reports Abduction motifs that appear in science fiction classics such as *The Day the Earth Stood Still* 2001 and *Close Encounters* are analyzed as well as those in lesser known films like *The Stranger Within* *Starship Invasions* *Dark Skies* and *Proximity* Special attention is given to movies based on the famed experiences of abductees Betty and Barney Hill Whitley Strieber and Travis Walton The book also addresses skeptical theories about the origins of the phenomenon in science fiction and examines an uncanny prescience that appears to anticipate these inexplicable occurrences *Quips and Memoirs of the Corps* ,1919 **Motor West and California Motor** ,1918
