Marxism Against Postmodernism in Educational Theory Mike Cole,Dave Hill,Peter McLaren,2002-12-11

Postmodernism has become the orthodoxy in educational theory It heralds the end of grand theories like Marxism and liberalism scorning any notion of a united feminist challenge to patriarchy of united anti racist struggle and of united working class movements against capitalist exploitation and oppression For postmodernists the world is fragmented history is ended and all struggles are local and particularistic Written by internationally renowned British and American educational theorists Marxism Against Postmodernism in Educational Theory a substantially revised edition of the original 1999 work Postmodernism in Educational Theory critically examines the infusion of postmodernism and theories of postmodernity into educational theory policy and research The writers argue that postmodernism provides neither a viable educational politics nor the foundation for effective radical educational practice and offer an alternative politics of human resistance which puts the challenge to capitalism firmly on the agenda of educational theory politics and practice
