Measures of Self-concept Ruth C. Wylie,1989-01-01 Ruth C Wylie s two volumes of The Self Concept published by Nebraska in 1974 and 1979 evaluated psychological and sociological studies of self concept and self esteem Looking at a plethora of tests Wylie found in 1974 that very few had been adequately conceived or implemented Many produced results that were unverifiable or specious Her findings had disturbing implications not only for the tests

themselves but for substantive research based upon them In the 1980s psychometric tests of self concept have continued to proliferate Wylie has continued to assess them Measures of Self Concept briefly summarizes the psychometric criteria for self concept tests as fully discussed in Wylie s 1974 book and the present general state of methodological adequacy of currently used earlier tests and some promising new ones still under development Although Wylie still finds serious shortcomings she notes a greater attempt today to increase and evaluate the validity of self concept indices This book presents detailed up to date information about and psychometric evaluations of ten self concept tests that appear to be the most meritorious candidates for current use and for further research and development It is the first book since her 1974 volume to review specific as well as general measures of self esteem for a range of ages from preschool to adult Readings in Artificial Intelligence and Databases John Mylopoulos, Michael L. Brodie, 2014-06-28 The interaction of database and AI technologies is crucial to such applications as data mining active databases and knowledge based expert systems This volume collects the primary readings on the interactions actual and potential between these two fields The editors have chosen articles to balance significant early research and the best and most comprehensive articles from the 1980s An in depth introduction discusses basic research motivations giving a survey of the history concepts and terminology of the interaction Major themes approaches and results open issues and future directions are all discussed including the results of a major survey conducted by the editors of current work in industry and research labs Thirteen sections follow each with a short introduction Topics examined include semantic data models with emphasis on conceptual modeling techniques for databases and information systems and the integration of data model concepts in high level data languages definition and maintenance of integrity constraints in databases and knowledge bases natural language front ends object oriented database management systems implementation issues such as concurrency control and error recovery and representation of time and knowledge incompleteness from the viewpoints of databases logic programming and AI Bildung Psychology Dagmar Strohmeier, Petra Wagner, Barbara Schober, 2019-10-18 The concept of Bildung Psychology as developed by Christiane Spiel and her colleagues combines ideas from developmental and educational psychology to describe educational processes with a strong focus on lifelong learning Bildung Psychology is concerned with all educational processes contributing to the development of individuals as well as all conditions and measures potentially influencing these processes and it aims to stimulate integrative use inspired basic research in the field of education The structural model of Bildung Psychology contains three dimensions 1 the Bildung career 2 several functional areas and 3 different levels of activities The theoretical framework systematically classifies psychological actions in the field of education This book combines theoretical pieces discussing important conceptual topics within Bildung Psychology with empirical contributions focused on different phases of the Bildung career The studies were conducted in countries across Europe and across the various age specific educational phases in the Bildung career This book was originally published as a special issue of the European Journal of Developmental
