Aspects of a pedagogical grammar based on case grammar and valence theory Stefan R. Fink, 2011-05-02 Over the past few decades the book series *Linguistische Arbeiten* Linguistic Studies comprising over 500 volumes has made a significant contribution to the development of linguistic theory both in Germany and internationally The series will continue to deliver new impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses To this end we invite submission of high quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions discuss new data and advance the development of linguistic theory *Trends in kontrastiver Linguistik: Interimssprache und kontrastiver Analyse. Theoretical Issues in Contrastive Linguistics Jacek Fisiak, 1981-01-01 Contrastive Linguistics roughly defined as a subdiscipline of linguistics which is concerned with the comparison of two or more subsystems of languages has long been associated primarily with language teaching Apart from this applied aspect however it also has a strong theoretical purpose contributing to our understanding of language typology and language universals Issues in theoretical CL which also feature in this volume are the choice of model the notions of equivalence and contrast and directionality of descriptions Languages used for illustration in this volume include English German Danish and Polish

Dialect and Education Jenny Cheshire, 1989 All European countries face educational problems that result from the co existence of a national standard variety of language and a range of indigenous dialects There has been a considerable amount of serious research into the issues during the last 25 years particularly in Continental Europe but until now relatively little of this research has been published in English *Towards a History of Linguistics in Poland* E.F.K. Koerner, Aleksander Szwedek, 2001-12-04 Apart from the names of Jan Baudouin de Courtenay 1845 1929 Miko aj Kruszewski 1851 1887 and later Jerzy Kury owicz 1895 1978 Polish linguists and Polish linguistics generally have been little known in the West The first two were mentioned with approval by Saussure in an unpublished paper and this reference was picked up by Roman Jakobson and others many years later Kury owicz for his part made himself well known in the West through his important work as Indo Europeanist even Semiticist and as a general linguist The present volume is a first attempt to broaden the perspectives on the Polish contribution to linguistics both inside and outside of Poland during the past centuries Specialists in their respective fields contributed chapters on the origins and development of general linguistics Z W sik applied linguistics F Grucza lexicology T Piotrowski dialectology St Gogolewski and onomastics S Gala followed by five chapters presenting the theories of the arguably most remarkable Polish linguistic thinkers from Baudouin de Courtenay A Adamska Sa aciak Kruszewski F M Berezin and Kury owicz W Smoczy ski to Miko aj Rudnicki 1881 1978 and Ludwik Zabrocki 1907 1977 both written by J Ba czerowski Detailed individual bibliographies a full index of names

with life dates of Polish linguists from the Renaissance to the present day and a thorough index of subjects and terms make this volume an important reference tool for anyone wishing to acquaint himself with the rich heritage of Polish linguistic thought

Essays on the English Language and

Applied Linguistics on the Occasion of Gerhard Nickel's 60th Birthday Josef Klegraf, Dietrich Nehls, 1988 **Transfer and Interference in Language** Monika Brüggemeier, Dietmar Fütterer, 1984

The topic of this bibliography in its broadest sense is the subject of a wide range of academic disciplines. Given these circumstances the particular associations and connotations of the terms transfer and interference in each of these areas are legion with resultant differences in meaning in the disparate literature on these subjects. And yet it is in one way or another contact and interaction of languages in the speaker-hearer and learner in language acquisition contexts as well as in society in general which is basic to these two concepts throughout the various disciplines. The discovery of this basic unitary notion is surely one of the reasons for the new interest in these phenomena. In light of all this a bibliography cannot at present avoid being highly selective in order to demarcate an interdisciplinary area of research in its own right and with its own status. The establishment of such an area is one of our main aims. The focus of interest in this bibliography admittedly is directed towards the psycholinguistics of language contact and interaction.

FoL, 1984 *ZAA*, 1985 *Case, Semantic Roles, and Grammatical Relations* Petra Campe, 1994-07-01. This is the first of a series of 6 books dealing with case phenomena in different languages, both Indo- and non-Indo-European, resulting from work by a team of 20 specialists at the University of Leuven. It is the first time such a large-scale investigation into case has been undertaken and a remarkable feature of the project is the use of computer corpora of authentic material. This bibliography presents the many dimensions involved in research into case and case-related phenomena. This includes not only

morphological case markers but also the crossconstituent semantic and grammatical relations expressed by morphological case or by its various counterparts morpho syntactic processes such as transitivity and passivization and pragmatic and textual considerations In addition the bibliography reflects the implications of case research for other disciplines such as foreign language teaching and artificial intelligence More than 6000 publications are listed An extensive Subject Index provides easy access to all the topics and major concepts covered A Language Index and a Guide to Languages Language Families conclude the book The other volumes in the series include The Dative 2 vols The Genitive The Nominative and Accusative and Non nuclear Cases *Dialektologie. 2.
