audiences

The Tomb of Tutankhamun Vol. I Howard Carter, 2014-11-20 Let me try and tell the story of it all It will not be easy for the dramatic suddenness of the initial discovery left me in a dazed condition and the months that have followed have been so crowded with incident that I have hardly had time to think Among the hundreds of books written about ancient Egypt and Tutankhamen you won t find an equal to Howard Carter s powerful book about his discovery His great work in many ways remained unfinished He left us however

this remarkable document of discovery The book is Carter s personal story of the greatest adventure of his life one that has not been surpassed in nearly a century of archaeology In 1904 retired American lawyer Theodore Davis famously declared that The Valley of the Kings in Thebes had given up all of its secrets leaving nothing more to be discovered He relinquished his exclusive rights to dig in The Valley But as Howard Carter states in this volume The history of The Valley has never lacked the dramatic element Some 18 years later Carter made the richest archaeological discovery in history within yards of where Davis had dug The world immediately became obsessed with everything Tutankhamen From architecture to household goods to fashion a early 20th century surge in fascination with ancient Egypt took hold across the globe Howard Carter too had been obsessed with finding Tut The discovery would consume the rest of Carter s life After becoming known to the world Howard Carter died in relative obscurity in 1939 This is not a dry scientific treatment of the excavation or the artifacts What he imparts with this book is a sense of excitement wonder and mystery set expertly into a concise context of history and Egyptology captivating layperson and specialist alike young or old Intertwining notes on Egyptian gods religion mythology and magic Carter spins an alluring real life tale setting the context for Egyptian history and Tutankamun For the first time this amazing work is available for Kindle With a new Introduction and updated footnotes you ll have more context to follow this book than Carter s original readers did Much information that was yet to be understood or discovered in 1922 is included in the Introduction Care has been taken to create a well formatted book for Kindle It includes images from the original publication You can even take it with you on your smartphone if you have the Kindle app installed and then refer to it while visiting the Tutankhamun exhibit in one of the cities it visits in North America Remember to LOOK INSIDE by clicking the cover image in the upper left of this page Buy this book today and you ll read it again and again [Boats of the World](#)
