*The Time of the Generals* Frederick M. Nunn,1992-01-01 The quarter century from 1964 to 1989 was the time of the generals the most clearly defined era of military rule and influence in the history of Latin America The effects of this rule were most evident in Argentina Brazil Peru and Chile where French and German style military professionalism developed into professional militarism Frederick M Nunn shows that the mentality of Latin American generals is typical of a worldwide military ethos but that its application is unique in the context of individual countries In detailing the pervasiveness of this ethos worldwide Nunn enables a better understanding of the willingness of Latin American military leaders to intervene in government and of their activities once in power      *Jihad for Jerusalem* M.A. Khan,2004-10-30 Jihad for Jerusalem explores the agent structure dynamics in world politics and advances a constructivist theory of choice that explains the role of identity culture religion and other core values in international politics The struggle for Jerusalem by Iran Saudi Arabia Jordan and Israel is the empirical space where the dynamics between reason and identity values and strategies is explored Jihad for Jerusalem advances a theory of agency in international politics This theory of agency is based on a reconstituted constructivist paradigm The theory is tested by an examination of the foreign policy decision making of Iran Israel Jordan and Saudi Arabia towards Israel from 1967 1997 The book uses the foreign policy of these states as cases to test the tension between religion and rationality between identity and reason between power and morality and advances a constructivist theory of choice that explains the importance of the role of culture religion identity and core values in international politics Anyone interested in international relations theory and the convoluted politics of the Middle East will find this book intriguing reading      **Paths to Peace** Elizabeth A. Stanley,2009-07-28 Paths to Peace begins by developing a theory about the domestic obstacles to making peace and the role played by shifts in states governing coalitions in overcoming these obstacles In particular it explains how the longer the war the harder it is to end because domestic obstacles to peace become institutionalized over time Next it tests this theory with a mixed methods approach through historical case studies and quantitative statistical analysis Finally it applies the theory to an in depth analysis of the ending of the Korean War By analyzing the domestic politics of the war s major combatants the Soviet Union the United States China and North and South Korea it explains why the final armistice terms accepted in July 1953 were little different from those proposed at the start of negotiations in July 1951 some 294 000 additional battle deaths later      **Armies of Sand** Kenneth Michael Pollack,2019 Since the Second World War Arab armed forces have consistently punched below their weight They have lost many wars that

by all rights they should have won and in their best performances only ever achieved quite modest accomplishments Over time soldiers scholars and military experts have offered various explanations for this pattern Reliance on Soviet military methods the poor civil military relations of the Arab world the underdevelopment of the Arab states and patterns of behavior derived from the wider Arab culture have all been suggested as the ultimate source of Arab military difficulties Armies of Sand Kenneth M Pollack's powerful and riveting history of Arab armies from the end of World War Two to the present assesses these differing explanations and isolates the most important causes Over the course of the book he examines the combat performance of fifteen Arab armies and air forces in virtually every Middle Eastern war from the Jordanians and Syrians in 1948 to Hizballah in 2006 and the Iraqis and ISIS in 2014 2017 He then compares these experiences to the performance of the Argentine Chadian Chinese Cuban North Korean and South Vietnamese armed forces in their own combat operations during the twentieth century The book ultimately concludes that reliance on Soviet doctrine was more of a help than a hindrance to the Arabs In contrast politicization and underdevelopment were both important factors limiting Arab military effectiveness but patterns of behavior derived from the dominant Arab culture was the most important factor of all Pollack closes with a discussion of the rapid changes occurring across the Arab world political economic and cultural as well as the rapid evolution in war making as a result of the information revolution He suggests that because both Arab society and warfare are changing the problems that have bedeviled Arab armed forces in the past could dissipate or even vanish in the future with potentially dramatic consequences for the Middle East military balance Sweeping in its historical coverage and highly accessible this will be the go to reference for anyone interested in the history of warfare in the Middle East since 1945

The Economic Consequences of the Gulf War Kamran Mofid, 2005-10-26 The Iran Iraq War were one of the longest and most devastating uninterrupted wars amongst

modern nation states It produced neither victor nor vanquished and left the regimes in both countries basically intact However it is clear that the domestic regional and international repercussions of the war mean that going back is not an option Iraq owes too much to regain the lead it formerly held in economic performance and development levels What then does reconstruction mean In this book Kamran Mofid counteracts the scant analysis to date of the economic consequences of the Gulf War by analysing its impact on both economies in terms of oil production exports foreign exchange earnings non defence foreign trade and agricultural performance In the final section Mofid brings together the component parts of the economic cost of the war to assign a dollar value to the devastation *Post-revolutionary Iran* Hooshang

undoubtedly the Third World's longest and bloodiest conflict in a half century. As such, its lessons and implications extend beyond the geographical confines of the Middle East. Bringing together Israeli, American, and European specialists from the fields of Middle East history, international relations, strategy, and economics, this book offers the first comprehensive post-bellum analysis of the impact and implications of the Iran-Iraq war. The book starts with an examination of the war's impact on the domestic and foreign affairs of the two belligerents, continues with a discussion of the political ramifications of the war in both the regional and the global spheres, and concludes by analysing the economic, military, and strategic implications.

It is based on a research project initiated by the auspices of the Programme for Strategic and International Security Studies in Geneva. *The Soviet Union and Revolutionary Iran (RLE Iran D)* Aryeh Yodfat, 2012-04-27. Relations between the USSR and Iran during the period from the overthrow of the Shah and the establishment of the Islamic Republic up to early 1983 are reviewed in this book. It begins with a brief survey of Russian-Persian relations in earlier years, with a focus on the developments that served as a background to the current events. It examines Soviet attitudes and reactions to Iran's foreign and internal policy and highlights the way in which the Soviets often raise events of which they do not approve in order to draw Iran closer to them. In particular, the book discusses the Soviet response to the Iran-Iraq war and the position of the Tudeh Party and the other leftists within Iran. Iran's policy towards the USSR is treated at length, and it is shown that it is suspicious of a tacit USA-USSR agreement over the fate of Iran. Khomeini's attempts to isolate Iran from both East and West are also reviewed. This book was one of the first to discuss this crucial dimension in Middle East politics and it makes a significant contribution to our understanding of the forces driving the Iranian Revolution.
