An Ambush of Years J.A. Enfield, 2024-10-15 Mick Conway is tired of mourning his mom and wondering when his dad will finally come home He's tired of moving to live with yet another aunt or uncle and having to change schools and friends each time he moves And as much as he loves his baby sister Emilia he might be a little less tired if somebody else would take a turn getting her back to sleep at night He isn't tired of electricity functional sewer systems or a world with some respect for the laws of physics But he doesn't realize how much he cherishes those things until he's mysteriously dropped somewhere that doesn't have any of them though it does have time travel faceless interlopers skulking in the shadows and somebody with a sinister plan that could prove deadly Can Mick help thwart that plan And can he do so without giving up on getting back home

Hex and the City Simon R. Green, 2005-02-22 John Taylor is the name I work the Nightside Only in that dark heart of London where it's always three A.M. where human and inhuman can feed their darkest desires do I feel at home Probably because I was born there What I do is find things people objects and in this case the truth about the origins of the Nightside That's what Lady Luck has hired me

to investigate But the more I dig the more I discover not about the Nightside but about the great question in my life exactly who and what was my long vanished mother Paying jobs are one thing Personal quests are another And I ve been warned that uncovering the facts about dear old mum could be a very bad thing not just for the Nightside but for all of existence Still I can t stop I m John Taylor Finding things is who I am It s what I do Whatever the consequences **Fixation and**

Regression in the Rat Robert Watson Kleemeier,1942 Cognitive Aspects of Stimulus Control W. K. Honig,J. Gregor Fetterman,Werner K. Honig,2018-10-24 The study of discrimination and generalization in animals traditionally involves stimuli that are simple uniform and restricted in time or space In recent years the area of stimulus control has been expanded with the use of stimuli that are complex extended in time or space and incorporate or represent natural objects events or locations The contributors to this unique volume have emphasized controlling functions of complex stimulus events such as location or duration and their relation to cognitive processes in animals The chapters cover a wide array of topics including spatial cognition categorization pattern perception numerosity discriminations imagery and spatial tracking thereby addressing the question of how complex events are perceived processed and organized This volume goes beyond other recent books on animal cognition in that it specifically places some well known phenomena within the context of stimulus control **The Journal of Comparative Psychology** ,1924 **Psychobiology** Knight Dunlap,1920 *The*

Children's Book A. S. Byatt,2009-11-03 From the renowned author of *Possession* *The Children s Book* is the absorbing story of the close of what has been called the Edwardian summer the deceptively languid blissful period that ended with the cataclysmic destruction of World War I In this compelling novel A S Byatt summons up a whole era revealing that beneath its golden surface lay tensions that would explode into war revolution and unbelievable change for the generation that came of age before 1914 and most of all for their children The novel centres around Olive Wellwood a fairy tale writer and her circle which includes the brilliant erratic craftsman Benedict Fludd and his apprentice Phillip Warren a runaway from the poverty of the Potteries Prosper Cain the soldier who directs what will become the Victoria and Albert Museum Olive s brother in law Basil Wellwood an officer of the Bank of England and many others from every layer of society A S Byatt traces their lives in intimate detail and moves between generations following the children who must choose whether to follow the roles expected of them or stand up to their parents porcelain socialism Olive s daughter Dorothy wishes to become a doctor while her other daughter Hedda wants to fight for votes for women Her son Tom sent to an upper class school wants nothing more than to spend time in the woods tracking birds and foxes Her nephew Charles becomes embroiled with German influenced revolutionaries Their portraits connect the political issues at the heart of nascent feminism and socialism with grave personal dilemmas interlacing until *The Children s Book* becomes a perfect depiction of an entire world Olive is a fairy tale writer in the era of Peter Pan and Kenneth Grahame s *The Wind In the Willows* not long after Alice s *Adventures in Wonderland* At a time when children in England suffered deprivation by the millions the concept of childhood was being refined and

elaborated in ways that still influence us today For each of her children Olive writes a special private book bound in a different colour and placed on a shelf when these same children are ferried off into the unremitting destruction of the Great War the reader is left to wonder who the real children in this novel are The Children s Book is an astonishing novel It is an historical feat that brings to life an era that helped shape our own as well as a gripping personal novel about parents and children life s most painful struggles and its richest pleasures No other writer could have imagined it or created it **Avatar** Paul Bryers,2011-11-03 Jade is the avatar Snatched from her home family and friends she is imprisoned in the remote Castle of Demons and forced to become the reluctant heroine of a computer game Entrapped in a world of virtual reality she engages in a deadly battle with killer rats and dogs and the even more deadly humans that she encounters in her travels through cyberspace But what is real and what is imagined Who is the mysterious Doctor Kobal enlightened man of science or dangerous criminal Who is the sinister warrior monk who pursues her from fantasy into reality And what happens when you can no longer separate the two In Avatar Book 2 of the Mysteries of the Septagram Jade explores a parallel world in a bid to find her lost family and even more importantly to find herself **A Study of the Discriminatory Ability of Albino Rats by Means of a Triple-unit Inclined Plane Discrimination Apparatus ...** Theodore Cedric Ruch,1928 *The Cambridge Companion to The Waste Land* Gabrielle McIntire,2015-09-03 This Companion offers fresh critical perspectives on T S Eliot s The Waste Land that will be invaluable to scholars students and general readers Rats' Alley William Garner,1984-01-01
