Adventures in Photography Alessandro Pezzati, 2012-02-04 Since 1887 the University Museum has been one of the leading archaeology and anthropology museums in the world and has sponsored field research in every corner of the globe A key outcome from its first expedition to Nippur in modern day Iraq through more than 300 expeditions in the past century to its research in fifteen different countries today has been a wealth of primary photographs capturing both expeditions and excavations and also

images of modern peoples on every inhabited continent of our planet These vintage photographs carefully selected from hundreds of thousands range from mundane record keeping pictures to glorious aesthetic treats and they are in demand by international scholars and students and researchers worldwide One of the most powerful of media to convey information about and to advance understanding of foreign peoples and places is photography Soldiers missionaries merchants and other travelers carried out early anthropological photography in distant lands Field photography was extremely difficult when the Museum began its research program in the late 1880s requiring the transport of a complete dark room and other heavy equipment The Museum's intrepid adventurers sought scientific accuracy with no artifice that may have obscured the realism of the image An engaging narrative essay highlighting the Museum's fieldwork explains the contexts of the range of photographs from the Museum's Archives and the role of photography in studying human cultures

Treasured Christina Riggs, 2022-02-01 A bold new history of the discovery of King Tut and the seismic impact it left on modern society When it was discovered in 1922 in an Egypt newly independent of the British Empire the 3 300 year old tomb of Tutankhamun sent shockwaves around the world The boy king became a household name overnight and kickstarted an international obsession that continues to this day From pop culture and politics to tourism and the heritage industry it's impossible to imagine the past century without the discovery of Tutankhamun yet so much of the story remains untold In *Treasured* Christina Riggs weaves compelling historical analysis with tales of lives touched or changed forever by an encounter with the boy king Who remembers that Jacqueline Kennedy first welcomed the young pharaoh to America That a Tutankhamun revival in the 1960s helped save the ancient temples of Egyptian Nubia Or that the British Museum's landmark Tutankhamun exhibition in 1972 remains its most successful ever But not everything about King Tut glitters tours of his treasures in the 1970s were linked to Big Oil his mummified remains have been exploited in the name of science and accounts of his tomb's discovery exclude Egyptian archaeologists *Treasured* offers a bold new history of the young pharaoh who has as much to tell us about our world as his own
