Models of the History of Philosophy Gregorio Piaia, Giovanni Santinello, 2015-08-24 This is the third volume of Models of the History of Philosophy a collaborative work on the history of the history of philosophy dating from the Renaissance to the end of the nineteenth century The volume covers a decisive period in the history of modern thought from Voltaire and the great Encyclopédie of Diderot and d'Alembert to the age of Kant i.e. from the *histoire de l'esprit humain* animated by the idea of progress to the a priori history of human thought The interest of the philosophes and the Kantians Buhle and Tennemann in the study and the reconstruction of the philosophies of the past was characterized by a spirit that was highly critical but at the same time systematic The material is divided into four large linguistic and cultural areas the French Italian British and German The detailed analysis of the 35 works which can be considered to be general histories of philosophy is preceded and accompanied by lengthy introductions on the historical background and references to numerous other works bordering on philosophical historiography Christian-Muslim Relations. A Bibliographical History Volume 13 Western Europe (1700-1800) , 2019-09-16

**European Enlightenment** Gary Kates, 2022-08-11 In contrast to traditional Enlightenment studies that focus solely on authors and ideas Gary Kates employs a literary lens to offer a wholly original history of the period in Europe from 1699 to 1780 Each chapter is a biography of a book which tells the story of the text from its inception through to the revolutionary era with wider aspects of the Enlightenment era being revealed through the narrative of the book's publication and reception Here Kates joins new approaches to book history with more traditional intellectual history by treating authors publishers and readers in a balanced fashion throughout Using a unique database of 18th century editions representing 5 000 titles the book looks at the multifaceted significance of bestsellers from the time It analyses key works by Voltaire Adam Smith Madame de Graffigny Jean Jacques Rousseau and David Hume and champions the importance of a crucial innovation of the age the rise of the erudite blockbuster which for the first time in European history helped to popularize political theory among a large

portion of the middling classes Kates also highlights how when and why some of these books were read in the European colonies as well as incorporating the responses of both ordinary men and women as part of the reception histories that are so integral to the volume

**The Enlightenment that Failed** Jonathan I. Israel, 2019-11-28 The Enlightenment that Failed explores the growing rift between those Enlightenment trends and initiatives that appealed exclusively to elites and those aspiring to enlighten all of society by raising mankind's awareness freedoms and educational level generally Jonathan I Israel explains why the democratic and radical secularizing tendency of the Western Enlightenment after gaining some notable successes during the revolutionary era 1775 1820 in numerous countries especially in Europe North America and Spanish America ultimately failed He argues that a populist Robespierrieste tendency sharply at odds with democratic values and freedom of expression gained an ideological advantage in France and that the negative reaction this generally provoked caused a more general anti Enlightenment reaction a surging anti intellectualism combined with forms of religious revival that largely undermined the longings of the deprived underprivileged and disadvantaged and ended by helping albeit often unwittingly conservative anti Enlightenment ideologies to dominate the scene The Enlightenment that Failed relates both the American and the French revolutions to the Enlightenment in a markedly different fashion from how this is usually done showing how both great revolutions were fundamentally split between bitterly opposed and utterly incompatible ideological tendencies Radical Enlightenment which had been an effective ideological challenge to the prevailing monarchical aristocratic status quo was weakened then almost entirely derailed and displaced from the Western consciousness in the 1830s and 1840s by the rise of Marxism and other forms of socialism

**Rediscovering Political Economy** Joseph Postell, Bradley C. S. Watson, 2011-01-01 In this volume Bradley C S Watson and Joseph Postell bring together some of America's most eminent thinkers on political economy in an attempt to reconnect the discipline of economics to larger discussions about the human good The book shows how political ideas and economic theories can and must inform each other and is essential reading for anyone interested in politics economics history and culture

**Commerce and Its Discontents in Eighteenth-Century French Political Thought** Anoush Fraser Terjanian, 2013 This book uncovers the ambivalence towards commerce in eighteenth century France questioning the assumption that commerce was widely celebrated in the era of Adam Smith

