Reading Althusser An Essay On Structural Marxism:

Reading Althusser Steven B. Smith, 1984 **Louis Althusser and the Traditions of French Marxism** William Lewis, 2005-10-17 Throughout the course of the twentieth century communism has enjoyed direct competition with all other governmental and economic systems Often communist countries produced their own special brand of party intellectual These figures rightly occupied their place within their own national context and within the context of the International Some communist intellectuals through the high level of erudition exhibited in their writing have received a wider reception despite their direct linkage to party politics e g Antonio Gramsci Georg Lukacs and Victor Serge are good examples After 1956 when Khrushchev exposed Stalin's atrocities to the Twentieth Congress of the Communist Party of the Soviet Union and as a result to the entire world Marxist philosophy was widely discredited It had been assumed that Stalin's excesses were somehow encouraged or supported through Marx's thought When in the mid 1960s Louis Althusser first offered his re-readings of Marx's philosophy it and communist political practice were in ruin However Althusser was in a unique cultural and historical position Thinking and writing concomitant with the structuralists and poststructuralists in France and also having access to certain theoretical tools while simultaneously committing himself entirely to Marxist thought Althusser was conceivably the last of his tradition He was a Marxist philosopher who unlike Sartre at the end of his life did not abandon communism to for instance existentialism In Louis Althusser and the Traditions of French Marxism William Lewis gives readers a striking example of intellectual biography and critical theory His approach considering the work and life of Althusser within French Marxism and French intellectual culture fills a void in contemporary scholarship But much more importantly Lewis is able to show how Althusser's thought is the result of and a response to specific French intellectual and political traditions of reading Marx It is through this combination of concerns *Reading Capital's Materialist Dialectic* Nick Nesbitt, 2024-05-27 While the explicit Althusserian engagement with Marx's *Capital* remained largely limited to *Reading Capital* after 1968 Nick Nesbitt argues this theoretical intervention remained insistent adopting the form of a general theory of materialist dialectic The book thus analyzes the Althusserianist theory of a materialist dialectic across diverse sites including Althusser's unpublished archive Macherey's exposition of Spinoza's *Ethics* and Badiou's *Logics of Worlds* while simultaneously bringing this fully developed theory of materialist dialectic to bear anew on the reading of *Capital* itself to show that Spinoza's influence on Marx is far greater and that of Hegel increasingly diminishing than has been previously thought **The Poverty of Planning** Benno Engels, 2021-01-15 Using a neo-Marxian perspective Benno Engels examines the absence of urban planning in nineteenth century England In his analysis of urbanization in England Engels considers the influences of property owners inheritance laws local government structures fiscal crises of the local and central state shifts in voter sentiments fluctuating economic conditions and class based pressure group activity **Cultural Theory: The Key Concepts** Andrew Edgar, Peter Sedgwick, 2007-10-18 Now in its second edition *Cultural Theory The Key Concepts* is an up to

date and comprehensive survey of over 350 of the key terms central to cultural theory today This second edition includes new entries on colonialism cybercultur globalisation terrorism visual studies Providing clear and succinct introductions to a wide range of subjects from feminism to postmodernism Cultural Theory The Key Concepts continues to be an essential resource for students of literature sociology philosophy and media and anyone wrestling with contemporary cultural theory **Key**

Concepts in Cultural Theory Andrew Edgar, Peter Sedgwick, 2005-10-09 An up to date and comprehensive survey of over 350 of the key terms encountered in cultural theory today each entry provides clear and succinct explanations for students in a wide range of disciplines *Speaking Two Languages* Allen J. Frantzen, 1991-01-01 This book is designed for the

medievalist interested in contemporary criticism but cautious about its limits The volume s essays are not designed to offer rereadings of familiar texts but to address the problems of articulating tradition and contemporary theory Each contributor interprets critical methods as consciously chosen and spoken languages and explores the consequences of combining a traditional and a contemporary method and hence speaking two languages Each essay includes a critical bibliographical note pointing to further reading in the languages it employs *Constituting Feminist Subjects* Kathi Weeks, 2018-08-14 Kathi

