## Reading Castaneda:

**Reading Castaneda (Routledge Revivals)** David Silverman, 2019-10-25 Carlos Castaneda's accounts of his meeting with the Yaqui Indian magician Don Juan are well known to sociologists both in Britain and in America. Using material largely from Castaneda's *The Teachings of Don Juan*, David Silverman here seeks to introduce the student of Sociology to some of the central epistemological concerns of social science. First published in 1975, the title assumes no previous knowledge of Castaneda but instead uses his work as a springboard to wider issues in particular making sense of our reality and understanding each other by using language and communication. This is an interesting reissue which will be of particular value to students of the sociology of language and communication as well as Communication Studies more generally.

**Reading Castaneda (Routledge Revivals)** David Silverman, 2013-12-02 Carlos Castaneda's accounts of his meeting with the Yaqui Indian magician Don Juan are well known to sociologists both in Britain and in America. First published in 1975, the title assumes no previous knowledge of Castaneda but instead uses his work as a springboard to wider issues.

Misanthropology Sean M. Rafferty, 2022-10-13 *Misanthropology: Science, Pseudoscience and the Study of Humanity* introduces students to key concepts in critical thinking across the four core branches of anthropology: cultural, linguistic, biological, and archaeological. It combines a critical analysis of anthropology as a field with current concepts in scientific skepticism. By deconstructing a range of global case studies in which anthropological research runs aground, the book teaches students to distinguish between legitimate science and pseudoscience. It covers key concepts in critical thinking and rigorous research such as cognitive biases and logical fallacies, data collection and consensus, probabilistic thinking as well as political, nationalist, racist biases. Students learn not only how to apply these concepts to anthropological research and fieldwork but also to their consumption of everyday information. This book will appeal to anthropology students and will be particularly useful for instructors of introductory anthropology courses as well as instructors of courses across the humanities and social sciences focused on inculcating critical thinking skills.

**Castañeda and his Guises** Adriano Palma, 2014-08-25 This volume responds to and reassesses the work of Hector Neri Castañeda (1924-1991). The essays collected here, written by his students, followers, and opponents, examine Castañeda's seminal views on deontic logic, metaethics, indexicality, practices, fictions, and metaphysics, utilizing the critical viewpoint afforded by time as well as new data to offer insights on his theories and methodology.

Under Spells and Other Narratives Theodore Lyons, 2013-10-29 In *Under Spells*, a Buddhist author recounts his simultaneous influences after living out some of the experiences of various authors and their characters. On the verge of homelessness in Sans Abri Without Shelter, he decides not to stay in a shelter but rather outdoors, like Siddhartha Gautama Buddha and his followers in the 5th century BC, and painfully conquers the elements. Having studied astronomy and astrology, he finally charts his horoscope in *Little Green Men* and learns how and why his life turned out the way it did. In *Chez Moi*, he journeys again to Maine and eastern Canada while he has the chance.
