Ravel Noctuelles:

Ravel Roger Nichols, 2011-01-01 This new biography of Maurice Ravel 1875 1937 by one of the leading scholars of nineteenth and twentieth century French music is based on a wealth of written and oral evidence some newly translated and some derived from interviews with the composer's friends and associates As well as describing the circumstances in which Ravel composed the book explores new evidence to present radical views of the composer's background and upbringing his notorious failure in the Prix de Rome his incisive and often combative character his sexual preferences and his long final illness It also contains the most detailed account so far published of his hugely successful American tour of 1928 The world of Maurice Ravel including friendships and some fallings out with Debussy Faur Diaghilev Gershwin and Toscanini is deftly uncovered in this sensitive portrait

After Debussy Julian Johnson, 2020 Focusing on the music of Debussy and its legacy in the century since his death this book offers a groundbreaking new perspective on twentieth century music that foregrounds a sensory logic of sound over quasi linguistic ideas of structure or meaning

Details of Consequence Gurminder Kaur Bhogal, 2013-09-11 Details of Consequence examines a trait that is taken for granted and rarely investigated in fin de siècle French music ornamental extravagance Considering why such composers as Claude Debussy Maurice Ravel Gabriel Faur Igor Stravinsky and Erik Satie turned their attention to the seemingly innocuous and allegedly superficial phenomenon of ornament at pivotal moments of their careers this book shows that the range of decorative languages and unusual ways in which ornament is manifest in their works doesn't only suggest a willingness to decorate or render music beautiful Rather in keeping with the sorts of changes that decorative expression was undergoing in the work of Eugène Grasset Pierre Bonnard Henri Matisse and other painters composers also invested their creative energies in reimagining ornament relying on a variety of decorative techniques to emphasize what was new and unprecedented in their treatment of form meter rhythm melody and texture Furthermore abundant displays of ornament in their music served to privilege associations that had been previously condemned in Western philosophy such as femininity sensuality exoticism mystery and fantasy Alongside specific visual examples author Gurminder Kaur Bhogal offers analyses of piano pieces orchestral music chamber works and compositions written for the Ballets Russes to highlight the disorienting effect of musical experiments with ornament Acknowledging the willingness of listeners to borrow vocabulary from the visual arts when describing decorative music Bhogal probes the formation of art music metaphors and studies the cognitive impetus behind tendencies to posit stylistic parallels She further illustrates that the rising expressive status of ornament in music and art had broad social and cultural implications as evidenced by its widespread involvement in debates on French identity style aesthetics and progress Drawing on a range of recent scholarship in the humanities at large including studies in feminist theory nationalism and orientalism Details of Consequence is an intensely interdisciplinary look at an important facet of fin de siècle French music