***The Enlightenment in Practice*** Jeremy L. Caradonna, 2012-03-15 Public academic prize contests the concours acad mique played a significant role in the intellectual life of Enlightenment France with aspirants formulating positions on such matters as slavery poverty the education of women tax reform and urban renewal and submitting the resulting essays for scrutiny by panels of judges In *The Enlightenment in Practice* Jeremy L Caradonna draws on archives both in Paris and the provinces to show that thousands of individuals ranging from elite men and women of letters artisans and peasants participated in these intellectual competitions a far broader range of people than has been previously assumed Caradonna contends that the Enlightenment in France can no longer be seen as a cultural movement restricted to a small

coterie of philosophers or a limited number of printed texts Moreover Caradonna demonstrates that the French monarchy took academic competitions quite seriously sponsoring numerous contests on such practical matters as deforestation the quality of drinking water and the nighttime illumination of cities In some cases the contests served as an early mechanism for technology transfer the state used submissions to identify technical experts to whom it could turn for advice Finally the author shows how this unique intellectual exercise declined during the upheavals of the French Revolution when voicing moderate public criticism became a rather dangerous act

**Let this Voice be Heard** Maurice Jackson, 2009 In the first intellectual biography of the man universally recognized in his own time as the founder of the Atlantic antislavery movement Jackson demonstrates how Anthony Benezet mediated Enlightenment political and social thought African travel narratives and the ideas and experiences of ordinary people to create a new antislavery critique

**National Identity and the Agrarian Republic** Manuela Albertone, 2016-04-22 With a few exceptions historiography has paid little attention to the impact of French economic thought during the American Revolution focusing instead on the Revolution's links with Britain This book outlines how from the mid eighteenth to the early nineteenth century the political and social dimension of French economic thought and particularly of Physiocracy spurred American Republicans to a radical shaping of American agrarian ideology Such a perspective allows for a reconsideration of several questions that lie at the heart of contemporary historiographic debate the connection between politics and economics the meaning of republicanism the foundations of representation the role of Europe in the Atlantic world and the interaction between national histories and global context In particular the research methodology adopted here makes it possible to reconstruct how American national identity conceived as an expression of society in economic terms emerged through a cosmopolitan way of thinking focused on the uniqueness of the new state

*Sentimental Figures of Empire in Eighteenth-Century Britain and France* Lynn Festa, 2006-10-15 In this ambitious and original study Lynn Festa examines how and why sentimental fiction became one of the primary ways of representing British and French relations with colonial populations in the eighteenth century Drawing from novels poetry travel narratives commerce manuals and philosophical writings Festa shows how sentimentality shaped communal and personal assertions of identity in an age of empire Read in isolation sentimental texts can be made to tell a simple story about the emergence of the modern psychological self Placed in conversation with empire however sentimentality invites both psychological and cultural readings of the encounter between self and other Sentimental texts Festa claims enabled readers to create powerful imagined relations to distant people Yet these emotional bonds simultaneously threatened the boundaries between self and other civilized and savage colonizer and colonized Festa argues that sentimental tropes and figures allowed readers to feel for others while maintaining the particularity of the individual self Sentimental identification thus operated as a form of differentiation as well as consolidation Festa contends that global reach increasingly outstripped imaginative grasp during this era Sentimentality became an important tool for writers on empire allowing conquest to be portrayed as

commerce and scenes of violence and exploitation to be converted into displays of benevolence and pity Above all sentimental texts used emotion as an important form of social and cultural distinction as the attribution of sentience and feeling helped to define who would be recognized as human

**Agents of European overseas empires** Elodie Peyrol-Kleiber, L. H. Roper, Bertrand Van Ruymbeke, Agnès Delahaye, 2024-03-12 Agents of European overseas empires involves contributors who specialise on often overlooked aspects of imperial endeavour private European interests companies merchants or courtiers who conducted their own activities both with and without the benediction of polities The chapters adopt intra as well as inter imperial perspectives and transport the reader to colonial America the West Indies the Cape of Good Hope Batavia or Ceylon through the Dutch English French and Spanish empires Agents of European overseas empires offers crucial insight on how these actors acquired profits and power and in turn laid the platforms for European global empires

**Bibliographie annuelle de l'histoire de France** Virginie Durand, Claude Ghiati, Isabelle Havelange, Brigitte Keriven, 2007-10

