Reading Focus On Poetry:

Reading Poetry Tom Furniss, Michael Bath, 2022-04-06 Reading Poetry offers a comprehensive and accessible guide to the art of reading poetry. Discussing more than 200 poems by more than 100 writers ranging from ancient Greece and China to the twenty-first century, the book introduces readers to the skills and the critical and theoretical awareness that enable them to read poetry with enjoyment and insight. This third edition has been significantly updated in response to current developments in poetry and poetic criticism and includes many new examples and exercises, new chapters on world poetry and eco poetry, and a greater emphasis throughout on American poetry, including the impact traditional Chinese poetry has had on modern American poetry. The seventeen carefully staged chapters constitute a complete apprenticeship in reading poetry, leading readers from specific features of form and figurative language to larger concerns with genre, intertextuality, Caribbean poetry, world poetry, and the role poetry can play in response to the ecological crisis. The workshop exercises at the end of each chapter, together with an extensive glossary of poetic and critical terms and the number and range of poems analysed and discussed (122 of which are quoted in full), make Reading Poetry suitable for individual study or as a comprehensive self-contained textbook for university and college classes.

Focus on Fluency Nancy Cecil, 2017-05-12 This valuable book is written for preservice and inservice teachers who are searching for best practices with which to promote fluency in reading and writing. Fluency is one of the primary building blocks for creating successful readers and writers, and the practical discussions and activities found here will help teachers develop effective ways to promote fluency and to engage and motivate children while always remembering that the essential purpose of reading is to gain meaning from text and that of writing is to convey meaning through text.

Reading with Meaning Debbie Miller, 2023-10-10 Ten years since her first edition, author Debbie Miller returns with Reading with Meaning, Second Edition. Teaching Comprehension in the Primary Grades to share her new thinking about reading comprehension strategy instruction, the gradual release of responsibility instructional model, and planning for student engagement and independence. Reading with Meaning, Second Edition delves into strategy and how intentional teaching and guided practice can provide each child a full year of growth during their classroom year. New in this edition are lesson planning documents for each chapter that include guiding questions, learning targets, and summative assessments, as well as new book title recommendations and updated FAQs from the first edition. Also included are strategic lessons for inferring, determining the importance in each text, and synthesizing information. Teachers can help students make their thinking visible through oral, written, artistic, and dramatic responses and provide examples on how to connect what they read to their own lives. In this book, Miller reflects on her professional experiences and judgement along with current research in the field. She provides a guide for any teacher hoping to build student relationships and develop lifelong independent learners.

Reading-Writing Connections Mary F. Heller, 1999-04-01 Reading Writing Connections: From Theory to Practice is an extraordinary language arts methods text that enables elementary and middle

school teachers to create classroom environments where all students can become lifelong readers and writers. Focusing on developmentally appropriate methods and materials, this remarkably readable book empowers a new generation of teachers to integrate reading, writing, listening, and speaking in K-8 classrooms. Heller's highly accessible writing style makes this book suitable as a primary text for undergraduate and graduate courses in language arts, reading, writing, and literacy. Special features of this second edition include a vision of how to transform cutting-edge theory and research into classroom practice that utilizes integrated language arts instruction; a unique developmental perspective with separate chapters on teaching methods and materials for kindergarten, primary (1-3), intermediate (4-6), and middle grades (7-8); instructional guidelines that offer generous, detailed suggestions for applying theory to practice; plus "For You to Try" and "For Your Journal" exercises that encourage critical thinking and reflection; and a wealth of classroom vignettes, examples of students' oral and written language, illustrations, and figures that accentuate interesting and informative theory, research, and practice. In addition, *Reading Writing Connections* offers expanded content on the impact of sociocultural theory and the whole language movement on the teaching of reading and writing across the curriculum; greater emphasis on cultural diversity, including new multicultural children's literature booklists that complement the general children's literature bibliographies; and current information on alternative assessment, emerging technologies, the multiage classroom, reader response to literature, and thematic teaching.

Focusing on EFL Reading Rahma Al-Mahrooqi, Adrian Roscoe, 2014-06-02

Reading, a complex and multi-faceted skill, is essential for life and academic success. While its mysteries still baffle first language research, the nature of reading in a foreign language presents an even greater puzzle. However, given reading's importance for EFL students who study their specializations in English and whose future employment may depend on their competence in it, researchers must continue to investigate foreign language reading and devise ways of improving students' capacity for it. Hence, this book, with its thorough coverage of up-to-date theory, practice, and research, will be of great value in today's educational context. As they strive to understand reading and help EFL students to acquire it, researchers and language teachers will find much of value here.

Revitalizing Read Alouds Lisa Hammett Price, Barbara A. Bradley, 2016

How can educators and other professionals caring for children extend the learning potential of read-alouds? This book is designed to help teachers, special education specialists, and speech language pathologists achieve two objectives: 1) how to interact with children around books in ways that are instructive in nature but also responsive to children's verbal contributions; and 2) how to use literature, informational texts, and poetry to achieve the goals of the Common Core State Standards. The authors provide specific recommendations for structuring read-aloud routines in the early childhood classroom, making the read-aloud interactive using instructional strategies that enhance children's vocabulary and content knowledge and supporting and extending children's verbal contributions through scaffolding during the activity. This practitioner-friendly text also includes methods for supporting children with special needs.

Developing Poetry Skills: Reading Poetry

11-14 Geoff Barton, 1998 Fire students' imaginations with this stimulating resource **More Than Guided Reading** Cathy Mere, 2005 Is there too much emphasis on guided reading in primary classrooms? It's a question that many educators like kindergarten teacher and literacy coach Cathy Mere are starting to ask. Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts, but Cathy found that she needed to find other ways to help students gain independence. While maintaining guided reading as an important piece of their reading program, teachers need to offer students opportunities during the day to develop as readers, to learn to choose books to find favorite genres and authors, and to talk about their reading. In *More Than Guided Reading*, Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing children at the heart of literacy learning, not only providing more time for students to discover their reading lives but also shaping instruction to meet the needs of the diverse learners in her classroom. By changing the structure of the day, Cathy found she was better able to adjust the support she was providing students, allowing time for whole class focus lessons, conferences, and opportunities to share ideas as well as reading from self-selected texts using the strategies, skills, and understandings acquired in reader's workshop. The focus lesson is the centerpiece of the workshop. It is often tied to a read aloud and connected to learning from the previous day, helping to build skills, extend thinking, and develop independence over time. This thoroughly practical text offers numerous sample lessons, questions for conferences, and ideas for revamping guided reading groups. It will help teachers tweak the mix of instructional components in their reading workshops and provoke school-wide conversations about the place of guided reading in a complete literacy curriculum. Lightning year 6 Chris Buckton, Jean Kendall, Alison Price, 2003 *Lightning* provides 32 books with 3 levels of differentiation per book, whole texts that provide NLS genre coverage, linked themes across fiction, non-fiction, and the wider curriculum, focussed teaching support for each book including comprehension and writing activities, and a teaching and practice CD that provides opportunities for ICT
