The (Almost) Complete Hitchhiker in Time Shawn M. Tomlinson,2015-11-07 The Hitchhiker in Time columns

were the single most popular things ever written by Shawn M Tomlinson which honestly doesn't say all that much. All together they appeared in fewer than 10 newspapers between 1988 and 2001. Well, multiple copies of those newspapers of course. The highest circulation was approximately 40,000, so not exactly Bob Greene levels. Still, Tomlinson had a following with these columns and to a great extent they hold up well today. Either that or Tomlinson would like to think so. Many of these columns appeared in chapbooks over the years, but this is the first full collection of them to be in print.

Radioland Murders (1994) - DVD., Star Wars FAQ Mark Clark, 2015-08-01 FAQ From the books and movies that inspired George Lucas to imagine the Star Wars universe to early screenplay drafts that were never filmed to short biographies of many people who made key contributions to the movies success, Star Wars FAQ explores every aspect of the original Star Wars trilogy: Star Wars, The Empire Strikes Back, and Return of the Jedi. Along the way it unearths underreported stories and illuminating minutiae often skimmed over or completely ignored in other histories of the legendary film series. Highlights include details about the Star Wars Holiday Special debacle, the Ewok TV movies, the rise of Star Wars fiction and its importance in the revival of the franchise and the wave of Star Wars imitators and parodies that flooded theaters and TV screens in the late 1970s and early 1980s along with dozens of rare publicity stills and photographs of vintage memorabilia. Offering an original analysis of the series' enduring appeal and cultural impact, Star Wars FAQ tells a story as thrilling and action packed as the movies themselves, with bold characters facing apparently insurmountable odds, full of frantic chases, narrow escapes, daring victories, and tragic setbacks culminating in an unlikely triumph that changed the course of the galaxy or at least of Hollywood.

More Than Meets the Eye Bob Rehak, 2018-03-13 A rare look at the role of special effects in creating fictional worlds and transmedia franchises. From comic book universes crowded with

soaring superheroes and shattering skyscrapers to cosmic empires set in far off galaxies today's fantasy blockbusters depend on visual effects Bringing science fiction from the studio to your screen through film television or video games these special effects power our entertainment industry *More Than Meets the Eye* delves into the world of fantastic media franchises to trace the ways in which special effects over the last 50 years have become central not just to transmedia storytelling but to worldbuilding performance and genre in contemporary blockbuster entertainment *More Than Meets the Eye* maps the ways in which special effects build consistent storyworlds and transform genres while traveling from one media platform to the next Examining high profile franchises in which special effects have played a constitutive role such as *Star Trek* *Star Wars* *The Matrix* and *The Lord of the Rings* as well as more contemporary franchises like *Pirates of the Caribbean* and *Harry Potter* Bob Rehak analyzes the ways in which production practices developed alongside the cultural work of industry professionals By studying social and cultural factors such as fan interaction this book provides a context for understanding just how much multiplatform storytelling has come to define these megahit franchises *More Than Meets the Eye* explores the larger history of how physical and optical effects in postwar Hollywood laid the foundation for modern transmedia franchises and argues that special effects are not simply an adjunct to blockbuster filmmaking but central agents of an entire mode of production