**Enlightened Colonialism** Damien Tricoire, 2017-08-11 This book further qualifies the postcolonial thesis and shows its limits To reach these goals it links text analysis and political history on a global comparative scale Focusing on imperial agents their narratives of progress and their political aims and strategies it asks whether Enlightenment gave birth to a new colonialism between 1760 and 1820 Has Enlightenment provided the cultural and intellectual origins of modern colonialism For decades historians of political thought philosophy and literature have debated this question On one side many postcolonial authors believe that enlightened rationalism helped delegitimize non European cultures On the other side some historians of ideas and literature are willing to defend at least some eighteenth century philosophers whom they consider to have been anti colonialists Surprisingly enough both sides have focused on literary and philosophical texts but have rarely taken political and social practice into account

**Censorship** Derek Jones, 2001-12-01 Censorship A World Encyclopedia presents a comprehensive view of censorship from Ancient Egypt to those modern societies that claim to have abolished the practice For each country in the world the history of censorship is described and placed in context and the media censored are examined art cyberspace literature music the press popular culture radio television and the theatre not to mention the censorship of language the most fundamental censorship of all Also included are surveys of major controversies and chronicles of resistance Censorship will be an essential reference work for students of the many subjects touched by censorship and for all those who are interested in the history of and contemporary fate of freedom of expression

**The Baylors of Newmarket** Thomas Katheder, 2009 Scholars and arm chair historians of eighteenth century America will take great pleasure in reading this exceptionally well researched slice of colonial history In The Baylors of Newmarket author

Thomas Katheder has meticulously researched one of the wealthiest and most socially prominent yet least known families in colonial Virginia Drawing on mostly unpublished sources including British and French archives and Virginia court documents The Baylors of Newmarket is the fascinating and tragic story of Col John Baylor III and his son John IV including Col Baylor s relentless pursuit of equine perfection and his son s delusional quest for the perfect Virginia mansion The Baylors of Newmarket places the family in the larger context of a pre Revolutionary Anglo Virginian elite that sought to emulate the British gentry in culture education books and reading dress furnishings and behavior After the Revolution the Baylors struggled to maintain what was becoming an increasingly outmoded lifestyle This extensively referenced history also describes in rich detail the library begun by Col Baylor III and expanded by his son John IV within the context of a strong book culture among the pre Revolutionary Virginia gentry that has been largely underappreciated by scholars **Into Print** George Charles Walton,2011 A collection of essays examining how print culture shaped the legacy of the Enlightenment Explores the challenges contradictions and dilemmas modern European societies have encountered since the eighteenth century in trying to define spread and realize Enlightenment ideas and values Provided by publisher **TransArea** Ottmar Ette,2016-07-11 Ottmar Ette s TransArea proceeds from the thesis that globalization is not a recent phenomenon but rather a process of long duration that may be divided into four main phases of accelerated globalization These phases connect our present across the world s widely divergent modern eras to the period of early modern history Ette demonstrates how the literatures of the world make possible a tangible perception of that which constitutes Life both of our planet and on our planet which may only be understood through the application of multiple logics There is no substitute for the knowledge of literature it is the knowledge of life from life This English translation will be of great interest to English speaking scholars in the fields of Global and Area Studies Literary Studies Cultural Studies History Political Science and many more About the author Ottmar Ette has been Chair of Romance Literature at the University of Potsdam Germany since 1995 He is Honorary Member of the Modern Language Association of America MLA elected in 2014 member of the Berlin Brandenburg Academy of Sciences and Humanities elected in 2013 and regular member of the Academia Europaea since 2010 Democratic Enlightenment Jonathan Israel,2013-01-17 Jonathan Israel s radical new account of the late Enlightenment highlights forgotten currents and figures Running counter to mainstream thinking he demonstrates how a group of philosophe revolutionnaires provided the intellectual powerhouse of the French Revolution and how their ideas connect with modern Western democracy Fictions coloniales du XVIIIe siècle Youmna Charara,2005-06-01 Ce volume permet d observer au fil des textes la formation d une s rie de romans dont l action situ e dans les Antilles offre une image des relations problématiques entre esclaves noirs et propri taires des plantations Les trois r cit s int grent des r alit s historiques diff rentes et chacun formule des interrogations politiques qui lui sont propres ils pr sentent pourtant des similitudes dans le sc nario qui autorisent rechercher entre eux des rapports d imitation et de r critique Ils constituent aussi les sources du premier roman de
