Living in the Borderland Jerome S. Bernstein, 2006-02-01 Living in the Borderland addresses the evolution of Western consciousness and describes the emergence of the Borderland a spectrum of reality that is beyond the rational yet is palpable to an increasing number of individuals Building on Jungian theory Jerome Bernstein argues that a greater openness to transrational reality experienced by Borderland personalities allows new possibilities for understanding and healing confounding clinical and developmental enigmas There are many people whose experiences of reality is outside the mainstream of Western culture often they see themselves as abnormal because they have no articulated frame of reference for their experience The concept of the Borderland personality explains much of their experience In three sections this book examines the psychological and clinical implications of the evolution of consciousness and looks at how the new Borderland consciousness bridges the mind body divide Subjects covered include Genesis Evolution of the Western Ego Transrational Data in a Western Clinical Context Synchronicity Trauma and Borderland Transcendence Environmental Illness Complex Integration of Navajo and Western healing approaches for Borderland Personalities Living in the Borderland challenges the standard clinical model which views normality as an absence of pathology and which equates normality with the rational Jerome S Bernstein describes how psychotherapy itself often contributes to the alienation of Borderland personalities by misperceiving the difference between the pathological and the sacred The case studies included illustrate the potential this has for causing serious psychic and emotional damage to the patient This challenge to the orthodoxies and complacencies of Western medicine s concept of pathology will interest Jungian Analysts Psychotherapists Psychiatrists and other physicians as well as educators of children Jerome S Bernstein is a Jungian Analyst in private practice in Santa Fe New Mexico
