Rigorous Reading Nancy Frey, Douglas Fisher, 2013-09-13 What it really means to read closely What could Fern Arable Jay Gatsby and Winston Churchill possibly have in common They all need masterful teachers to help students revel in their complexity And Nancy Frey and Doug Fisher are just the two mentors to help you make that happen Call it close reading call it deep reading call it analytic reading call it what you like The point is it's a level of understanding that students of any age can achieve with the right kind of instruction In *Rigorous Reading* Nancy and Doug articulate an instructional plan so clearly and so squarely built on research that teachers schools and districts need look no further The 5 Access Points Toward Proficiency Purpose Modeling Teachers think aloud to demonstrate critical thinking and how good readers always know why they are reading Close Scaffolded Reading Instruction Teachers engage students in repeated readings and discussions with text dependent questions prompts and cues to help students delve into an author's ideas Collaborative Conversations Teachers orchestrate collaborative learning to get students in the habit of exercising their analytical thinking in the presence of their peers An Independent Reading Staircase Teachers artfully steer students to more challenging books with strategic bursts of instruction and peer conferences to foster metacognitive awareness Performance Teachers offer feedback and assessments that help students demonstrate understanding of text in authentic ways and plan instruction based on student understanding There's more Also included are illustrative classroom video clips available via QR codes along with an online Facilitator's Guide with PowerPoints making *Rigorous Reading* the only resource a teacher school or district needs to seriously stretch students capacity to read and comprehend text

Text-Dependent Questions, Grades K-5 Douglas Fisher, Nancy Frey, Heather Anderson, Marisol Thayre, 2014-09-02 Fisher Frey's answer to close and critical reading No doubt since the cave paintings of prehistoric times humans have asked questions to make sense of the message So what could possibly be new about posing questions about text Plenty and with TDQ Doug Fisher and Nancy Frey reveal it all After one quick read you will have learned all the very best ways to use text dependent questions as scaffolds

during close reading and the big understandings they can yield especially when executed the Fisher and Frey way But that s just for starters Fisher and Frey also include illustrative video recommended texts and questions examples from across content areas and an online professional learning guide making the two volumes of TDQ a potent professional development tool across all of K 12 The genius of TDQ is the way Fisher and Frey break down the process into four cognitive pathways that help teachers organize the journey through a text and frame an extended discussion around it Step by step this approach ensures that in every close reading lesson students are guided to consider explicit and implied meanings and deeply analyze and appreciate various aspects of a text especially those that may be challenging or confusing Here s how the four inter related processes play out with every why and every how answered What does the text say general understandings and key details How does the text work vocabulary structure and author s craft What does the text mean logical inferences and intertextual connections What does the text inspire you to do write investigate present debate The cool thing These questions ignite students engagement and discussion because they strategically lead students to a place of understanding where explicit and implied meanings and interpretations can be debated Far from being overly literal or teacher led the questioning framework Fisher and Frey advance enhances the quality of student talk and idea generation All in all there s no better resource to cultivate students capacity for independent reading and incisive thinking Longtime collaborators and recipients of numerous teaching and leadership awards DOUGLAS FISHER and NANCY FREY are Professors of Educational Leadership at San Diego State University as well as teacher leaders at Health Sciences High Middle College *Research in Education*, 1974 *Leveled Texts for Classic Fiction: Fantasy and Science Fiction* Stephanie Paris, 2013-01-01 Inspire students imaginations and teach the elements of fiction using leveled texts Support your differentiated instruction with this book featuring excerpts from 15 different classic works including *The Lost World* *A Journey into the Center of the Earth* and *The Secret Garden* This resource is perfect for close reading or small group instruction because each selection is written at four different reading levels and includes a focus on setting character plot or language usage These texts can support students vocabulary development improve writing skills foster engagement and promote creative thinking Symbols placed in the lower corner of each page represent the reading level range and are designed to help teachers differentiate instruction Comprehension questions are also provided to complement each reading level [The Everything Parent's Guide to Common Core Science Grades 6-8](#) Laurie Bloomfield, 2015-11-15 Take the mystery out of middle grade science The Common Core a new set of national educational standards has been adopted by 45 states across the nation But if you learned about science the old way you may be having a hard time understanding what your kids are bringing home from school and why With information on Next Generation Science Standards and practice exercises and experiments you ll learn The rationale behind Common Core standards The major scientific concepts your child will be learning at each grade level The new requirements for learning concepts and applying them in practical ways How the Next Generation Science Standards relate to the Common

Core Math and English Language Arts standards How to help your child with homework and studying The Everything Parent's Guide to Common Core Science Grades 6-8 will give you the confidence to help your kids meet the science expectations for their grade level excel at school and prepare for high school and beyond Differentiated Lessons and Assessments - Science, Grade 6 Julia McMeans, 2010 Practical strategies activities and assessments help teachers differentiate lessons to meet the individual needs styles and abilities of students Each unit of study includes key concepts discussion topics vocabulary and assessments in addition to a wide range of activities for visual logical verbal musical and kinesthetic learners Helpful extras include generic strategies and activities for differentiating lessons and McREL content standards *DK Workbooks: Language Arts Math and Science Grade 2* DK, 2020-08-25 PLEASE NOTE this is a replica of the print book and you will need paper and a pencil to complete the exercises Boost your child's skills with fun activities and exercises that introduce key concepts in spelling math and science Whether you want to teach your child at home give them extra support outside the classroom or find fun stimulation for your budding genius this workbook has something for everyone Home learning can be fun with these exercises featuring drawing puzzles kitchen science experiments and more This write-in book provides an introduction to key concepts and skills in literacy numeracy and science To help the parent/carer there are answer pages and notes providing further guidance and there's no need to buy any specialist equipment or craft supplies just pick up a pencil With 60 activity pages to keep your child entertained as well as educated and a reward certificate on completion there's something in a DK workbook for every child to learn and enjoy **Children's Books in Print** R R Bowker Publishing, Bowker, 1999-12 **Course of Study in Social Science, Grades One to Six** Detroit Public Schools, 1923 **Physical Science Grade 4** Bellaire, Tracy, The experiments in this book fall under seventeen topics that relate to four aspects of physical science Pulleys and Gears Wheels and Levers Building Devices and Vehicles that Move Light and Sound and Shadows In each section you will find teacher notes designed to provide you guidance with the learning intention the success criteria materials needed a lesson outline as well as provide some insight on what results to expect when the experiments are conducted Suggestions for differentiation are also included so that all students can be successful in the learning environment
