**Firefighting & the American Revolution: Saving Colonial Gotham from Incineration** Bruce Twickler, 2022

Revolutionary era Manhattan was a chaotic scene of Loyalists British occupation troops Patriot spies and thousands of people seeking to live ordinary lives during extraordinary times In the 1730s the colonial legislature of New York officially created a fire department establishing the origins of today's FDNY As Washington withdrew from the city and the British rushed in firefighters were forced to choose between joining the cause for independence or helping to protect British interests Just days later a fire broke out on September 21 1776 By daybreak it had consumed five hundred buildings and was the most destructive fire in colonial North America While the British claimed it was set by American revolutionary vandals controversy surrounding the fire remains today Author Bruce Twickler uncovers the history of New York firefighting as a new nation was forged **Fish into Wine** Peter E. Pope, 2012-12-01

Combining innovative archaeological analysis with historical research Peter E. Pope examines the way of life that developed in seventeenth century Newfoundland where settlement was sustained by seasonal migration to North America's oldest industry the cod fishery The unregulated English settlements that grew up around the exchange of fish for wine served the fishery by catering to nascent consumer demand The English Shore became a hub of transatlantic trade linking Newfoundland with the Chesapeake New and old England southern Europe and the Atlantic islands Pope gives special attention to Ferryland the proprietary colony founded by Sir George Calvert Lord Baltimore in 1621 but later taken over by the London merchant Sir David Kirke and his remarkable family The saga of the Kirkes provides a narrative line connecting social and economic developments on the English Shore with metropolitan merchants proprietary rivalries and international competition Employing a rich variety of evidence to place the fisheries in the context of transatlantic commerce Pope makes Newfoundland a fresh point of view for understanding the demographic economic and cultural history of the expanding North Atlantic world [The Routledge Handbook of American Military and Diplomatic History](#) Christos G. Frentzos, Antonio S. **Forty-niners 'round the Horn** Charles R. Schultz, 1999 Drawing upon more than one hundred unpublished diaries Schultz profiles the individuals who embarked on these journeys and demonstrates how

markedly the gold rush voyages differed from general commercial trading and whaling ventures **BOOK JACKET** In Search of Empire James Pritchard,2004-01-22 Elusive Empire is the first full account of how during 1670 and 1730 French settlers came to the Americas It examines how they and thousands of African slaves together with Amerindians constructed settlements and produced and traded commodities for export Bringing together much new evidence the author explores how the newly constructed societies and new economies without precedent in France interacted with the growing international violence in the Atlantic world in order to present a fresh perspective of the multifarious French colonizing experience in the Americas New York at War Steven H Jaffe,2012-04-10 Stretching from the colonial era to 9 11 and beyond New York at War is that most rare of books a work of history that is at once local and international timely and timeless Bringing a unique lens to bear on the world s most celebrated and contested city Jaffe reveals the unimaginable ways the city has changed and how it has stubbornly endured under threats both external and internal **The Dutch Moment** Wim Klooster,2016-10-19 The author draws on a dazzling variety of archival and printed sources The Dutch Moment is a signal contribution to the field Renaissance Quarterly In The Dutch Moment Wim Klooster shows how the Dutch built and eventually lost an Atlantic empire that stretched from the homeland in the United Provinces to the Hudson River and from Brazil and the Caribbean to the African Gold Coast The fleets and armies that fought for the Dutch in the decades long war against Spain included numerous foreigners largely drawn from countries in northwestern Europe Likewise many settlers of Dutch colonies were born in other parts of Europe or the New World The Dutch would not have been able to achieve military victories without the native alliances they carefully cultivated Indeed the Dutch Atlantic was quintessentially interimperial multinational and multiracial At the same time it was an empire entirely designed to benefit the United Provinces The pivotal colony in the Dutch Atlantic was Brazil half of which was conquered by the Dutch West India Company Its brief lifespan notwithstanding Dutch Brazil 1630 1654 had a lasting impact on the Atlantic world The scope of Dutch warfare in Brazil is hard to overestimate this was the largest interimperial conflict of the seventeenth century Atlantic Brazil launched the Dutch into the transatlantic slave trade a business they soon dominated At the same time Dutch Brazil paved the way for a Jewish life in freedom in the Americas after the first American synagogues opened their doors in Recife In the end the entire colony eventually reverted to Portuguese rule in part because Dutch soldiers plagued by perennial poverty famine and misery refused to take up arms As they did elsewhere the Dutch lost a crucial colony because of the empire s systematic neglect of the very soldiers on whom its defenses rested After the loss of Brazil and ten years later New Netherland the Dutch scaled back their political ambitions in the Atlantic world Their American colonies barely survived wars with England and France As the imperial dimension waned the interimperial dimension gained strength Dutch commerce with residents of foreign empires thrived in a process of constant adaptation to foreign settlers needs and mercantilist obstacles Plain Paths and Dividing Lines Jessica Lauren Taylor,2023-08-11 It is one thing to draw a line in the sand but another to enforce it In this innovative new work Jessica

Lauren Taylor follows the Native peoples and the newcomers who built and crossed emerging boundaries surrounding Indigenous towns and developing English plantations in the seventeenth century Chesapeake Bay. In a riverine landscape defined by connection, Algonquians had cultivated ties to one another and into the continent for centuries. As Taylor finds, their networks continued to define the watery Chesapeake landscape even as Virginia and Maryland's planters erected fences and forts, policed unfree laborers, and dispatched land surveyors. By chronicling English and Algonquian attempts to move along paths and rivers and to enforce boundaries, Taylor casts a new light on pivotal moments in Anglo-Indigenous relations from the growth of the fur trade to Bacon's Rebellion. Most important, Taylor traces the ways in which the peoples resisting colonial encroachment and subjugation used Native networks and Indigenous knowledge of the Bay to cross newly created English boundaries. She thereby illuminates alternate visions of power, freedom, and connection in the colonial Chesapeake.

**Studies of Skin Color in the Early Royal Society** Cristina Malcolmson, 2016-04-01 Arguing that the early Royal Society moved science toward racialization by giving skin color a new prominence as an object of experiment and observation, Cristina Malcolmson provides the first book-length examination of studies of skin color in the Society. She also brings new light to the relationship between early modern literature, science, and the establishment of scientific racism in the nineteenth century. Malcolmson demonstrates how unstable the idea of race remained in England at the end of the seventeenth century and yet how extensively the intertwined institutions of government, colonialism, the slave trade, and science were collaborating to usher it into public view. Malcolmson places the genre of the voyage to the moon in the context of early modern discourses about human difference and argues that Cavendish's *Blazing World* and Swift's *Gulliver's Travels* satirize the Society's emphasis on skin color.

**Sir William Berkeley and the Forging of Colonial Virginia** Warren M. Billings, 2010-03-01 Sir William Berkeley (1605-1677) influenced colonial Virginia more than any other man of his era, diversifying Virginia's trade with international markets, serving as a model for the planter aristocracy, and helping to establish American self-rule. An Oxford-educated playwright, soldier, and diplomat, Berkeley won appointment as governor of Virginia in 1641 after a decade in the court of King Charles I. Between his arrival in Jamestown and his death, Berkeley became Virginia's leading politician and planter, indelibly stamping his ambitions, accomplishments, and ultimately his failures upon the colony. In this masterly biography, Warren M. Billings offers the first full-scale treatment of Berkeley's life, revealing the extent to which Berkeley shaped early Virginia and linking his career to the wider context of seventeenth-century Anglo-American history.
