Literature, Modernism, and Dance Susan Jones, 2013-08-01 This book explores the complex relationship between literature and dance in the era of modernism During this period an unprecedented dialogue between the two art forms took place based on a common aesthetics initiated by contemporary discussions of the body and gender language formal experimentation primitivism anthropology and modern technologies such as photography film and mechanisation The book traces the origins of this relationship to the philosophical antecedents of modernism in the nineteenth century and examines experimentation in both art forms The book investigates dance s impact on the modernists critique of language and shows the importance to writers of choreographic innovations by dancers of the fin de si cle of the Ballets Russes and of European and American experimentalists in non balletic forms of modern dance A reciprocal

relationship occurs with choreographic use of literary text Dance and literature meet at this time at the site of formal experiments in narrative drama and poetics and their relationship contributes to common aesthetic modes such as symbolism primitivism expressionism and constructivism Focussing on the first half of the twentieth century the book locates these transactions in a transatlantic field giving weight to both European and American contexts and illustrating the importance of dance as a conduit of modernist preoccupations in Europe and the US through patterns of influence and exchange Chapters explore the close interrelationships of writers and choreographers of this period including Mallarm Nietzsche Yeats Conrad Woolf Lawrence Pound Eliot and Beckett Fuller Duncan Fokine Nijinsky Massine Nijinska Balanchine Tudor Laban Wigman Graham and Humphrey and recover radical experiments by neglected writers and choreographers from David Garnett and Esther Forbes to Andr e Howard and Oskar Schlemmer Ancestor Worship and the Elite in Late Iron Age Scandinavia

Triin Laidoner,2020-01-14 Ancestor worship is often assumed by contemporary European audiences to be an outdated and primitive tradition with little relevance to our societies past and present This book questions that assumption and seeks to determine whether ancestor ideology was an integral part of religion in Viking Age and early medieval Scandinavia The concept is examined from a broad socio anthropological perspective which is used to structure a set of case studies which analyse the cults of specific individuals in Old Norse literature The situation of gods in Old Norse religion has been almost exclusively addressed in isolation from these socio anthropological perspectives The public gravemound cults of deceased rulers are discussed conventionally as cases of sacral kingship and more recently religious ruler ideology both are seen as having divine associations in Old Norse scholarship Building on the anthropological framework this study introduces the concept of superior ancestors employed in social anthropology to denote a form of political ancestor worship used to regulate social structure deliberately It suggests that Old Norse ruler ideology was based on conventional and widely recognised religious practices revolving around kinship and ancestors and that the gods were perceived as human ancestors belonging to elite families **The Art of Julian Bream** Graham Wade,2008 Julian Bream s influence is apparent in every area of the classical guitar repertoire He transcribed Baroque works by Scarlatti Buxtehude Cimarosa etc and is acknowledged as one of the great interpreters of the music of J S Bach He revitalised awareness of the early nineteenth century works of Sor Giuliani and Aguado while bringing to the public the music of Spain from the sixteenth century to the present day and breathing new fire into Latin American music by composers such as Villa Lobos Ponce and Brouwer The Literary Gazette ,1839

Europe and the Wolf Sara Nadal-Melsió,2025-04-15 How the work of several contemporary artists illuminates and challenges the policing of European borders and identity In this stunningly original book Sara Nadal Melsi explores how the work of several contemporary artists illuminates the current crisis of European universalist values amid the brutal realities of exclusion and policing of borders The wolf is the name Baroque musicians gave to the dissonant sound produced in any attempt to temper and harmonize an instrument Europe and the Wolf brings this musical figure to bear on contemporary

aesthetic practices that respond to Europe's ongoing social and political contradictions Throughout Nadal Melsi understands Europe as a conceptual problem that often relies on harmonization as an organizing category The wolf as an emblem of disharmony incarnated in the stranger the immigrant or the refugee originates in the Latin proverb man is a wolf to man This longstanding phrase evokes the pervasive fear and even hatred of what is foreign unknown or beyond the borders of a community The book follows the wolf in a series of relays between the musical the visual and the political and through innovative readings of artworks by among others Carles Santos Pere Portabella Allora Calzadilla and Anri Sala Traversed by the musical these artworks as well as Nadal Melsi's writing present unstable symbolic and material ensembles in an array of variations of political possibilities and impossibilities that evade institutions intolerant of uncertainty and wary of diversity
