**Railway Travel in Modern Theatre** Kyle Gillette, 2014-05-22 Railway travel has had a significant influence on modern theatre s sense of space and time Early in the 20th century breakthroughs ranging from F T Marinetti s futurist manifestos to epic theatre s use of the treadmill explored the mechanical rhythms and perceptual effects of railway travel to investigate history technology and motion After World War II some playwrights and auteur directors from Armand Gatti to Robert Wilson to Amiri Baraka looked to locomotion not as a radically new space and time but as a reminder of obsolescence complicity in the Holocaust and its role in uprooting people from their communities By analyzing theatrical representations of railway travel this book argues that modern theatre s perceptual historical and social productions of space and time were stretched by theatre s attempts to stage the locomotive

**Food on the Rails** Jeri Quinzio, 2014-10-10 In roughly one hundred years from the 1870s to the 1970s dining on trains began soared to great heights and then fell to earth The founders of the first railroad companies cared more about hauling freight than feeding passengers The only food available on trains in the mid nineteenth century was whatever passengers brought aboard in their lunch baskets or managed to pick up at a brief station stop It was hardly fine dining Seeing the business possibilities in offering long distance passengers comforts such as beds toilets and meals George Pullman and other pioneering railroaders like Georges Nagelmackers of Orient Express fame

transformed rail travel Fine dining and wines became the norm for elite railroad travelers by the turn of the twentieth century The foods served on railroads from consomme to turbot to soufflé always accompanied by champagne equaled that of the finest restaurants hotels and steamships After World War II as airline travel and automobiles became the preferred modes of travel elegance gave way to economy Canned and frozen foods self service and quick meals and snacks became the norm By the 1970s the golden era of railroad dining had come grinding to a halt Food on the Rails traces the rise and fall of food on the rails from its rocky start to its glory days to its sad demise Looking at the foods the service the rail station restaurants the menus they dining accommodations and more Jeri Quinzio brings to life the history of cuisine and dining in railroad cars from the early days through today Dwell ,2005-09 At Dwell we re staging a minor revolution We think that it is possible to live in a house or apartment by a bold modern architect to own furniture and products that are exceptionally well designed and still be a regular human being We think that good design is an integral part of real life And that real life has been conspicuous by its absence in most design and architecture magazines **Dwell** ,2005 *Spectacle Culture and American Identity 1815-1940* S. Tenneriello,2013-12-18 Scenic spectacles collapse the borders of graphic and visual arts multimedia technology spectatorship and architecture Drawing upon various systems of commercial institutional and public spectacle that intersect with scenic stages of the national landscape Tenneriello examines how spectacle is entrenched in the formation of national identity *Stages of Locomotion* Kyle Gillette,2007 **Organizational Identity in Practice** Lin Lerpold,Davide Ravasi,Johan van Rekom,Guillaume Soenen,2012-11-12 Organizational Identity in Practice provides much needed in depth studies on what happens when aspirations claims and beliefs interact Given the practical needs of managers and students this exciting new text provides readers with more insight into what differences in these identity aspirations claims and beliefs really mean and what we may expect to occur when these differences become visible and what the outcomes of these processes are likely to be The diverse case studies illustrate how well known firms have dealt with the broad issues of who we are as an organization and what makes us similar or distinct from others and cover a broad range of industries firms and organizational forms The cases from companies such as Air France AT T Bang Olufsen BP Statoil Starbucks Scania and Alfa Romeo are focused on the broad topics of organizational identity strategy and the environment multiple and conflicting identities the construction of identities and how organizations express and project their identities The authors give scholars students and managers valuable ideas on how to deal with organizational identity challenges within firms **Materialising Identity** Judith Schueler,2008 Since 1882 the Gotthard Railway with its fifteen kilometerlong tunnel under the Gotthard Mountains has provided a crucialinternational link through the Swiss Alps between North WesternEurope and Italy Its symbolic meaning has never sunk into oblivion In Swiss society today references to the railway evoke images of atechnological railway project with allusions to Swiss history alpinenature and national identity Reading this book helps us understandcontemporary discussions about the future of the Gotthard Railway the region in which it lies and
