Re Visioning Psychology:

Re-Visioning Psychology James Hillman, 1977-12-28 This groundbreaking classic explores the necessity of connections between our life and soul and developing the main lines of the soul making process *The Life and Ideas of James Hillman* Dick Russell, 2023-05-30 James Hillman who died in 2011 at the age of eighty five has been described by poet Robert Bly as the most lively and original psychologist of the twentieth century Based on author Dick Russell's interviews with Hillman and dozens of people who knew him Volume Two of *The Life and Ideas of James Hillman* takes up Hillman's mid life when he set about returning psychology to its Soul rich roots in Greek mythology and Renaissance esotericism From his base teaching at Zurich's Jung Institute we follow Hillman's growing international prominence as a maverick in the field coinciding with his relationship and eventual marriage to Patricia Berry They would be instrumental in formulating Archetypal Psychology along with a group of young compatriots in what became known as Spring House The new ideas taking shape moved psychology away from the dominant scientific medical model with its focus on treating the isolated individual expanding into the fertile realm of culture and the imagination Amid prodigious writings and lectures Hillman made mythology and even alchemy relevant to our times Delivering the prestigious Terry Lectures at Yale and being nominated for a Pulitzer Prize Hillman returned to America after living primarily in Europe for thirty years To the surprise of many he settled in Dallas and helped found an Institute of Humanities and Culture while taking up how to re imagine city planning Equally surprising was Hillman's subsequent move to rural Connecticut where he and Pat Berry resided in a nineteenth century farmhouse Starting in the mid 80s Hillman became a pioneering teacher in the mythopoetic men's movement alongside Robert Bly and Michael Meade where deep talk about fathers and sons and male female relationships offered a new kind of group therapy a cultural therapy As Thomas Moore said of Hillman he possessed a genius for taking any theme and shedding serious fresh light on it Along the way Hillman's insights came to encompass all of the arts a poetic basis of mind that connected him to many of the most influential artists and thinkers of the modern era **Re-Visioning Psychiatry** Laurence J. Kirmayer, Robert

Lemelson, Constance A. Cummings, 2015-07-29 *Re Visioning Psychiatry* explores new theories and models from cultural psychiatry and psychology philosophy neuroscience and anthropology that clarify how mental health problems emerge in specific contexts and points toward future integration of these perspectives Taken together the contributions point to the need for fundamental shifts in psychiatric theory and practice Restoring phenomenology to its rightful place in research and practice Advancing the social and cultural neuroscience of brain person environment systems over time and across social contexts Understanding how self awareness interpersonal interactions and larger social processes give rise to vicious circles that constitute mental health problems Locating efforts to help and heal within the local and global social economic and political contexts that influence how we frame problems and imagine solutions In advancing ecosystemic models of mental disorders contributors challenge reductionistic models and culture bound perspectives and highlight possibilities for a more

transdisciplinary integrated approach to research mental health policy and clinical practice *Hillman-Matters*, 2015 In 1975 James Hillman published *Re-Visioning Psychology* which is perhaps his most important book and certainly constitutes one of the main texts in archetypal psychology This dissertation argues that the ideas presented by Hillman forty years ago have lost much of their psychological value and are again in need of revisioning In order to execute such revisioning this dissertation performs a close reading of *Re-Visioning Psychology* in which the central ideas of archetypal psychology personifying pathologizing psychologizing and soul making are examined under their own logic Hillman's ideas are in this way used to reflect on Hillman's ideas the text is treated as an image and studied as such The methodology is thus recursive the dissertation personifies personifying pathologizes pathologizing psychologizes psychologizing and dehumanizes soul making By doing this the dissertation reveals the tensions and contradictions present within Hillman's text Using Hillman's own archetypal methodology as a tool this dissertation problematizes fundamental concepts of archetypal psychology such as psychological polytheism the return to Greece the metaphorical aspect of the psyche and anima as root metaphor in archetypal psychology Particular attention is put on the historical aspect of Hillman's ideas arguing that Hillman's lack of historical rigor often limits his imaginal insights The dissertation concludes that when *Re-Visioning Psychology*'s ideas are applied to themselves and contextualized historically the book collapses under the pressure of its own argument revealing a mythic substructure which is highly monotheistic literalistic and Christian This dissertation contends that the collapse of *Re-Visioning Psychology*'s argument far from detrimental to archetypal psychology constitutes a furthering of soul making in its theory through deeper and more complex personifying pathologizing and psychologizing The dissertation argues that the questions and doubts raised by the text itself are an invitation to plunge into what is still unknown and foreign in the logic of Hillman's thought they constitute an invitation to imagine further the ideas of archetypal psychology particularly those presented by Hillman in *Re-Visioning Psychology* Key Words James Hillman archetypal psychology revisioning history polytheism monotheism literalism anima soul image **Re-Visioning the American Psyche** Ipek S.
