Negotiations 1972 199:

Detroit Motion Picture Projectionists Union, Local 199, IATSE, AFL-CIO v. Employment Relations Commission, 403 MICH 491 (1978) ,1978 58394 Presidential Debate Negotiation from 1960 to 1988 John W. Self,2016-12-20 Since their inception the presidential debates Americans have watched on television were carefully negotiated This book closely examines a previously unexamined type of political communication presidential debate negotiation While it has been widely known that all general election presidential debates since 1960 have been negotiated by the participating candidates no one has ever completed a systematic study of them In particular the 1960 1976 1980 1984 and 1988 negotiations were examined in detail For each of these election cycles a comprehensive narrative of what occurred during the pre debate negotiations was constructed based on primary source materials media accounts and other secondary sources Comparisons across election cycles were made in order to draw some conclusions about presidential debate negotiation Presidential debate negotiations are not just negotiations but rather also a form of political rhetoric for several different players The research concluded that that there are five contexts in which presidential debate rhetoric occurs and the rhetoric is aimed at two audiences Within each context the functions and strategies of the rhetoric were discussed and explained from the perspective of the sponsor of the debate s the candidates and their representatives as well as the media

Articulating Dinosaurs Brian Noble,2016-01-01 In this remarkable interdisciplinary study anthropologist Brian Noble traces how dinosaurs and their natural worlds are articulated into being by the action of specimens and humans together Following the complex exchanges of palaeontologists museums specialists film and media makers science fiction writers and their diverse publics he witnesses how fossil remains are taken from their partial state and re composed into astonishingly precise animated presences within the modern world with profound political consequences Articulating Dinosaurs examines the resurrecting of two of the most iconic and gendered of dinosaurs First Noble traces the emergence of Tyrannosaurus rex the king of the tyrant lizards in the early twentieth century scientific literary and filmic cross currents associated with the American Museum of Natural History under the direction of palaeontologist and eugenicist Henry Fairfield Osborn Then he offers his detailed ethnographic study of the multi media model making curatorial and laboratory preparation work behind the Royal Ontario Museum s ground breaking 1990s exhibit of Maiasaura the good mother lizard Setting the exhibits at the AMNH and the ROM against each other Noble is able to place the political natures of T rex and Maiasaura into high relief and to raise vital questions about how our choices make a difference in what comes to count as nature An original and illuminating study of science culture and museums Articulating Dinosaurs is a remarkable look at not just how we visualize the prehistoric past but how we make it palpable in our everyday lives **Public Papers of the Presidents of the United States** United States. The Official History of Britain and the Channel Tunnel Terry Gourvish,2006-09-27 Commissioned by the Cabinet

Office and using hitherto untapped British Government records this book presents an in depth analysis of the successful project of 1986 94 This is a vivid portrayal of the complexities of quadripartite decision making two countries plus the public and private sectors revealing new insights into the role of the British and French Governments in the process This important book written by Britain s leading transport historian will be essential reading for all those interested in PPPs British and European economic history and international relations The building of the Channel Tunnel has been one of Europe s major projects and a testimony to British French and public private sector collaboration However Eurotunnel s current financial crisis provides a sobering backcloth for an examination of the British Government s long term flirtation with the project and in particular the earlier Tunnel project in the 1960s and early 1970s which was abandoned by the British Government in 1975

The Era Was Lost Glenn Dyer, 2024-10-29 An exciting yet relatively unknown episode in American labor history took place in New York City between 1965 and 1975 Rank and file members of numerous unions caught a strike fever as they challenged the entrenched power of some of the country s most powerful politicians employers and union leaders in a wave of contract rejections wildcat strikes and electoral campaigns Workers in unions across New York wanted more than better contracts they contested control of the work process racism on the job and workers place in America s socioeconomic hierarchy while implicitly and explicitly demanding greater democratic control of their representative organizations Some initial challenges were effective and succeeded in delivering better contracts and unseating undemocratic leaders However those early successes were short lived Glenn Dyer traces the way workers were met with employer recalcitrance and union attacks that proved too powerful to organize against In the face of this resistance workers retreated into a survivalist attitude of accommodation and resignation contributing to the decline of social democratic New York and working class power in the city Ultimately Dyer argues the failures of the rank and file organizing efforts in New York City which was the biggest center of organized labor in the country shows how stunted workers aspirations and numerous defeats not only uprooted the foundations of New York s uniquely social democratic polity but also ushered in a national era of increased working class subservience that has resonance today

The Making of Détente Wilfried Loth, George Soutou, 2010-04-05 Containing essays by leading Cold War scholars such as Wilfried Loth Geir Lundestad and Seppo Hentil this volume offers a broad ranging examination of the history of détente in the Cold War The ten years from 1965 to 1975 marked a deep transformation of the bipolar international system of the Cold War The Vietnam War and the Prague Spring showed the limits of the two superpowers who were constrained to embark on a wide ranging détente policy which culminated with the SALT agreements of 1972 At the same time this very détente opened new venues for the European countries French policy towards the USSR and the German Ostpolitik being the most evident cases in point For the first time since the 1950s Western Europe began to participate in the

shaping of the Cold War The same could not be said of Eastern Europe but ferment began to establish themselves there which would ultimately lead to the astounding changes of 1989 90 the Prague Spring the uprisings in Gdansk in 1970 and generally the rise of the dissident movement That last process being directly linked to the far reaching event which marked the end of that momentous decade the Helsinki conference The Making of D tente will appeal to students of the Cold War international history and European contemporary history The SALT Experience Thomas W. The Catholic Church and the Northern Ireland Troubles, 1968-1998 Margaret M. Scull, 2019 Until surprisingly recently the history of the Irish Catholic Church during the Northern Irish Troubles was written by Irish priests and bishops and was commemorative rather than analytical This study uses the Troubles as a case study to evaluate the role of the Catholic Church in mediating conflict During the Troubles these priests and bishops often worked behind the scenes acting as go betweens for the British government and republican paramilitaries to bring about a peaceful solution However this study also looks more broadly at the actions of the American Irish and English Catholic Churches as well as that of the

Vatican to uncover the full impact of the Church on the conflict This critical analysis of previously neglected state Irish and English Catholic Church archival material changes our perspective on the role of a religious institution in a modern conflict

The Great Deception Christopher Booker, Richard North, 2005-01-01 The Great Deception shows how the most ambitious political project of our time has for more than 50 years been based on a colossal confidence trick the systematic concealment from the people of Europe of what the aim of this project has always been since its inception in the late 1940s Updated to include the recent developments in Europe including the referendum and the upcoming votes in France and Holland As it reveals for the first time the true story behind the long term plan to build a politically united Europe the authors show how all previous attempts to reconstruct the history of this project whether written by Europhiles or Eurosceptics have got it wrong at almost every step along the way With all the suspense of a detective story drawing on thousands of books papers and official documents many of which have only become publicly available in the past few years the book traces how a handful of determined visionaries set out more than half a century ago to weld the countries of Europe into a single political state