Weeks suggests that one of the most important tasks for contemporary feminist theory is to develop theories of the subject that are adequate to feminist politics Although the 1980s modernist postmodernist debate put the problem of feminist subjectivity on the agenda Weeks contends that limited debate now blocks the further development of feminist theory Both modernists and postmodernists succeeded in making clear the problems of an already constituted essentialist subject What remains as an ongoing project Weeks contends is creating a theory of the constitution of subjects to account for the processes of social construction This book presents one such account Drawing on a number of different theoretical frameworks including feminist standpoint theory socialist feminism and poststructuralist thought as well as theories of peformativity and self valorisation the author proposes a nonessential feminist subject a theory of constituting subjects

Structure, Agency and Theory Ib Gram-Jensen, 2021-04-20 Structure Agency and Theory challenges common readings of Marx and Engels historical materialism and argues the necessity of abandoning their conception of the dialectic of forces and relations of production as the motive power of historical development and transformations because of its doubtful validity and deterministic implications Instead another fundamental conception in historical materialism the interaction between social circumstances and agency as the motive power of history is accentuated with an emphasis on agents experiences as a causal factor arguing its potential in terms of historical explanation and attempting to spell out some of its strategic implications for revolutionary socialism **Theory for Performance Studies** Philip Auslander, 2008 Theory for

Performance Studies A Student s Guide is a clear and concise handbook to the key connections between performance studies and critical theory since the 1960s Philip Auslander looks at the way the concept of performance has been engaged across a number of disciplines Beginning with four foundational figures Freud Marx Nietzsche and Saussure Auslander goes on to

provide guided introductions to the major theoretical thinkers of the past century from Althusser to Žižek. Each entry offers biographical, theoretical, and bibliographical information along with a discussion of each figure's relevance to theatre and performance studies and suggestions for future research. Brisk, thoughtful, and engaging, this is an essential first volume for anyone at work in theatre and performance studies today. Adapted from *Theory for Religious Studies* by William E. Deal and Timothy K. Beal. **Cultural Theory: The Key Thinkers** Andrew Edgar, Peter Sedgwick, 2005-07-28. Featuring over eighty essays, *Cultural Theory: The Key Thinkers* is a seminal guide to the literary critics, sociologists, historians, artists, philosophers, and writers who have shaped culture and society and the way in which we view them. Ranging from Arnold to Le Corbusier, from Eco to Marx, the entries offer a lucid analysis of the work of influential figures in the study of cultural theory, making this the perfect introduction for the student and general reader alike. *Hegel's Critique of Liberalism* Steven B.

Smith, 1991-09-10. In *Hegel's Critique of Liberalism*, Steven B. Smith examines Hegel's critique of rights-based liberalism and its relevance to contemporary political concerns. Smith argues that Hegel reformulated classic liberalism, preserving what was of value while rendering it more attentive to the dynamics of human history and the developmental structure of the moral personality. Hegel's goal, Smith suggests, was to find a way of incorporating both the ancient emphasis on the dignity and even architectonic character of political life with the modern concern for freedom, rights, and mutual recognition. Smith's insightful analysis reveals Hegel's relevance not only to contemporary political philosophers concerned with normative issues of liberal theory but also to political scientists who have urged a revival of the state as a central concept of political inquiry.

Post-Marxist Theory Philip Goldstein, 2005-01-01. An introduction to the philosophical, economic, historical, feminist, and cultural versions of post-Marxist theory. **The Crisis of the Twenty-First Century** Russell Foster, 2017-07-05. Empire is one of the oldest forms of political organisation and has dominated societies in all parts of the world. Yet despite the emergence of nation states in the eighteenth and nineteenth centuries and the apparent end of empire with the breakup of European colonial regimes and the Soviet Union in the twentieth century, empire remains powerful in the modern world. The EU's accession policies, the United States War on Terror, China's economic developments in Africa, among others, draw accusations of imperial agendas. Empire is no stranger to crisis, but in recent years the effects of global austerity have forced states, both powerful and weak, to adapt with varying degrees of success and failure. The confusions, contradictions, and contestations which emerge from imperial crisis point to a vital question: how is austerity changing empire, and how will this shape tomorrow's world? This book was published as a special issue of *Global Discourse*. *Reality Fictions* Thomas W.

Benson, 1989. *Modern Critical Thought* Drew Milne, 2008-04-15. This anthology presents a series of texts in which major twentieth-century thinkers engage in dialogue with their predecessors. Presents a series of texts in which major twentieth-century thinkers engage in dialogue with their predecessors. Offers an innovative way into understanding modern critical thought. Spans the period from Marx to the present day. A conversation of ideas emerges between one generation and the
