**Flora of Cambridgeshire** Charles Cardale Babington, 1860      Current Catalog National Library of Medicine (U.S.),  
First multi year cumulation covers six years 1965 70      **Rhubarb** Clifford M. Foust, 2014-07-14 An Asian plant with  
mysterious cathartic powers medicinal rhubarb spurred European trade expeditions and obsessive scientific inquiry from the  
Renaissance until the twentieth century Rarely however had there been a plant that so thoroughly frustrated Europeans  
efforts to acquire it and to master its special botanical and chemical properties Here Clifford Foust presents the remarkable  
efforts of the explorers traders botanists gardeners physicians and pharmacists who tried to adapt rhubarb for convenient  
use in Europe His is an intriguing tale of how humans and their institutions have been affected by natural realities they do  
not entirely comprehend Readers interested in the history of medicine pharmaceuticals botany or horticulture will be  
fascinated by this once perplexing plant highly valued by physicians for its cathartic properties rhubarb resisted revealing its  
active chemical principles had many widely varying species and did not breed true by seed This history includes sections on  
the geographic and economic importance of rhubarb which explain how the plant became a major state monopoly for Russia  
and an important commodity for the East India companies and a discussion of rhubarb s emergence as an international  
culinary craze during the nineteenth and twentieth centuries Originally published in 1992 The Princeton Legacy Library uses  
the latest print on demand technology to again make available previously out of print books from the distinguished backlist of  
Princeton University Press These editions preserve the original texts of these important books while presenting them in  
durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich  
scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Small Dictionaries and Curiosity John P. Considine, 2017 Small Dictionaries and Curiosity tells a story which has not been  
told before that of the first European wordlists of minority and unofficial languages and dialects from the end of the Middle  
Ages to the early nineteenth century These wordlists were collected by people who were curious about the unrecorded or  
little known languages they heard around them Between them they document more than 40 language varieties from a Basque  
Icelandic pidgin of the North Atlantic to the Kalmyk language of the lower Volga The book gives an account of about 90 of  
these dictionaries and wordlists some of them single page jottings and some of them full sized printed books paying attention  
to their content and their physical form alike It explores the kinds of curiosity and imagination by which their makers were  
moved the lover of all languages hearing new voices in an inn the speaker of a dying language recording his linguistic  
memories the patriot deploying his lexicographical findings in the service of an emerging nation It offers an encounter with  
the diverse voices of the entirety of post medieval Europe turning away from the people of the courts and universities whose  
language was documented in big dictionaries to listen to people who did not speak the languages of power the people of  
remote places and dying communities the illiterate poor settled or homeless migrants from the edges of Europe and beyond

**The English Parson-naturalist** Patrick Armstrong, 2000 These parson naturalists made a significant contribution to the development of British scientific natural history and played an important role in the foundation of the conservation movement and in the origins of organisations such as the Royal Society for the Protection of Birds and the National Trust This book presents a full range of interesting and sometimes eccentric individuals from the early days of the Christian faith in the British Isles to modern times Missionary endeavor and service to the Empire brought the influence of the English parson naturalist to the very ends of the earth A key to the appreciation of the success of the parson naturalist phenomenon is understanding the social milieu in which these men worked Until the twentieth century clergy were members of a relatively tightly knit social group often related to one another by kinship or marriage a man's clerical colleagues were also his scientific colleagues and his kinsfolk

*John Ray* Charles E. Raven, 1986-05-22 Charles Raven's biography of the seventeenth century English naturalist John Ray is one of the great works in the history of science The author's command of Latin the language in which all Ray's biological works were written and his enthusiasm for natural history enabled him to interpret superbly to the modern reader John Ray's remarkable scientific work and to rescue Ray's reputation from undeserved neglect Raven reveals the unique influence Ray had on the development of modern science and in particular explains sympathetically the key role of Ray's last most popular and most influential work *The Wisdom of God* which was the forerunner of the great Darwinian controversies between science and religion in the nineteenth century

**Flora Unveiled** Lincoln Taiz, Lee Taiz, 2017 This book focuses on how the the scientific discovery of plant sex unfolded due to cultural biases beliefs and perceptions about plant reproduction Flora Unveiled is a deep history of perceptions about plant gender and sexuality from the Paleolithic to the nineteenth century The evidence suggests that a plants as female gender bias both prevented the discovery of two sexes in plants until the late 17th century and delayed its acceptance for another 150 years Practical Ecology for Geography and Biology M. Gilbertson, 2012-12-06 Our aim in writing this book is to provide students and teachers with a simple introductory text which deals with practical aspects of ecology environmental biology and biogeography emphasizing actual field and classroom investigations Basic concepts and methods of survey mapping and aerial photography data collection and data analysis are described and discussed in order to encourage students to identify and tackle worthwhile projects The level at which this text is appropriate depends very much upon particular circumstances The greater part lies within the scope of the sixth form and the first and second years of college polytechnic and university courses in the British Isles and their equivalents overseas All students inevitably meet difficulties in the identification of plant and animal species particularly when they venture into unfamiliar habitats and regions This is often the cause of unnecessary alarm Many ecological principles or problems may be illustrated by reference to familiar species and habitats such as are found in urban environments as well as those areas of semi natural vegetation favoured for field courses *National Agricultural Library Catalog* National Agricultural Library (U.S.), 1976 **Transactions of the Essex Field Club** Essex Field Club, 1883 Transactions of the Essex Field Club , 1883 *The Tourists' Flora: a Descriptive Catalogue of the Flowering Plants and Ferns of the British Islands, France, Germany, Switzerland, Italy and the Italian Islands* Joseph WOODS (F.A.S.), 1850 *Catalog of Printed Books of the Folger Shakespeare Library, Washington, D.C.* Folger Shakespeare Library, 1970 National Union Catalog , 1983 Catalogue ... 1807-1871 Boston Mass, Athenaeum, lib., 1874 **Catalogue of the Library of the Boston Athenaeum** , 1874
