The Alienated Subject James A. Tyner, 2022-03-08 A timely and provocative discussion of alienation as an intersectional category of life under racial capitalism and white supremacy From the divisiveness of the Trump era to the Covid 19 pandemic alienation has become an all too familiar contemporary concept In this groundbreaking book James A Tyner offers a novel framework for understanding the alienated subject situating it within racial capitalism and white supremacy Directly addressing current economic trends and their rhetoric of xenophobia discrimination and violence The Alienated Subject exposes the universal whitewashing of alienation Drawing insight from a variety of sources including Marxism feminism existentialism and critical race theory Tyner develops a critique of both the liberal subject and the alienated subject Through an engagement with the recent pandemic and the Black Lives Matter movement he demonstrates how the alienated subject is capable of both compassion and cruelty it is a sadomasochist Tyner goes on to emphasize the importance of the particular places we find the alienated subject and how the revolutionary transformation of alienation is inherently a spatial struggle Returning to key interlocutors from Sartre to Fromm he examines political notions of distance and the spatial practices of everyday life as well as the capitalist conditions that give rise to the alienated subject For Tyner the alienated subject is not the iconic romanticized image of Marx s proletariat Here he calls for

an affirmation of love as a revolutionary concept necessary for the transformation of a society marred by capitalism into an emancipated caring society conditioned by socially just relations Elgar Introduction to Theories of Human Resources and Employment Relations Keith Townsend, Kenneth Cafferkey, Aoife M. McDermott, Tony Dundon, This Elgar Introduction provides an overview of some of the key theories that inform human resource management and employment relations as a field of study *The Routledge International Handbook of Human Aggression* Jane Ireland, Philip Birch, Carol Ireland, 2018-01-03 Drawing upon international expertise and including some of the most well known academics and practitioners in the field The Routledge International Handbook of Human Aggression is the first reference work to fully capture how our understanding of aggression has been refined and reconceptualised in recent years Divided into five sections the handbook covers some of the most interesting and timely topics within human aggression research with analysis of both indirect and direct forms of aggression and including chapters on sexual aggression workplace bullying animal abuse gang violence and female aggression It recognises that in many cases aggression is an adaptive choice rather than a moral choice Providing practitioners and academics with an up to date resource that covers broad areas of interest and application the book will be essential reading for students researchers and practitioners associated with a range of social science disciplines including psychology criminology social work and sociology particularly those with an interest in developmental organisational forensic and criminal justice allied disciplines **Introducing Medical Anthropology** Merrill Singer, Hans Baer, Debbi Long, Alex Pavlotski, 2019-03-20 The third edition of *Introducing Medical Anthropology A Discipline in Action* provides students with a first exposure to the growing field of medical and health anthropology The narrative is guided by unifying themes First health oriented anthropologists are very involved in the process of helping to varying degrees to change the world around them through their work in applied projects policy initiatives and advocacy Second the authors present the fundamental importance of culture and social relationships in health and illness by demonstrating that illness and disease involve complex biosocial processes and that resolving them requires attention to a range of factors beyond biology Third through an examination of the issue of health inequality this book underlines the need for an analysis that moves beyond cultural or even ecological models of health toward a comprehensive biosocial approach Such an approach integrates biological cultural and social factors in building unified theoretical understandings of the origin of ill health while contributing to the building of effective and equitable national health care systems NEW TO THIS EDITION All chapters have been updated or expanded NEW Chapter 8 The Biopolitics of Life Biotechnology Biocapital and Bioethics Revised text style for crisper language and livelier phrasing Added a brief signposting of chapter content at the beginning of each chapter and review questions about the key issues and concepts at the end of each chapter Expanded discussion of Zika Ebola gender and health PTSD and psychological anthropology geriatric health the contemporary vaccine controversy the internet and health and the health impacts of fracking and nuclear energy development Concluding chapter examines anthropologically informed
