The American Hebrew, 1926 [The Eight and American Modernisms](#) Peter John Brownlee, 2009 Frustrated by the art world's elitism and the snobbish exclusivity of the academy's juries eight American painters united in 1908 to upend the establish norms and stage their own exhibition of modernist art Led by the charismatic Robert Henri they came to be known as The Eight and their two week show at New York's Macbeth Galleries drew a multitude of visitors who crowded into the galleries to critique the much publicized work of these revolutionary artists Their paintings of urban scenes marked a significant departure from the prevailing style which emphasized physical and natural beauty and met with critical success The established chronicle maintains that the Eight were rendered dysfunctional and artistically irrelevant after European modernism arrived in the

Permanent Markers Sarah Abel, 2021-12-16 Over the past twenty years DNA ancestry testing has morphed from a niche market into a booming international industry that encourages members of the public to answer difficult questions about their identity by looking to the genome At a time of intensified interest in issues of race and racism the burgeoning influence of corporations like AncestryDNA and 23andMe has sparked debates about the commodification of identity the antiracist potential of genetic science and the promises and pitfalls of using DNA as a source of objective knowledge about the past This book engages these debates by looking at the ways genomic ancestry testing has been used in Brazil and the United States to address the histories and legacies of slavery from personal genealogical projects to collective racial politics Reckoning with the struggles of science versus capitalism race blind versus race positive public policies and identity fluidity versus embodied experiences of racism Permanent Markers seeks to explain why societies that have broadly embraced the social construction of race continue to search for and find evidence that our bodies are indelibly marked by the past

Pop Art and Beyond Mona Hadler, Kalliopi Minioudaki, 2022-02-24 Pop Art and Beyond foregrounds the roles of gender race and class in encounters with Pop during the Long Sixties Exploring the work of over 20 artists from 5 continents it offers new perspectives on Pop s heterogeneity Featuring an array of rigorous chapters written by both acclaimed experts and emerging scholars this anthology transcends the borders of individual and national contexts and suspends hierarchies

creating a space for the work of artists like Andy Warhol and the women of the Black Arts Movement to converse. It casts an inclusive look at the intersectional complexities of difference in Pop at a moment that gave rise to a plethora of radical social movements and identity politics. While this book introduces revelatory non-canonical artists into the Pop context or amplifies the careers of others, it is not limited to the confines of fine art. Chapters explore the intersecting variables of oppression and liberation in rituals of youth subcultures as well as practices across media with Pop sources and parallels ranging from Native American objects, Harlem advertisements, and Cordel literature to stand-up comedy, music, fashion, and design. Pop Art and Beyond thus widens the conversation about what Pop was and what it can be for current art in its struggle for social justice and critiques of power.

An Emotional State Anna M. Parkinson, 2015-08-28 This literary historical study seeks to dismantle the prevailing notion that Germany in the period following the Second World War exhibited an inability to mourn, arguing that in fact this period experienced a surge of affect. Anna Parkinson examines the emotions explicitly manifested or addressed in a variety of German cultural artifacts while also identifying previously unacknowledged and undertheorized affective structures implicitly at work during the country's national crisis. Much of the scholarship in the expanding field of affect theory distrusts Freudian psychoanalysis, which does not differentiate between emotion and affect. One of the book's major contributions is that it offers an analytical distinction between emotion and affect, finding a compelling way to talk about affect and emotion that is informed by affect theory but that integrates psychoanalysis. The study draws on the psychoanalytic writings of Freud, Margarete and Alexander Mitscherlich, and André Green, while engaging with interdisciplinary theorists of affect including Barbara Rosenwein, Lauren Berlant, Ann Cvetkovich, and Eve Kosofsky Sedgwick among many others.
