Patel, 2004-06-30 The sixth in the series on Research in Applied Linguistics this is a ground breaking study which presents a phonological analysis of Brahmi and its modern derivatives It closely examines India's ancient cultural linguistic background particularly the Vedic Culture of oral tradition and relates this scholarship to current research and theory in linguistics neurobehavioral sciences and special education The author also provides an empirical understanding of reading acquisition by children with a particular focus on those facing poverty a toxic environment and the deprivation associated with low caste status The book is a departure from current neuropsychological research which is

limited to the middle class dyslexic child It argues the need for a multidisciplinary approach which takes into account the effects of poverty socioeconomic deprivation and environmental toxicity on reading acquisition among children from deprived groups Purushottam Patel discusses a number of important issues including The linguistic context and principles underlying the Brahmi script The reasons behind literacy emerging as a part of natural language development especially in an oral culture The cultural habits surrounding reading The importance of the living environment to literacy development The need for multidisciplinary research with an emphasis on neurobehavioral teratology

Identification of Learning Disabilities  
Renee Bradley, Louis Danielson, Daniel P. Hallahan, 2002-12-18 Identification of Learning Disabilities Research to Practice is the remarkable product of a learning disabilities summit conference convened by the Office of Special Education Programs OSEP in August 2001 and the activities following that summit Both the conference and this book were seen as important preludes to congressional reauthorization of the historic Individuals With Disabilities Education Act IDEA scheduled for 2002 and subsequent decision making surrounding implementation The OSEP conference brought together people with different perspectives on LD parents researchers practitioners and policymakers and resulted in this book which examines the research on nine key issues concerning the identification of children with learning disabilities Coverage includes alternative responses to treatment classification approaches processing deficit models and approaches to decision making Chapter Structure Each of the first nine chapters is organized around a lengthy issue oriented paper which presents the most current research on that topic These primary papers are then followed by four respondent papers that reflect a variety of viewpoints on the topic Summarizing Chapter A small group of researchers listed in the final chapter dedicated an enormous amount of time to summarizing the research and developing key consensus statements regarding the identification of children with learning disabilities Their work is sure to have a tremendous impact on future discussions in this area Expertise The following well known scholars have helped summarize the vast amount of research presented in this book as well as the consensus statements derived therefrom Lynne Cook Don Deshler Doug Fuchs Jack M Fletcher Frank Gresham Dan Hallahan Joseph Jenkins Kenneth Kavale Barbara Keogh Margo Mastopieri Cecil Mercer Dan Reschley Rune Simeonsson Joe Torgesen Sharon Vaughn and Barbara Wise

**The Mislabeled Child** Brock Eide, Fernet Eide, 2006-08-01 An incredibly reassuring approach by two physicians who specialize in helping children overcome their difficulties in learning and succeeding in school For parents teachers and other professionals seeking practical guidance about ways to help children with learning problems this book provides a comprehensive look at learning differences ranging from dyslexia to dysgraphia to attention problems to giftedness In The Mislabeled Child the authors describe how a proper understanding of a child's unique brain based strengths can be used to overcome many different obstacles to learning They show how children are often mislabeled with diagnoses that are too broad ADHD for instance or are simply inaccurate They also explain why medications are often not the best ways to help children who are struggling to learn The authors guide readers through the morass of commonly

used labels and treatments offering specific suggestions that can be used to help children at school and at home This book offers extremely empowering information for parents and professionals alike The Mislabeled Child examines a full spectrum of learning disorders from dyslexia to giftedness clarifying the diagnoses and providing resources to help The Eides explain how a learning disability encompasses more than a behavioral problem it is also a brain dysfunction that should be treated differently
