Reds In The Hood:

Reds in the Hood Terry Christian,2000-03-01 **Red** Michel Pastoureau,2023-06-13 A beautifully illustrated visual and cultural history of the color red throughout the ages The color red has represented many things from the life force and the divine to love lust and anger Up through the Middle Ages red held a place of privilege in the Western world For many cultures red was not just one color of many but rather the only color worthy enough to be used for social purposes In some languages the word for red was the same as the word for color The first color developed for painting and dying red became associated in antiquity with war wealth and power In the medieval period red held both religious significance as the color of the blood of Christ and the fires of Hell and secular meaning as a symbol of love glory and beauty Yet during the Protestant Reformation red began to decline in status Viewed as indecent and immoral and linked to luxury and the excesses of the Catholic Church red fell out of favor After the French Revolution red gained new respect as the color of progressive movements and radical left wing politics In this beautifully illustrated book Michel Pastoureau the acclaimed author of *Blue Black and Green* now masterfully navigates centuries of symbolism and complex meanings to present the fascinating and sometimes controversial history of the color red Pastoureau illuminates red s evolution through a diverse selection of captivating images including the cave paintings of Lascaux the works of Renaissance masters and the modern paintings and stained glass of Mark Rothko and Josef Albers [Interactive Storytelling](#) Ido A Iurgel,Nelson Zagalo,Paolo Petta,2009-11-24 The rich programme of ICIDS 2009 comprising invited talks technical presentations and posters demonstrations and co located post conference workshops clearly underscores the event s status as premier international meeting in the domain It thereby confirms the decision taken by the Constituting Committee of the conference series to take the step forward out of the national cocoons of its precursors ICVS and TIDSE and towards an itinerant platform reflecting its global constituency This move reflects the desire and the will to take on the challenge to stay on the lookout critically reflect upon and integrate views and findings and experiences and to promote interdisciplinary exchange while ensuring overall coherence and maintaining a sense of direction This is a significant enterprise The challenges sought are multifarious and must be addressed consistently at all levels The desire to involve all research communities and stakeholders must be matched by acknowledging the differences in established practices and by providing suitable means of guidance and introduction exposition and direct interaction at the event itself and of lasting and increasingly living documentation of which the present proceedings are but an important part
